## **Redesigning Democracy Ideas For Better Rules:**

**Redesigning Democracy** Hans Gersbach, 2017-04-07 Could democracy do better This book presents a vision on optimal democracies and a set of new rules to help achieve them The monograph follows on the author's successful book *Designing Democracy* from 2005 and further develops its ideas While liberal democracies are the best systems of self governance for societies they rarely provoke great enthusiasm Democracies have been known to fail in achieving efficient outcomes and fair distributions of wealth Moreover many citizens take the democratic system for granted simply because they have yet to experience an alternative This book argues that the potential offered by democracies has not yet been exhausted and that optimal democracies are both the Utopia for societies and the aim that scientists should commit themselves to making a reality Furthermore the book suggests a number of insightful rules to improve the functioning of democracies We all know what to do we just don't know how to get re-elected after we have done it This famous quip by Jean Claude Juncker perfectly encapsulates the challenge this book takes on how to redesign our democratic institutions to overcome political short termism and make our democracies more efficient Several radical but highly relevant proposals are explored ranging from long term incentive contracts for politicians prediction markets over the outcomes of the next election that could be useful for incentive purposes minority voting initiative group constitutions and so on All these highly innovative proposals are rigorously grounded in standard economic analysis I highly recommend this book to anyone concerned about the state of our democracies and looking for constructive reforms Patrick Bolton Columbia University USA

In a time of reeling democracies it is urgent to explore how to improve on the electoral system for the benefit of society Hans Gersbach has developed a most innovative and thought provoking research agenda at the intersection of political theory social choice and mechanism design He uncovers the potentially positive effects of political contracts between candidates and society of new rules for agenda setting and of mechanisms compensating the minorities Marc Fleurbaey Princeton University USA

*Designing Democracy* Hans A. Gersbach, 2004-09-07 While liberal democracies are the best systems of self governance for societies they rarely invoke great enthusiasm On the one hand democracies have been known to fail in achieving efficient or fair allocations On the other hand many citizens take the democratic system for granted as they have yet to experience an alternative In this book the vision we propose is that the potential of democracies has not yet been exhausted and that optimal democracies are both the Utopia for societies and the aim that scientists should be committed to We present a number of ideas for drawing up new rules to improve the functioning of democracies The book falls into two parts The first part examines ways of combining incentive contracts with democratic elections We suggest that a judicious combination of these two elements as a dual mechanism can alleviate a wide range of political failures while at the same time adhering to the founding principles of democracies The second part presents new rules for decision making and agenda setting Together with modern communication devices these rules can sometimes transcend the limitations of liberal VI Preface democracies in achieving

desirable outcomes Examples of such rules include the flexible majority rule where the size of the majority required depends on the proposal or the rule that only those belonging to the winning majority can be taxed

*Accelerating India's Development* Karthik Muralidharan, 2024-03-28 Seventy five years after Independence India has much to be proud of We are both the world's biggest democracy and fastest growing large economy Yet we face profound challenges that hinder both individual well being and aggregate growth including education and skills health and nutrition public safety justice social protection and jobs This seminal book systematically analyses India's governance challenges especially in delivering essential public services and highlights how these are limiting India's development Drawing on a wealth of research and practical insights it provides actionable evidence based strategies emphasizing state level reforms as critical for India's advancement *Accelerating India's Development* is addressed to all Indians leaders officials entrepreneurs teachers students citizens and civil society and provides an urgent call to action It argues that building an effective state is the great unfinished task of Indian democracy because quality public services are key to translating the political equality of One Person One Vote into greater equality of opportunity for all Indians Every chapter showcases the author's dedication to bridging the gap between scholarly research public understanding and actionable governance This book is a testament to cautious optimism and the belief that with the right public systems in place India's next twenty five years can be a period of unprecedented growth and societal enrichment

**Reconsidering American Liberalism** James Young, 2018-02-06 Forty years ago Louis Hartz surveyed American political thought in his classic *The Liberal Tradition in America* He concluded that American politics was based on a broad liberal consensus made possible by a unique American historical experience a thesis that seemed to minimize the role of political conflict Today with

conflict on the rise and with much of liberalism in disarray James P Young revisits these questions to reevaluate Hartz's interpretation of American politics Young's treatment of key movements in our history especially Puritanism and republicanism's early contribution to the Revolution and the Constitution demonstrates in the spirit of Dewey and others that the liberal tradition is richer and more complex than Hartz and most contemporary theorists have allowed The breadth of Young's account is unrivaled Reconsidering American Liberalism gives voice not just to Locke Jefferson Hamilton Madison Lincoln and Dewey but also to Rawls Shklar Kateb Wolin and Walzer In addition to broad discussions of all the major figures in over 300 years of political thought with Lincoln looming particularly large Young touches upon modern feminism and conservatism multiculturalism postmodernism rights based liberalism and social democracy Out of these contemporary materials Young synthesizes a new position a smarter and tougher liberalism not just forged from historical materials but reshaped in the rough and tumble of contemporary thought and politics This exceptionally timely study is both a powerful survey of the whole of U S political thought and a trenchant critique of contemporary political debates At a time of acrimony and confusion in our national politics Young enables us to see that salvaging a viable future depends upon our understanding how we have reached this point Never without his own opinions Young is scrupulously fair to the widest range of thinkers and marvelously clear in getting to the heart of their ideas Although his book is a substantial contribution to political theory and the history of ideas it is always accessible and lively enough for the informed general reader It is essential reading for anyone who cares about the future of U S political thought or indeed about the future of the country itself

Designing Social Systems in a Changing World Bela H. Banathy, 2013-11-22 In this original text reference Bela H Banathy discusses a broad range of design approaches models methods and tools together with the theoretical and philosophical bases of social systems design he explores the existing knowledge bases of systems design introduces and integrates concepts from other fields that contribute to design thinking and practice and thoroughly explains how competence in social systems design empowers people to direct their progress and create a truly participative democracy Based on advanced learning theory and practice the text's material is enhanced by helpful diagrams that illustrate novel concepts and problem sets that allow readers to apply these concepts

Designing Government Pearl Eliadis, Margaret M Hill, Michael Howlett, 2005-02-14 How do governments govern today and how well do they do it How do governments choose the tools or instruments they will use to get things done In today's world how could these decisions be improved from the standpoint of efficiency effectiveness legitimacy and accountability Designing Government brings together leading experts to examine the instrument choice perspective on government and public policy over the past two decades The authors examine such issues as accountability effectiveness sustainability legitimacy and the impact of globalization The debate is enriched by contributors from several countries who provide a comparative context and most importantly help chart a course for the future Moving beyond the traditional regulatory sphere and its preoccupations with deregulation and efficiency the authors trace the complex

relationships between instrument choices and governance Designing Government encourages the reader to consider factors in the design of complex mixes such as issues of redundancy context the rule of law and accountability These latter factors are especially central in today s world to the design and implementation of effective instrument choices by governments and ultimately to good governance The authors conclude in fact that seeing instrument choice itself as part and parcel of designing government and achieving good governance is both the promise and the challenge for instrument based perspectives in the years ahead Contributors include Hans Bressers University of Twente Neil Gunningham Australian National University John Hoornbeck University of Pittsburgh Margaret Hill Infrastructure Canada Michael Howlett Simon Fraser University Bridget Hutter London School of Economics and Political Science Pierre Issalys Universit Laval R jean Landry Laval University Roderick A Macdonald McGill University Larry O Toole University of Georgia B Guy Peters University of Pittsburgh Michael J Prince University of Victoria Sean Rehaag University of Toronto Arthur B Ringeling Erasmus University Stephen J Toope McGill University Michael J Trebilcock University of Toronto Fr d ric Varone Universit Catholique de Louvain Belgium and Kernaghan Webb Carleton University
