landmark volume is the first to bring together leading scholarship on children's and young adult literature from three intersecting disciplines: Education, English, and Library and Information Science. Distinguished by its multidisciplinary approach, it describes and analyzes the different aspects of literary reading texts and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children's literature. Part one considers perspectives on readers and reading literature in home, school, library, and community settings. Part two introduces analytic frames for studying young adult novels, picturebooks, indigenous literature, graphic novels, and other genres. Chapters include commentary on literary experiences and creative production from renowned authors and illustrators. Part three focuses on the social contexts of literary study with chapters on censorship, awards, marketing, and literary museums. The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds, thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory.

**The Clubwomen's Daughters** Gwen Tarbox, 2014-04-23 The author provides an interdisciplinary cultural study of the evolution of Progressive era girls' peer groups, their representation in popular girls' fiction, and the influence of these communities, both real and fictional, upon young women's lives during the years leading up to the Second World War. The writers featured in this volume were the first generation of New Women whose ability to enter traditionally male spaces such as the college campus, the playing field, the wilderness, and the office was facilitated by their membership in women's clubs, political and religious organizations, and athletic teams. Eager to promote the idea that same-sex group activities would lead to female empowerment, these clubwomen targeted young girls as their intended audience and developed an idealized fictional portrait of female cooperation that girls could replicate in their own lives. By adding to our knowledge of girls' cultural history, the author gives voice to a segment of the population that was and still is at the center of society's debates concerning the appropriate roles for girls and women. Authors discussed include Louisa May Alcott, Emma Dunham Kelley, Laura Lee Hope (pseudonym for Lilian Garis), Carolyn Keene (pseudonym for Mildred Wirt Benson), and Margaret Sutton.

**Delinquents and Debutantes** Sherrie A. Inness, 1998-08 The first volume to examine young girls' culture in the U.S. in the 20th century. Essays address such topics as board games and the socialization of adolescent girls, dolls, and political ideologies, female juvenile delinquency, and more, to demonstrate how cultural discourses shape both the young and teenage girl in America. 9 illustrations.
