Rediscovery Of Wisdom From Here To Antiquity In Quest Of Sophia

Robin Attfield

Rediscovery Of Wisdom From Here To Antiquity In Quest Of Sophia:

The Rediscovery of Wisdom D. Conway, 2000-07-30 By reconstructing it and tracing its vicissitudes David Conway rehabilitates a time honoured conception of philosophy originating in Plato and Aristotle which makes theoretical wisdom its aim Wisdom is equated with possessing a demonstrably correct understanding of why the world exists and has the broad character it does Adherents of this conception maintained the world to be the demonstrable creation of a divine intelligence in whose contemplation supreme human happiness resides Their claims are defended against various latter day scepticisms

Wisdom in Christian Tradition Marcus Plested, 2022-05-12 Following a survey of the biblical and classical background Wisdom in Christian Tradition offers a detailed exploration of the theme of wisdom in patristic Byzantine and medieval theology up to and including Gregory Palamas and Thomas Aquinas in Greek East and Latin West respectively Three principal levels of Christian wisdom discourse are distinguished wisdom as human attainment wisdom as divine gift and wisdom as an attribute or quality of God This journey through Wisdom in Christian Tradition is undertaken in conversation with modern Russian Sophiology one of the most popular and widely discussed theological movements of our time Sophiology is characterized by the idea of a primal pre principle of divine human unity Sophia manifest in both uncreated and created forms and constituting the very foundation of all that is Sophiology is a complex phenomenon with multiple sources and inspirations very much including the Church Fathers Indeed fidelity to patristic tradition was to become an ever increasing feature of its self understanding and self articulation above all in the work of its greatest exponent Fr Sergius Bulgakov 1871 1944 This unmodern turn as it is here christened to patristic sources has however long been fiercely contested This book is the first to evaluate thoroughly the nature and substance of Sophiology s claim to patristic continuity The final chapter offers a radical re thinking of Sophiology in line with patristic tradition This constructive proposal maintains Sophiology s most distinctive insights and most pertinent applications while divesting it of some its more problematic elements Seeking Wisdom in Adult Teaching and Learning Wilma Fraser, 2017-10-24 This book concerns the pursuit of wisdom in education and the argument that wisdom personified here as Sophia is tragically marginalised or absent in current Western epistemological discourses It includes a review of key historical and classical framings which have lost much potency and relevance as certain cultural narratives hold sway these include the reductionist technicist and highly instrumentalist discourses which shape the articulation and delivery of much education policy and practice whilst reflecting similar troubling framings from broader neoliberal perspectives Fraser argues that wisdom s marginalisation has had and continues to have profoundly deleterious consequences for our educative practices Through a compelling combination of narrative and autoethnographic techniques while also drawing on philosophical and cultural traditions the book pushes at the boundaries of emerging knowledge including how knowledge is generated It will be of interest to those who facilitate the learning of adults in a variety of settings as well as to students and supervisors seeking exemplars and justification for working in non traditional

ways *Life in Groups* Margaret Gilbert, 2022-12-19 *Life in Groups How We Think Feel and Act Together* is a collection of standalone essays that explores the nature and consequences of our thinking feeling and acting together Topics include collective intentions and their relation to agreements culture as a collective construction the impact of collective beliefs on scientific progress group lies and the relation of collective wisdom to the freedom of group members Margaret Gilbert responds to critics of her accounts of political obligation and collective moral responsibility and discusses in detail the mutual rights and obligations she takes to be part and parcel of human life in groups Throughout the book Gilbert places her notion of joint commitment at the core of our thinking feeling and acting together **A Handbook of Wisdom** Robert

Sternberg, Jennifer Jordan, 2005-06-13 A topic ignored in mainstream scientific inquiry for decades wisdom is beginning to return to the place of reverence that it held in ancient schools of intellectual study *A Handbook of Wisdom* first published in 2005 explores wisdom's promise for helping scholars and lay people to understand the apex of human thought and behavior At a time when poor choices are being made by notably intelligent and powerful individuals this book presents analysis and review on a form of reasoning and decision making that is not only productive and prudent but also serves a beneficial purpose for society *A Handbook of Wisdom* is a collection of chapters from some of the most prominent scholars in the field of wisdom research Written from multiple perspectives including psychology philosophy and religion this book gives the reader an in depth understanding of wisdom's past present and possible future direction within literature science and society

Moral and Intellectual Virtues in Western and Chinese Philosophy Chienkuo Mi, Michael Slote, Ernest Sosa, 2015-10-05 This is the first book to bring together Western and Chinese perspectives on both moral and intellectual virtues Editors Chienkuo Mi Michael Slote and Ernest Sosa have assembled some of the world's leading epistemologists and ethicists located in the U S Europe and Asia to explore in a global context what they are calling the virtue turn The 15 chapters have never been published previously and by covering topics that bridge epistemology and moral philosophy suggest a widespread philosophical turn away from Kantian and Utilitarian issues and towards character and agent based concerns A goal of this volume is to show students and researchers alike that the re turn toward virtue underway in the Western tradition is being followed by a similar re turn toward virtue in Chinese philosophy Does God Exist? Stan W. Wallace, 2020-09-23 This book presents the most recent debates by leading contemporary philosophers of enduring themes and issues concerning the question of God's existence William Craig and Antony Flew met on the 50th anniversary of the famous Copleston Russell debate to discuss the question of God's existence in a public debate The core of this book contains the edited transcript of that debate Also included are eight chapters in which other significant philosophers Paul Draper R Douglas Geivett Michael Martin Keith Parsons William Rowe William Wainwright Keith Yandell and David Yandell critique the debate and address the issues raised Their substantial and compelling insights complement and further the debate helping the reader delve more deeply into the issues that surfaced In the two final chapters Craig and Flew respond and

clarify their positions taking the debate yet one step further The result of these many contributions is a book which provides the reader with a summary of the current discussion and allows one to enter into the dialogue on this central question in the philosophy of religion International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 In today's pluralistic world many cultures feel a shift in the relationship of people with religious traditions A corresponding movement is a resurgence of interest in human spirituality This Handbook presents the views of education scholars who engage these concepts every day in a collection of essays reflecting the international state of the discipline Out of these rises a vision for the emergence of a just and peaceful world *God and Philosophy* Antony Flew, 2010-09-09 In this classic primer to the philosophy of religion Antony Flew subjects a wide range of philosophical arguments for the existence of the Christian God to intense critical scrutiny However the rumour in some circles is that Flew long time advocate of atheistic humanism has become a theist Judge for yourself **Aristotle on the Uses of Contemplation** Matthew D. Walker, 2018-05-31 Traditionally Aristotle is held to believe that philosophical contemplation is valuable for its own sake but ultimately useless In this volume Matthew D Walker offers a fresh systematic account of Aristotle's views on contemplation's place in the human good The book situates Aristotle's views against the background of his wider philosophy and examines the complete range of available textual evidence including neglected passages from Aristotle's *Protrepticus* On this basis Walker argues that contemplation also benefits humans as perishable living organisms by actively guiding human life activity including human self maintenance Aristotle's views on contemplation's place in the human good thus cohere with his broader thinking about how living organisms live well A novel exploration of Aristotle's views on theory and practice this volume will interest scholars and students of both ancient Greek ethics and natural philosophy It will also appeal to those working in other disciplines including classics ethics and political theory *Philosophy of the Talmud* Hyam Maccoby, 2013-01-11 This is a new presentation of the philosophy of the Talmud The Talmud is not a work of formal philosophy but much of what it says is relevant to philosophical enquiry including issues explored in contemporary debates In particular the Talmud has original ideas about the relation between universal ethics and the ethics of a particular community This leads into a discussion on the relation between morality and ritual and also about the epistemological role of tradition The book explains the paradoxes of Talmudic Judaism as arising from a philosophy of revolution stemming from Jewish origins as a band of escaped slaves determined not to reproduce the slave society of Egypt From this arises a daring humanism and an emphasis on justice in this world rather than on otherworldly spirituality A strong emphasis on education and the cultivation of rationality also stems from this Governing the discussion is a theory of logic that differs significantly from Greek logic Talmudic logic is one of analogy not classification and is peculiarly suited to discussions of moral and legal human situations This book will be of interest to those in the fields of philosophy religion and the history of ideas whether students teachers and academics or the

interested general reader **Five Proofs of the Existence of God** Edward Feser, 2017-08-25 This book provides a detailed updated exposition and defense of five of the historically most important but in recent years largely neglected philosophical proofs of God's existence: the Aristotelian, the Neo-Platonic, the Augustinian, the Thomistic, and the Rationalist. It also offers a thorough treatment of each of the key divine attributes: unity, simplicity, eternity, omnipotence, omniscience, perfect goodness, and so forth, showing that they must be possessed by the God whose existence is demonstrated by the proofs. Finally, it answers at length all of the objections that have been leveled against these proofs. This work provides as ambitious and complete a defense of traditional natural theology as is currently in print. Its aim is to vindicate the view of the greatest philosophers of the past, thinkers like Aristotle, Plotinus, Augustine, Aquinas, Leibniz, and many others, that the existence of God can be established with certainty by way of purely rational arguments. It thereby serves as a refutation both of atheism and of the fideism that gives aid and comfort to atheism.

The Missing Link Roy Abraham Varghese, 2013 The Missing Link blazes a unique trail through the conundrums and controversies generated by evolutionary theory and religious thought. To date, these debates have centered on the origin of species. This book, however, turns the spotlight on the origins of consciousness, thought, and the self, while also considering the relationship between God and science. Remarkably, Darwin himself highlighted the relevance of the origin of consciousness to the question of a creator. Therefore, The Missing Link works within a framework that was laid out at the dawn of the creation-evolution debate. Since that time, however, this framework has rarely been considered or explored. The unifying theme of this volume is the conclusion that the existence of God is grounded in rational thought. Contributors to The Missing Link include three Nobel Prize winners, renowned scientists from Oxford, Cambridge, and Harvard, and noted contemporary philosophers of consciousness, language, and the self.

Modality, Logical Probability, and the Trinity Vlastimil Vohánka, 2022-10-18 This book, in the epistemology of religion, discusses a wide spectrum of sources in analytic scholastic and apologetic philosophy and theology in order to argue non-deductively for the following thesis: Apart from religious experience, it cannot be evident in a defined sense of psychological impossibility that the Trinity doctrine is logically possible. Hence, this conclusion is drawn deductively: Apart from religious experience, it cannot be evident that Christianity or the Trinity doctrine have non-minimal logical probability. As the author points out, however, they still may be justified, well argued, plausibly, logically probable, and probable in other than the logical sense. The book will be of interest to philosophers of religion, analytic theologians, and researchers in analytic scholasticism.

A Pictorial Directory of Ancient and Medieval Places of Baptism Daniel M. Keeran, 2009 **Creation, Sin, Covenant, and Salvation, 2nd Edition** Edward P. Meadors, 2024-05-16 Creation, Sin, Covenant, and Salvation is a primer for biblical theology that is accessible to lay readers of all ages. This is the ideal book for those seeking a short, accessible synopsis of the Christian worldview. Sprinkled with anecdotes and illustrations, the book eases readers into a succinct yet comprehensive discussion of biblical thought. The final chapter explains the authority, practical value, and intended purpose of Scripture. Meadors inspires readers to think

critically about the real life believability of the Christian faith especially its intellectual coherence In keeping with biblical theology the book affirms the continuity of biblical revelation from beginning to end before consummating in the resurrection of the dead and God s restoration of all creation **Creation, Evolution and Meaning** Robin Attfield,2018-07-17 This book presents the case for belief in both creation and evolution at the same time as rejecting creationism Issues of meaning supply the context of inquiry the book defends the meaningfulness of language about God and also relates belief in both creation and evolution to the meaning of life Meaning it claims can be found in consciously adopting the role of stewards of the planetary biosphere and thus of the fruits of creation Distinctive features include a sustained case for a realist understanding of language about God a contemporary defence of some of the arguments for belief in God and in creation a sifting of different versions of Darwinism and their implications for religious belief a Darwinian account of the relation of predation and other apparent evils to creation a new presentation of the argument from the world s value to the purposiveness of evolution and discussions of whether or not meaning itself evolves and of religious and secular bases for belief in stewardship

Understanding Anselm's Ontological Argument Guy Jackson,2023-08-24 Anselm s ontological argument is one of the most fascinating most controversial and most misunderstood arguments in the entire history of Western thought By centring the argument firmly in the Neoplatonic tradition within which Anselm was writing Understanding Anselm s Ontological Argument sheds fresh light and clarity on this enigmatic piece of philosophy It argues that far from resting upon a fallacy or illegitimately attempting to define God into existence Anselm s argument is a powerful and plausible philosophical proof and deserves to be taken seriously as such Written to be understandable for specialists and non specialists alike Understanding Anselm s Ontological Argument is ideal for scholars and researchers in philosophy of religion and philosophy in the Middle Ages especially Neoplatonism as well as for medievalists in general American Book Publishing Record ,2000-07 **The Salisbury Review** ,2000

Yeah, reviewing a ebook **Rediscovery Of Wisdom From Here To Antiquity In Quest Of Sophia** could mount up your near links listings. This is just one of the solutions for you to be successful. As understood, realization does not recommend that you have fantastic points.
