*Rednecks, Eggheads, and Blackfellas* Gillian Cowlishaw, 1999 A narrative through time of how race was lived in rural Australia by both black subjects and white subjects      **Rednecks, Eggheads and Blackfellas** Gillian Cowlishaw, 2020-08-02 This lively book brings the reader close to the people from a remote cattle station in far north Australia where black and white peoples lives have been intertwined over the span of 80 years Tracing the humorous savage and ordinary ways in which race structured intimate and everyday relationships across a great divide Gillian Cowlishaw makes startling and original arguments about race relations By investigating specific patterns of interaction on Australia s cultural frontier *Rednecks Eggheads and Blackfellas* illustrates how anthropologists pastoralists and government officials squabbled about Aborigines as they intruded into their country controlled aspects of their lives and dominated the way they were represented in the public realm The ironic title hints that the difference between redneck pastoralists and egghead anthropologists is not so great as might be imagined Aborigines were central to the projects of both kinds of whitefellas Weaving the shifts in government policy and public opinion with accounts of their sometimes ludicrous impact on outback communities this book brings to life the complexities of living with racial categories And it asks why increasingly enlightened anti racist policies seldom seem to have worked as intended even in this era of self determination This thought provoking work will speak not only to anthropologists and those interested in Aboriginal Australia but to scholars of race more generally especially in the burgeoning field of whiteness studies      **The SAGE Handbook of Social Anthropology** Richard Fardon, Oliva Harris, Trevor H J Marchand, Cris Shore, Veronica Strang, Richard Wilson, Mark Nuttall, 2012-07-25 In two volumes the SAGE Handbook of Social Anthropology provides the definitive overview of contemporary research in the discipline It explains the what where and how of current and anticipated work in Social Anthropology With 80 authors contributing more than 60 chapters this is the most comprehensive and up to date statement of research in Social Anthropology available and the essential point of departure for future projects The Handbook is divided into four sections Part I Interfaces examines Social Anthropology s disciplinary connections from Art and Literature to Politics and Economics from Linguistics to Biomedicine from History to Media Studies Part II Places examines place region culture and history from regional area studies to a globalized world Part III Methods examines issues of method from archives to war zones from development projects to art objects and from ethics to comparison Part IV Futures anticipates anthropologies to come in the Brain Sciences in post Development in the Body and Health and in new Technologies and Materialities Edited by the leading figures in social anthropology the Handbook includes a substantive introduction by Richard Fardon a think piece by Jean and John Comaroff and a concluding last word on futures by Marilyn Strathern The authors each at the leading edge of the discipline contribute in depth chapters on both the foundational ideas and the latest research Comprehensive and detailed this magisterial Handbook overviews the last 25 years of the social anthropological imagination It will speak to scholars in

Docherty, 2014-12-05 Australia's development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large scale immigration Since 1942 it has been a loyal ally of the United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the U S invasion of Iraq in 2003 and in operations in Afghanistan In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors This fourth edition of *Historical Dictionary of Australia* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Australia      *Historical Dictionary of Australian Aborigines* Mitchell Rolls, Murray Johnson, 2019-11-05 The Aboriginal Australians first arrived on the continent at least 60 000 years ago occupying and adapting to a range of environmental conditions from tropical estuarine habitats densely forested regions open plains and arid desert country to cold mountainous and often wet and snowy high country Cultures adapted according to the different conditions and adapted again to environmental changes brought about by rising sea levels at the end of the last ice age European colonization of the island continent in 1788 not only introduced diseases to which Aborigines had no immunity but also began an enduring and at times violent conflict over land and resources Reconciliation between Aborigines and the settler population remains unresolved This second edition of the *Historical Dictionary of Australian Aborigines* contains a chronology an introduction an extensive bibliography and more than 300 cross referenced entries on the politics economy foreign relations religion and culture of the Aborigines This book is an excellent resource for students researchers and anyone wanting to know more about the indigenous people of Australia      *Crime, Justice and Social Democracy* K. Wheeler, 2000 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World **Shape Shifters** Lily Anne Y. **The Ashgate Research Companion to Critical Geopolitics** Merje Kuus, 2016-04-01 Since the late 1980s critical geopolitics has gone from being a radical critical perspective on the disciplines of political geography and international relations theory to becoming a recognised area of research in its own right

Influenced by poststructuralist concerns with the politics of representation critical geopolitics considers the ways in which the use of particular discourses shape political practices Initially critical geopolitics analysed the practical geopolitical language of the elites and intellectuals of statecraft Subsequent iterations have considered the role that popular representations of the international political world play As critical geopolitics has become a more established part of political geography it has attracted ever more critique from feminists for its apparent blindness to the embodied effects of geopolitical praxis and from those who have been uncomfortable about its textual focus while others have challenged critical geopolitics to address alternative resistant forms of geopolitical practice Again critical geopolitics has been reworked to incorporate these challenges and the latest iterations have encompassed normative agendas non representational theory emotional geographies and affect It is against the vibrant backdrop of this intellectual development of critical geopolitics as a subdiscipline that this Companion is set Bringing together leading researchers associated with the different forms of critical geopolitics this volume produces an overview of its achievements limitations and areas of new and potential future development The Companion is designed to serve as a key resource for an interdisciplinary group of scholars and practitioners interested in the spatiality of politics
