The Enchantment of Modern Life Jane Bennett, 2001-08-05 It is a commonplace that the modern world cannot be experienced as enchanted that the very concept of enchantment belongs to past ages of superstition Jane Bennett challenges that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual

refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

The Art of Re-enchantment Nick Wilson, 2014 Historically informed performance HIP has provoked heated debate amongst musicologists performers and cultural sociologists In *The Art of Re-enchantment Making Early Music in the Modern Age* author Nick Wilson answers many salient questions surrounding HIP through an in depth analysis of the early music movement in Britain from the 1960s to the present day

The Cosmic Breath Amos Yong, 2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn *The Cosmic Breath* explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective

Living the Magical Life Suzi Gablik, 2002-01-01 This is a compelling account of one woman's journey to reclaim the magical oracular and spiritual dimensions of life After building a personal altar to the Black Madonna art critic Suzi Gablik finds herself immersed in a world of oracles and synchronicities Adopting an attitude of openness trust and curiosity she experiments with the reality of divine intervention relying on oracular signs numinous clues guided inspiration and moments of meaningful coincidence as another way of knowing and appreciating the world Confronting the challenges of a powerful experience that is filled with paradox and ambiguity she arrives at a very special place of being able to enjoy accept and trust the ultimate inscrutability of the universe Today many of us live without access to the visionary part of our psyche We tend to think of life as being unpredictable and random a series of disconnected events flowing like an arrow through time *Living the Magical Life* opens a doorway to a deeper vision of the world

[The Philosophy of Reenchantment](#) Michiel Meijer, Herbert De Vriese, 2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview They also explore the significance of adopting a reenchanting perspective for debates on major concepts such as nature naturalism God ontology and disenchantment Taken together they demonstrate

that there is much to be gained from working with a more substantial and affirmative concept of reenchancement understood as a fundamental existential orientation towards what is seen as meaningful and of value The Philosophy of Reenchancement will be of interest to scholars and advanced students in philosophy especially those working in moral philosophy metaphysics philosophy of religion theology religious studies and sociology *The Problem of Disenchancement* Egil Asprem,2018-05-31 Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity Instead of a sociohistorical process of disenchantment that produces increasingly rational minds Asprem maintains that the continued presence of magic and enchantment in people s everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries Drawing on a wide range of early twentieth century primary sources from theoretical physics occultism embryology radioactivity psychical research and other fields Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value meaning and the limits of knowledge

RE-ENCHANTING ART THERAPY Lynn Kapitan,2003-01-01 *Re Enchanting Art Therapy* is written for art therapists supervisors students and colleagues in related fields who seek to approach their work as a living artistic practice but struggle to do so in the often toxic work environments where art therapy is most needed Asking What kills creative vitality research uncovered core images that art therapists associate with toxic work and the elements of re enchantment Author Lynn Kapitan relates in stories and images of art therapists how re enchantment is a cycling process that requires an unambivalent relationship with creative power Chapter One uses the myth of the dragon to tell stories of art therapists awakening creative energy in a constantly changing postmodern world Chapter Two explores transformation in the symbol of the begging bowl held out to accept whatever is placed within as the materials for creative renewal Using the research method of collaborative witness Chapter Three offers transformative stories of several disenchanted art therapists who discover their disconnection from the primordial source of their creativity in the imagery of water A community intervention in Chapter Four the Reflective Circle of Peers presents issues and methods that art therapists use to transform their practices In Chapter Five Lynn Kapitan addresses fears and yearning in the toxic work environment where such practices as playing with wolves and painting in the crossroads teach her the values of the threshold space and the fierce hearted embrace of her creativity *Re Enchanting Art Therapy* challenges art therapists to transform the practice of art therapy with creative vitality **The Re-Enchantment of the West** Christopher Partridge,2005-03-04 As a book about emergent spirituality in the contemporary West it focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of

the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West Chris Partridge argues that Western Society is permeated by a broad occulture by which he means a reservoir of ideas beliefs theories and practices to which new religions unorthodox spiritualities film and popular music all draw attention This re enchantment of the West should not be seen as a superficial secondary development in the shadow of Christianity In many ways it is a religious phenomom in its own right Partridge s arguments in this regard are well put and I warmly welcome this timely book Mikhael Rothstein University of Copenhagen Denmark *Re-enchanting Nationalisms* Brad West,2015-04-13 This book provides original insight into the way we now engage and remember national history Drawing on fieldwork and analysis of international case studies on state commemoration memorialization recreational and tourism and times of disaster and crisis the author demonstrates that not only does the nation frequently retain a strong cultural relevance in our global world but that the emergence of new forms of ritual and remembrance means that in many instances we are seeing the re enchantment of nationalism Drawing upon and developing an empirically informed cultural sociology the author charts the distinctive qualities of these new national rites and how they feed into and advance particular cosmopolitan and orthodox national politics Because social science has so often wrongly assumed the end of nationalism the insights of this of the book about the possibilities and limitations of contemporary nationalism demand serious consideration by academics and also by policy makers and the general public *The Re-Enchantment of the West, Vol 2* Christopher Partridge,2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture **Varieties of Ethical Reflection** Michael Barnhart,2002-01-01 Varieties of Ethical Reflection brings together new cultural and religious perspectives drawn from non Western primarily Asian philosophical sources to globalize the contemporary discussion of theoretical and applied ethics The work pushes ethics beyond a Western philosophical tradition tending toward universalism to infuse and broaden modern ethical theory with relativistic Asian ethical principles The contributors introduce multicultural concepts and ideas from the Chinese Taoist Confucian and Neo Confucian Indian and East Asian Buddhist and Hindu traditions focusing on such areas of moral controversy as the clash between women s rights and culture universal human rights abortion and euthanasia in a non Western setting and the standardization of medical practice across cultures Consuming Experience Antonella Caru,Bernard Cova,2013-01-11 This

book covers the hot topic of the experiential consumption in an accessible manner and from a unique industry perspective which is not used in any other book It highlights the idea that an experience is not something that can be readily managed by firms and is not limited to the market an individual s daily life is made up of consuming experiences that can occur with or without a market relation Offering an overview of the consumption experience it outlines a continuum of experiences of consumption that consumers go through including those that are mainly constructed by consumers around small items that comprise their daily life such as organic products and non profit or local associations those that have been co developed by companies and consumers tourism or adventure projects rock concerts and cultural events those that have been largely developed by the companies where consumers are immersed in a hyper real context such as fashion sports brands edutainment and retail Broad and comprehensive this book provides a challenging vision of the consumption experience which is an invaluable tool for all those studying marketing and consumer behaviour **Fates of the Performative** Jeffrey

T. Nealon, 2021-04-06 A powerful new examination of the performative that asks what s next for this well worn concept From its humble origins in J L Austin s speech act theory of the 1950s the performative has grown to permeate wildly diverse scholarly fields ranging from deconstruction and feminism to legal theory and even theories about the structure of matter Here Jeffrey T Nealon discovers how the performative will remain vital in the twenty first century arguing that it was never merely concerned with linguistic meaning but rather constitutes an insight into the workings of immaterial force **Fates of the Performative** takes a deep dive into this performative force to think about the continued power and relevance of this wide ranging concept Offering both a history of the performative s mutations and a diagnosis of its present state Nealon traces how it has been deployed by key writers in the past sixty years including foundational thinkers like Jacques Derrida Eve Kosofsky Sedgwick and Judith Butler contemporary theorists such as Thomas Piketty and Antonio Negri and the conceptual poetry of Kenneth Goldsmith Ultimately Nealon s inquiry is animated by one powerful question what s living and what s dead in performative theory In deconstructing the reaction against the performative in current humanist thought **Fates of the Performative** opens up important conversations about systems theory animal studies object oriented ontology and the digital humanities Nealon s stirring appeal makes a necessary declaration of the performative s continued power and relevance at a time of neoliberal ascendancy **Tania El Khoury's Live Art** Laurel V. Re-founding the World Jean-Claude Guillebaud, 2001 Is it time to dump Western capitalism's values Or on the contrary to re-found our market-based society by dumping its distortions and returning to the fundamental values of our Greek-Judeo-Christian heritage

Re-crafting Rationalization Simon Locke, 2016-03-23 *Re-crafting Rationalization* contributes to debates relating to the public understanding of science regarding the conceptualization of the relationship between science and the public It challenges the prevailing science-centred or top-down framework that currently informs notions of public engagement and knowledge transfer offering an alternative that remains firmly grounded in the discourse of classical social theory By proposing an alternative version of rationalization to the standard interpretation of Weber's disenchantment thesis this book establishes the public understanding of science as a matter of fundamental sociological concern As such it redefines this field to emphasize public meanings of science engaging with a range of topics of major interest to the public and popular meaning of science including science and religion science fiction and fantasy fringe science and media representations of science Combining rhetorical analysis with ethnomethodology and membership categorization analysis the book outlines the basis of a new approach to the sociology of knowledge in the light of which Weber's rationalization thesis is radically re-crafted in relation to studies of scientists' discourse the rhetoric of science popularization and public usages of science This re-crafted rationalization is applied in a series of detailed empirical studies of enchanted science creationism and intelligent design Scientology and reflexive spirituality superhero comics and mundane mysteries Fortean discourse conspiracy theory and media representations of the scientist in the case of Jack the Ripper *Re-crafting Rationalization* therefore redresses a significant shortcoming in contemporary social theory which currently overlooks or misrepresents important public meanings of science whilst excluding popular culture from attention With profound implications for the ways in which we make sense of developments involving science this book will be of interest not only to sociologists and social theorists but also to those interested in popular culture and subcultures and the history philosophy and sociology of science
