Buschmann, David Manzano Cosano, 2024-04-01 Through a number of significant case studies this volume examines changing Iberian dynamics in the Pacific bridging the gaps between English and Spanish speaking scholarship to highlight understudied actors and debates in the eighteenth and nineteenth centuries The book shifts the predominant emphasis on Anglo American studies and the historical neglect of Iberian endeavors in this ocean by focusing on several episodes that illuminate Spanish engagement in the Pacific It describes Spain's treatment of this sea from its discovery to the end of the overseas empire in 1899 becoming the first book to place its analytical focus in the heart of the islands rather than the Pacific Rim In tracing shifting Spanish positions and policies the book cautions against making generalities about the distinct histories of Pacific islands and their Indigenous populations uncovering a much more heterogeneous world than previous research may convey *Exploring Iberian Counterpoints in the Eighteenth and Nineteenth Century Pacific* is the perfect resource for students and researchers of the Iberian world Hispanic studies and the Pacific Ocean in early modern and modern eras **Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion** Albert John Walford, Marilyn Mullay, Priscilla Schlicke, Library Association, 1999 A revised and updated guide to reference material It contains selective and evaluative entries to guide the enquirer to the best source of reference in each subject area be it journal article CD ROM on line database bibliography encyclopaedia monograph or directory It features full critical annotations and reviewers comments and comprehensive author title and subject indexes The contents include philosophy and psychology religion social sciences sociology statistics politics economics labour and employment land and property business organizations finance and banking and economic surveys economic policies and controls trade and commerce business and management and law public administration social services and welfare education customs and traditions geography biography and history *Adoption, Emotion, and Identity* Manuel Rauchholz, 2024-02-02 Exploring adoption in the Pacific this book goes beyond the commonplace structural functional analysis of adoption as a positive transaction in parenthood It examines the effects it has on adoptees inner sense of self their conflicted emotional lives and familial relationships that are affected by a personal sense of rejection and not belonging This account is theoretically rooted in ethnopsychology based on field work conducted across multiple research sites in the Chuuk Lagoon its neighboring Chuukic speaking atolls and persons from neighboring Micronesian island communities *Regions with Goodes Atlas Set* Deblij, 2001-05 **VFR Travel Research** Elisa Backer, Brian King, 2015-06-01 This is the first book to explore research on visiting friends and relatives VFR In many countries VFR is the largest single travel related market and
