Referendum Experience In Europe Pr

Maija Setälä, Theo Schiller

Referendum Experience In Europe Pr:

The Referendum Experience in Europe Pier Vincenzo Uleri, Michael Gallagher, 2016-07-27 The referendum has become established as part of the decision making process in many European countries Experts from each country survey the historical experience and current debates in Austria Denmark Finland France Ireland Italy the Netherlands Norway Russia and eastern Europe Sweden Switzerland and the United Kingdom The impact of the referendum experience upon European politics is assessed and the merits of the use of the referendum are evaluated with a discussion on the implications for political parties party systems and representative government

The Politics of Referendum Use in European Democracies Saskia Hollander, 2019-04-02 This book demonstrates that the generally assumed dichotomy between referendums and representative democracy does not do justice to the great diversity of referendum types and of how referendums are used in European democracies Although in all referendums citizens vote directly on issues rather than letting their political representatives do this for them some referendums are more direct than others Rather than reflecting the direct power of the People most referendums in EU countries are held by and serve the interests of the political elites most notably the executive The book shows that these interests rarely match the justifications given in the public debate Instead of being driven by the need to compensate for the deficiency of political parties decision makers use referendums primarily to protect the position of their party In unravelling the strategic role played by national referendums in decision making this book makes an unconventional contribution to the debate on the impact of referendums on democracy

EU Enlargement and Referendums Aleks Szczerbiak, Paul Taggart, 2013-09-13 A series of EU accession referendums were held in nine candidate countries eight post communist states and Malta between March and September 2003 These referendums provide us with an excellent comparative opportunity to deepen our understanding of the European integration issue and how it interacts with domestic politics and of the dynamics of referendums in general and referendums on the European issue in particular This book therefore provides a set of focused comparisons between these different cases Each of the individual chapters provides an authoritative analysis of the referendum campaign and outcome in each of the countries concerned by a leading specialist on the politics of that country This book was previously published as a special issue of the journal West European Politics

Referendums Around the World Matt Qvortrup, 2024-06-04 Direct Democracy is inexpensive The average cost per vote is about 10 So maybe we should have more of them Before you answer that question you need to know the facts about this type of complementary democracy Referendums Around the World is a complete and comprehensive revision of the 2016 edition of Referendums Around the World which in turn was an updated version of the 2013 edition the proposed volume is a comprehensive revision and update of the previous book The previous edition provided overviews of the history legal basis and practice of referendums around the world with chapters on Africa Australia Asia Latin America Europe and a special chapter on Switzerland the sui generis of referendums In addition this third edition

offers a completely revised introduction by the editor a wholly revised concluding chapter by the editor a special chapter on winning referendums including perspectives from neuroscience as well as a list of all nationwide referendums held to date

Referendums and the European Union Fernando Mendez, Mario Mendez (College teacher), Vasiliki Triga, 2014-06-12 A comprehensive and comparative treatment of the EU referendum experience based on an interdisciplinary approach that combines law and politics

A Comparative Study of Referendums Mads Qvortrup, Matt Qvortrup, 2005-10-07 Combining an account of the political history and philosophy of the referendum with a thorough assessment of the practical experiences with referendums in western democracies this book has established itself as the unrivalled market leader in the field Fully revised and with new chapters on campaign spending and the administration of referendums the second edition of this book provides a thorough overview of the theory and practice of referendums

The Routledge Handbook to Referendums and Direct Democracy Laurence Morel, Matt Qvortrup, 2017-12-12 Over the last 30 years referendums have played an increasingly important role in determining government policy Recent high profile referendums in Scotland Catalonia and Ukraine have continued the movement towards independence referendums following decolonization and the end of the Cold War The Greek bailout referendum and Britain's vote on membership of the EU reflect a tradition of European states giving their people a direct say in the transfer of sovereign powers to the European Union seen through the ratification of key treaties such as Maastricht Amsterdam Nice and Lisbon This Routledge Handbook covers key aspects and issues of direct democracy and referendums throughout the world including their history when why where how and on which issues referendums are held why some referendums are more democratic than others how referendums are won whether they produce good policies if referendums increase participation and improve the quality of representative democracies do referendums increase trust in democracy and the political actors the impact of new technology on the possibilities methods and frequency of direct public political participation how they should be regulated Covering other related areas such as recall citizen juries and random selection this compendium is an indispensable guide to referendums and the workings of modern democracy

Citizens' Initiatives in Europe M. Setälä, T. Schiller, 2012-03-13 An exploration and analysis of the regulation and practices of citizens initiatives in eleven European democracies and the EU The contributors to this volume shed light on how citizens initiatives influence patterns of political agenda setting in representative democracies and how they can contribute to participatory democracy

Voices of Europe Simon Hug, 2002 In order to assess the impact of referendums on European integration this study offers a comparative analysis of referendums that have occurred so far It then draws on comparative data to analyze the consequences of referendums

Direct Democracy and Minorities Wilfried Marxer, 2012-02-27 Modern direct democracy has become an essential element of political life in many countries in Europe and worldwide The initiative and referendum process offers extra channels for citizen participation and thus represents an important supplementary institution in modern democracies This third volume of the series Direct Democracy in Modern Europe focuses on direct

democratic decisions on minority affairs The main question is whether direct democracy tends towards a domination of the majority over a minority producing new conflicts or whether how and under what conditions it helps to solve problems in complex societies and leads to lasting solutions to political disputes This volume includes articles by specialist researchers on historical experiences of direct democratic decisions on territorial conflicts theoretical considerations on direct democracy and minorities case studies on popular votes concerning minority issues several country case studies the role of the media in direct democratic campaigns on minority affairs the potential of transnational direct democracy **Referendum**

Democracy M. Mendelsohn,A. Parkin,2001-09-25 As the referendum becomes a more regular component of decision making it leaves few if any institutions processes and values of democracy untouched Political actors of all kinds including political parties and interest groups seek to use the referendum device to further their own objectives The end result is a different kind of democracy than existed before This book lays out the comparative research agenda on the impact of referendums on the practice of liberal democracy *The Palgrave Handbook of European Referendums* Julie Smith,2021-03-02 This

handbook provides an empirically rich analysis of referendums in Europe from the end of the Second World War to the present It addresses a range of perennial theoretical and legal questions that face policy makers when they offer citizens the chance to take or influence decisions by referendum not least whether to accept the will of the people Taking a multi disciplinary approach drawing on historical philosophical and political science perspectives the book includes a contextual section on the history of referendums the theoretical questions underpinning their use and on constitutional and legal questions about the use of referendums The empirical sections are divided into those referendums that focus on domestic issues such as constitutional matters or questions of social policy and those related to the European Union including membership referendums and treaty ratification The Dynamics of Referendum Campaigns Claes H. de Vreese,2007-10-24

This book focuses on the key actors in a referendum the political elites parties the media and citizens and is centred around themes such as campaign style campaign effects electoral mobilization and turnout as well as vote choice The contributors consider the impact and importance of referendum campaigns **Constitutional Referendums** Stephen

Tierney,2012-04-05 The use of referendums around the world has grown remarkably in the past thirty years and in particular referendums are today deployed more than ever in the settlement of constitutional questions even in countries with little or no tradition of direct democracy This is the first book by a constitutional theorist to address the implications of this development for constitutional democracy in a globalizing age when many of the older certainties surrounding sovereignty and constitutional authority are coming under scrutiny The book identifies four substantive constitutional processes where the referendum is regularly used today the founding of new states the creation or amendment of constitutions the establishment of complex new models of sub state autonomy particularly in multinational states and the transfer of sovereign powers from European states to the European Union The book as a study in constitutional theory addresses the challenges

this phenomenon poses not only for particular constitutional orders which are typically structured around a representative model of democracy but for constitutional theory more broadly The main theoretical focus of the book is the relationship between the referendum and democracy It addresses the standard criticisms which the referendum is subjected to by democratic theorists and deploys both civic republican theory and the recent turn in deliberative democracy to ask whether by good process design the constitutional referendum is capable of facilitating the engagement of citizens in deliberative acts of constitution making With the referendum firmly established as a fixture of contemporary constitutionalism the book addresses the key question for constitutional theorists and practitioners of how might its operation be made more democratic in age of constitutional transformation **Referendums and Representative Democracy** Maija Setälä, Theo

Schiller, 2009-09-10 This volume analyses how the use of referendums affects the central functions and characteristics of representative democracy It provides a balanced account of the interaction between referendums and representative institutions and actors seeking to evaluate whether referendums supplement or undermine representative democracy Considering both normative and empirical questions the volume also examines the particular circumstances under which referendums strengthen or weaken representative democracy Providing a variety of theoretical and methodological approaches used in the study of referendums this book is divided into three sections Referendums and the Models of Democracy The Demand of Referendums Party Ideologies and Strategies and Referendum Campaigns and Voter Behaviour It features case studies on Ireland Israel Canada California Italy Liechtenstein Switzerland the Nordic Countries the Netherlands Spain and the EU Constitutional Treaty In addition to system level evaluations of referendums studies on the ideological attitudes of political actors and strategic use of referendums the volume also provides analyses of referendum campaigns and voters choices in referendums Covering referendums on European integration the volume also demonstrates how supra national governance gives rise to the demand of referendums This volume will be of interest to students and scholars of political science political theory comparative politics and European studies The 1975 Referendum on Europe -

Volume 2 Mark Baimbridge, Philip Whyman, Andrew Mullen, 2016-10-31 Provides an analysis of the relationship between the UK and the EU treating the key overarching issues in the 1975 referendum and looking ahead to the prospect eventually of further referendums on the subjects of EMU and a European constitution Referendums as Representative Democracy

Leah Trueblood, 2024-04-18 In referendums on fundamental constitutional issues do the people come together to make decisions instead of representatives This book argues no It offers an alternative theory of referendums whereby they are one of many ordinary ways that voters give direction to their representatives In this way the book argues that referendums are better understood as exercises in representative democracy The book challenges the current treatment of referendums in processes of constitutional change both in the UK and around the world It argues that referendums have been used under the banner of popular sovereignty in a way that undermines representative institutions This book makes the case for the use of

referendums stronger by showing how they can support rather than undermine institutions of representative democracy Understanding referendums as exercises in representative democracy has broader implications for constitutional democracy as well Rather than see the power to constitute constitutions as something that happens occasionally in exceptional moments through referendums this book argues instead that voters constantly have the power to constitute and reconstitute their constitutions

Comparative Politics Daniele Caramani, 2014 This exciting and authoritative introduction to comparative politics provides a range of perspectives methods and theories at the heart of political systems around the world Alongside explanations of the most important themes students are presented with a wealth of empirical data to demonstrate similarities and differences in practice and to encourage research This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation

Referendums and Ethnic Conflict Matt Qvortrup, 2022-04-05 Although referendums have been used for centuries to settle ethnonational conflicts there had yet been no systematic study or generalized theory concerning their effectiveness until Matt Qvortrup's *Referendums and Ethnic Conflict* Qvortrup's study filled the gap with a comparative and empirical analysis of all the referendums held on ethnic and national issues from the French Revolution to the 2012 referendum on statehood for Puerto Rico Drawing on political theory and descriptive case studies the scholar created typologies of referendums that are held to endorse secession redraw disputed borders legitimize a policy of homogenization or otherwise manage ethnic or national differences He considered the circumstances that compel politicians to resort to direct democracy such as regime change and the conditions that might exacerbate a violent response Qvortrup offers a clear eyed assessment of the problems raised when conflict resolution is sought through referendum as well as the conditions that are likely to lead to peaceful outcomes This updated and revised edition includes a new introduction bringing the general field to the present as well as new specific sections on Scotland 2014 Catalonia 2017 and the Brexit vote in the United Kingdom 2016 The original work's political framework now also covers the literature on identity politics online campaigning the regulation of social media and how referendums are used increasingly as populist devices This edition also updates referendum results through the end of 2020

Sovereignty Referendums in International and Constitutional Law İlker Gökhan Şen, 2015-01-28

This book focuses on sovereignty referendums which have been used throughout different historical periods of democratization decolonization devolution secession and state creation Referendums on questions of sovereignty and self determination have been a significant element of the international political and legal landscape since the French Revolution and have been a central element in the resolution of territorial issues from the referendum in Avignon in 1791 until today More recent examples include Quebec East Timor New Caledonia Puerto Rico and South Sudan The global aim of this book is to achieve a better empirical and legal understanding of sovereignty referendums and related problems in international and

national law and politics Accordingly it presents readers a comprehensive study of sovereignty referendums from the perspectives of both international and constitutional law

Referendum Experience In Europe Pr Book Review: Unveiling the Magic of Language

Referendum Experience In Europe Pr Introduction

In today's digital age, the availability of Referendum Experience In Europe Pr books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Referendum Experience In Europe Pr books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Referendum Experience In Europe Pr books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Referendum Experience In Europe Pr versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Referendum Experience In Europe Pr books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Referendum Experience In Europe Pr books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Referendum Experience In Europe Pr books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works

and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Referendum Experience In Europe Pr books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Referendum Experience In Europe Pr books and manuals for download and embark on your journey of knowledge?

FAQs About Referendum Experience In Europe Pr Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Referendum Experience In Europe Pr is one of the best book in our library for free trial. We provide copy of Referendum Experience In Europe Pr in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Referendum Experience In Europe Pr. Where to download Referendum Experience In Europe Pr online for free? Are you looking for Referendum Experience In Europe Pr PDF? This is definitely going to save you time and cash in something you should think about.
