One of our favourite chroniclers of all things Canadian presents a rollicking personal photo filled history of the relationship between a country and its canoes From the earliest explorers on the Columbia River in BC or the Mattawa in Ontario to a doomed expedition of voyageurs up the Nile to rescue Khartoum from the author s family roots deep in the Algonquin wilderness to modern families who have canoed across the country kids and dogs included Canoe Country is Roy MacGregor s celebration of the essential and enduring love affair Canadians have with our first and still favourite means of getting around Famous paddlers have been so enchanted with the canoe that one swore God made Canada as the perfect country in which to paddle it Drawing on MacGregor s own decades spent whenever possible with a paddle in his hand this is a story of high adventure on white water and the sweetest peace in nature s quietest corners from the author best able and most eager to tell it

Rooted in Rock Jim Gould,2001-06-01 In the past twenty years the Adirondacks have inspired a resident population of writers who have gained regional and national prominence using the Adirondack region as their primary setting and subject matter or at least as a significant point of departure Rooted in Rock is the first collection of its kind in more than twenty years since Paul Jamieson s Adirondack Reader What makes the volume unique though is the number of contributors who not only make the Adirondacks their subject but who make their homes in these mountains The works in this volume include contemporary essays literary nonfiction poetry short fiction and excerpted fiction and are a mix of new and previously published writings by forty three authors established as well as emerging including Bill McKibben Sue Halpern Russell Banks Alex Schoumatoff Chase Twichell Curt Stager Amy Godine and Jim Gould to name a few Canoe Country Florence P. Flypaper Chris Angus,2014-09-02 Ebola Coronavirus and SARS have frightened the world How would we fight a deadly disease that comes from beyond planet Earth When a 2 000 year old mummy is unearthed in central China investigators from all over the world fly in to Washington DC for a top secret meeting hoping to find an answer to its mysterious genetic anomalies But the scientists may have mistakenly released a new deadly disease of extraterrestrial origins in the process of examining the genetic markers of the ancient mummy The devastating human error causes a worldwide plague one that penetrates the barriers of the human immune system Sino expert Eric Logan and archaeologist Dr Marcia Kessler lead an expedition back to the icy glaciers of China to extract a much older 20 000 year old mummy which could help them formulate a cure Even as they embark on their mission the strange illness afflicts the people around them turning men into mindless monsters The team retreats to a remote Buddhist monastery and must hold off a vicious army of victims As they wrestle with the possibility that they may be the last living humans on earth someone finds an ancient burial object that may hold the key

Whitaker's Books in Print ,1998 **The Publishers Weekly** ,1997 *The Writers Directory* ,2013 *Book Review Index* ,2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis

examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNMWP Also revealed in *National Dreams* are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop *The North Country* Harry Anton Auer, 1906 Keywords include Ojibways Pigeon Falls Lake Superior Crees Biddequaw Peterborough North Woods Forest trading room North Country Trail Wawa Moose Factory **Library Journal**, 1997 **Nature's Crossroads** George Vrtis, Christopher W. Wells, 2023-01-10 Minnesota's Twin Cities have long been powerful engines of change From their origins in the early nineteenth century the Twin Cities helped drive the dispossession of the region's Native American peoples turned their riverfronts into bustling industrial and commercial centers spread streets and homes outward to the horizon and reached well beyond their urban confines setting in motion the environmental transformation of distant hinterlands As these processes unfolded residents inscribed their culture into the landscape complete with all its tensions disagreements contradictions prejudices and social inequalities These stories lie at the heart of *Nature's Crossroads* The book features an interdisciplinary team of distinguished scholars who aim to open new conversations about the environmental history of the Twin Cities and Greater Minnesota
