

Qaddafi government's air-defense system, which threatened allied warplanes. But administration officials and some military officers balked, fearing that it might set a precedent for other nations, in particular Russia or China, to carry out such offensives of their own. They were also unable to resolve whether the president had the power to proceed with such an attack without informing Congress. In the end, American officials rejected cyberwarfare and used conventional aircraft, cruise missiles and drones.

By late May, the weeks of NATO bombing seemed to put the momentum back on the side of the rebels, who broke a bloody siege of the western city of Misrata. By August, they were making territorial gains in the country's east and west. Colonel Qaddafi rejected calls to leave power in spite of defections by subordinates, increased economic and political isolation and NATO air assaults. The rebels themselves suffered from internal dissension and lack of training.

Six months of inconclusive fighting gave way within a matter of days to an assault on Tripoli that unfolded at a breakneck pace. By the night of Aug. 21, rebels surged into the city, meeting only sporadic resistance and setting off raucous street celebrations. Expectations grew that Colonel Qaddafi's hold on power was crumbling as rebels overran his heavily fortified compound on Aug. 23 and finally established control after days of bloody urban street fighting. The rebels struggled in the days that followed to restore order and services to Tripoli, while the fighting to subdue the last of the Qaddafi stronghold proceeded slowly.

Rifts between tribes and the growing influence of Islamists in Libya raised hard questions about the ultimate character of the government and society that will rise in place of Qaddafi's autocracy. The Transitional National Council, which has promised to assemble a new cabinet, has thus far been unable to overcome regional disputes over the composition of the group or to persuade the militias that seized Tripoli to give up their arms.

## **Background**

Colonel Qaddafi took power in a bloodless coup in September 1969 and ruled with an iron fist, seeking to spread Libya's influence in Africa. He built his rule on a cult of personality and a network of family and tribal alliances supported by largesse from Libya's oil revenues.

The United States withdrew its ambassador from Libya in 1972 after Colonel Qaddafi renounced agreements with the West and repeatedly inveighed against the United States in speeches and public statements.

After a mob sacked and burned the American Embassy in 1979, the United States cut off relations. The relationship continued to spiral downward and, in 1986, the Reagan administration accused Libya of ordering the bombing of a German discotheque that killed three people, including two American servicemen. In response, the United States bombed targets in Tripoli and Benghazi.

The most notorious of Libya's actions was the bombing in 1988 of Pan Am Flight 103 over Lockerbie, Scotland, which killed 270 people. Libya later accepted responsibility, turned over suspects and paid families of victims more than \$2 billion.

After a surprise decision to renounce terrorism in 2003, Colonel Qaddafi re-established diplomatic and economic ties throughout Europe. He had also changed with regard to Israel.
