Weitekamp, 2013-10-30 This ninth volume of the Artefacts series explores how artists have responded to developments in science and technology past and present Rather than limiting the discussion to art alone editors Anne Collins Goodyear and Margaret Weitekamp also asked contributors to consider aesthetics the scholarly consideration of sensory responses to cultural objects When considered as aesthetic objects how do scientific instruments or technological innovations reflect and embody culturally grounded assessments about appearance feel and use And when these objects become museum artifacts what aesthetic factors affect their exhibition Contributors found answers in the material objects themselves This volume reconsiders how science technology art and aesthetics impact one another Literature of Place Melanie Louise Simo, 2005 In Literature of Place Melanie Simo looks beyond crowded malls and boarded up storefronts on Main Street to our collective memory finding answers to these questions in stories novels memoirs poetry essays diaries travel writing and nature writing that range in origin from New England and the Southern Highlands to Hawaii and in subject from little gardens to lost or reinhabited places in cities mill towns deserts and woodlands In her consideration of selected American works from 1890 to 1970 years that mark the closing of the Western frontier and later openings in space exploration environmental protection genetic engineering and cyberspace Simo uncovers a literature of place and the often surprising relationship of place to our daily lives BOOK JACKET Chimneys and Towers Betsy Fahlman, Claire Barry, Charles Demuth, 2007-09-05 Chimneys and Towers focuses on Demuth's late paintings of industrial sites in Lancaster Depicting the warehouses and factories of the city's tobacco and linoleum industries in sharp geometric forms these paintings bring to the depiction of his hometown the style of the American avant garde that he helped create Claude
