Reflections On Counselling:

Personal Reflections on Counseling Gerald Corey, 2020-02-26 Gerald Corey's *Reflections* is an absolute delight. Each chapter is packed with nuggets of wisdom he has gained over the decades. What makes the book particularly engaging is that it invites us into Corey's inner world and we feel as though we are reading a series of letters from a friend. This book could serve as an excellent supplemental reading in an introductory course or as a useful resource for advanced students as they navigate the complexities of graduate school and look ahead to their careers. Barbara Herlihy PhD, University of Texas at San Antonio. In this inspirational book, Gerald Corey shares his most heartfelt personal reflections and lessons learned as he describes his journey over a 60-year counseling career. He is honest, self-disclosing, humble, and insightful in this compendium that encourages readers to embrace their vision and entertain their dreams. This is a must-read gem that provides an opportunity for counseling students and young professionals to learn from the master. Robert Haynes PhD, Psychologist and author, *Borderline Productions*. In an easy-to-read question and answer format, Dr. Corey provides sage insight on a broad range of topics concerning professional issues, career development, the counseling process, and work-life balance. Responding to an array of questions often asked by students over the years, he uses candid personal examples to highlight key lessons and engage readers in an active process of personal and professional self-reflection on their own journeys. Topical question themes include creating your professional path, mentoring and being a mentee, surviving graduate school, benefiting from personal therapy, focusing on self-care and wellness, becoming an ethical counselor, managing value conflicts in counseling, using self-disclosure therapeutically, dealing with difficult clients, getting the most out of supervision, and becoming a writer. In each chapter, reflection questions encourage readers to consider their own views and experiences related to the questions raised, and recommended readings provide suggestions for further information. Reflective Practice in Psychotherapy and Counselling Jacqui Stedmon, Rudi Dallos, 2009-10-16 Reflective Practice has become established as an essential feature of practice in psychotherapy and counselling in the UK, Europe, USA, and some other parts of the world. However, the writing on reflective practice is arguably fragmented and scattered, and much of it is highly theoretical and abstract. This book draws together conceptual and ethical issues regarding reflective practice, including the meaning and development of the orientation. More importantly, it connects theory to day-to-day practice in psychotherapy and counselling, addressing issues such as: What does reflective practice look like in practice? How do we develop the skills in carrying it out? What ways does it assist practice? The book offers an exploration of reflective practice within different models of psychotherapy and counselling: CBT, psycho-dynamic, and narrative/systemic family therapy, narrative, and community approaches. Throughout, it employs a range of illustrations from a

variety of clinical contexts to illustrate reflective practice in action These include work with children and families adult mental health trauma and abuse learning disability youth offending and bereavement and loss The mix of theoretical background along with practical examples and exercises will be key for students and practitioners in the fields of psychotherapy and counselling The book will be a spur to readers to challenge dominant assumptions and modes of clinical practice and help them fulfil the compulsory requirement for a reflective practice element in their training
