PARIS, Monday, Oct. 29.—President de Gaulle won the referendum battle in his homeland, halting, nevertheless, but not overturning, widespread hopes of support for his replacement with a younger leader.

In the face of complete unofficial returns early this morning, 46.76 per cent of the valid ballots cast were in favor of the President's proposal to elect his successor by popular vote instead of by the two-round college of electors ("college") specified in the present Constitution.

But, with abstentions running at about 34 per cent of the electorate, General de Gaulle had only a minority—about 46 per cent—of the registered voters backing him.

Total of Voting  
Of 21,078,676 registered voters, 21,064,032 went to the polls and

UNITED NATIONS, N.Y., Oct. 28.—U. Thant, the Acting Secretary General, said today to Cuba Tuesday with his top assistants to discuss arrangements for a United Nations team on the demarcation of the two missiles and the halting of the building of bases.

Mr. Thant plans to stop in Cuba only long enough to visit President Fidel Castro's acceptance of the Thant plan to have a United Nations team to inspect and to have President Khrushchev's agreement to dismantle the missiles in compliance with the Security Council's demand.

WASHINGTON, Oct. 28.—President Khrushchev agreed today to halt the construction of Soviet bases in Cuba and to dismantle Soviet missile sites, both under United Nations supervision.

In a message to President Kennedy, the Soviet leader said that he already had ordered the dismantling of the sites and the ending and returning the bases to the Soviet Union.

The war said to have been done in return for the American promise offered in a letter sent by Mr. Khrushchev yesterday to President Kennedy. The letter expressed the United States readiness to lift the naval quarantine of Cuba and join the other nations of the Western Hemisphere in providing assistance against an invasion of the island.

WASHINGTON, Oct. 28.—President Kennedy and Premier Khrushchev reached apparent agreement today on a formula to end the crisis over Cuba and to begin talks on making tomorrow to submit arms.

President Khrushchev pledged the Soviet Union to stop work on its missile sites in Cuba, to dismantle the weapons and to cease them and take them home. All this would be done under supervision of United Nations representatives.

President Kennedy, for his part, pledged the lifting of the United States blockade when the United Nations had taken the "necessary measures," and that the United States would no longer Cuba.

*The Cuban Missile Crisis Revisited* J. Nathan, 2016-04-30 The Cuban Missile Crisis

Revisited is a comprehensive overview of the great cornucopia of new materials recently released by the Soviet Union United States and Cuba The authors some of whom were participants in the crisis have all had a major role in bringing to light either significant reevaluations of the crisis or in some cases truly startling revelations of the extant wisdom surrounding much of the crisis The collection edited by a long time student of the crisis is a coherent original and up to date work that bears on a moment when the world for good cause held its breath in fear that the morning might bring the apocalypse     The Other Missiles of October Philip Nash,1997 Shedding important new light on the history of the Cold War Philip Nash tells the story of what the United States gave up to help end the Cuban missile crisis of 1962 By drawing on documents only recently declassified he shows that one of President Kennedy s compromises with the Soviets involved the removal of Jupiter missiles from Italy and Turkey an arrangement concealed from both the American public and the rest of the NATO allies Nash traces the entire history of the Jupiters and explores why the United States offered these nuclear missiles which were capable of reaching targets in the Soviet Union to its European allies after the launch of Sputnik He argues that despite their growing doubts both Eisenhower and Kennedy proceeded with the deployment of the missiles because they felt that cancellation would seriously damage America s credibility with its allies and the Soviet Union The Jupiters subsequently played a far more significant role in Khrushchev s 1962 decision to deploy his missiles in Cuba in U S deliberations during the ensuing missile crisis and in the resolution of events in Cuba than most existing histories have supposed     Bulletin of the Atomic Scientists ,1988-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world     The Fog of War James G. Blight,Janet M. Stephen J. Cimbala,2014-01-14 At the end of the Cold War security concerns are more about regional and civil conflicts than nuclear or Eurasian global wars Stephen Cimbala argues that deterrence characteristics of the pre Cold War period will in the 21st century again become normative *A Journey through the Cold War* Raymond L. Blight,Philip Brenner,2007-02-08 In October 1962 school children huddled under their desks and diplomats feverishly negotiated as the world sat on the brink of nuclear war The Cuban Missile Crisis was the most dangerous moment in modern history and resulted in a changed worldview for the United States the Soviet Union and Cuba In tracing the developments of the missile crisis and beyond Sad and Luminous Days presents and interprets a heretofore unavailable and largely unknown secret speech that Castro delivered to the Cuban leadership in 1968 In it Castro reflects on the crisis and reveals the distrust and bitterness that characterized Cuban Soviet relations in 1968 Blight and Brenner frame the annotated speech with an examination of the missile crisis itself and an analysis of Cuban Soviet relations between 1962-1968 ending with an epilogue that highlights the lessons the missile crisis offers us in the current search for security and a stable world order Sad and Luminous Days sheds new light on Cuban Soviet relations and should be required reading not only for Cold War scholars and historians but also for anyone intrigued by the drama of the thirteen momentous days in October 1962 **A Companion to John F. **Reconfigured** Eric Nordlinger, 1996-08-05 This iconoclastic and fundamental work Eric Nordlinger's last advocates a new variant of isolationism a national strategy confining U S military actions largely to North America and to neighboring sea and air lanes but encouraging international activism and engagement in nonsecurity realms In Nordlinger's view disengaging from security commitments on distant shores would liberate the United States to use its resources and decision making powers to act more effectively abroad in matters of economic policy and human rights A national strategy would then become a powerful new method of encouraging international ideals of democracy and isolationism would be freed of its previous associations with appeasement weakness economic protectionism and self serving nationalism Nordlinger draws on the recent historical record to show that a national strategy would have lessened the perils of earlier decades including those of the Cold War While real dangers did exist during this period engaged strategies such as containment too often exacerbated them The United States could have effectively and far less expensively helped to deter Communist aggression in Europe and Asia by encouraging other nations to make larger investments in their own protection Marshaling impressive empirical evidence in defense of a controversial position this final work by a leading scholar of international affairs is essential reading for scholars practitioners and lay readers alike *Khrushchev: The Man and His Era* William Taubman, 2004-04-17 Winner of the Pulitzer Prize Winner of the National Book Critics Circle Award The definitive biography of the mercurial Soviet leader who succeeded and denounced Stalin Nikita Khrushchev was one of the most complex and important political figures of the twentieth century Ruler of the Soviet Union during the first decade after Stalin's death Khrushchev left a contradictory stamp on his country and on the world His life and career mirror the Soviet experience revolution civil war famine collectivization industrialization terror world war cold war Stalinism post Stalinism Complicit in terrible Stalinist crimes Khrushchev nevertheless retained his humanity his daring attempt to reform communism prepared the ground for its eventual collapse and his awkward efforts to ease the cold war triggered its most dangerous crises This is the first comprehensive biography of Khrushchev and the first of any Soviet leader to reflect the full range of sources that have become available since the USSR collapsed Combining a page turning historical narrative with penetrating political and psychological analysis this book brims with the life and excitement of a man whose story personified his era
