Reform In Leopolds Congo:

Reform in Leopold's Congo Stanley Shaloff, 1970 British Humanitarianism and the Congo Reform Movement, 1896-1913 Dean Pavlakakis, 2016-03-09 The Congo Free State was under the personal rule of King Leopold II of the Belgians from 1885 to 1908 The accolades that attended its founding were soon contested by accusations of brutality oppression and murderous misrule but the controversy by itself proved insufficient to prompt changes Starting in 1896 concerned men and women used public opinion to influence government policy in Britain and the United States to create space for reforming forces in Belgium itself to pry the Congo from Leopold's grasp and implement reforms Examining key factors in the successes and failures of a pivotal movement that aided the colonized people of the Congo and broadened the idea of human rights British Humanitarianism and the Congo Reform Movement provides a valuable update to scholarship on the history of humanitarianism in Africa The Congo Reform movement built on the institutional experience of overseas humanitarianism the energy of evangelical political involvement and innovations in racial imperial and nationalist discourse to create political energy Often portrayed as the efforts of a few key people especially E D Morel this book demonstrates that the movement increasingly manifested itself as an institutionalized and transnational campaign with support from key government officials that ultimately made a material difference to the lives of the people of the Congo Official Organ of the Congo Reform Association Congo Reform Association, 1909 African Testimony in the Movement for Congo Reform Robert Burroughs, 2018-06-27 The humanitarian movement against Leopold's violent colonisation of the Congo emerged out of Europe but it depended at every turn on African input Individuals and groups from throughout the upper Congo River basin undertook journeys of daring and self sacrifice to provide evidence of atrocities for the colonial authorities missionaries and international investigators Combining archive research with attention to recent debates on the relation between imperialism and humanitarianism on trauma witnessing and postcolonial studies and on the recovery of colonial archives this book examines the conditions in which colonised peoples were able to speak about their subjection and those in which attempts at testimony were thwarted Robert Burroughs makes a major intervention by identifying African agency and input as a key factor in the Congo atrocities debate This is an important and unique book in African history imperial and colonial history and humanitarian history *Historical Dictionary of the Reformed Churches* Robert Benedetto, Donald K. McKim, 2009-10-06 As its name implies the Reformed tradition grew out of the 16th century Protestant Reformation The Reformed churches consider themselves to be the Catholic Church reformed The movement originated in the reform efforts of Huldrych Zwingli 1484 1531 of Zurich and John Calvin 1509 1564 of Geneva Although the Reformed movement was dependent upon many Protestant leaders it was Calvin's tireless work as a writer preacher teacher and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew Today the Reformed churches are a multicultural multiethnic and multinational phenomenon The second edition of the *Historical Dictionary of the*

Reformed Churches contains information on the major personalities events facts movements and beliefs of the Reformed churches This is done through a list of acronyms and abbreviations a chronology an introductory essay appendixes a bibliography and over 800 cross referenced dictionary entries on leaders personalities events facts movements and beliefs of the Reformed churches

E. D. Morel's History of the Congo Reform Movement Edmund Dene Morel, William Roger Louis, Jean Stengers, 1968

The Congo from Leopold to Kabila Georges Nzongola-Ntalaja, 2013-07-18 The people of the Congo have suffered from a particularly brutal colonial rule American interference after independence decades of robbery at the hands of the dictator Mobutu and periodic warfare which continues even now in the East of the country But as this insightful political history makes clear the Congolese people have not taken these multiple oppressions lying down and have fought over many years to establish democratic institutions at home and free themselves from foreign exploitation indeed these are two aspects of a single project Professor Nzongola Ntalaja is one of his country's leading intellectuals and his panoramic understanding of the personalities and events as well as class ethnic and other factors make his book a lucid radical and utterly unromanticized account of his countrymen's struggle His people's defeat and the state's post colonial crisis are seen as resulting from a post independence collapse of the anti colonial alliance between the masses and the national leadership This book is essential reading for understanding what is happening in the Congo and the Great Lakes region under the rule of the late President Kabila and now his son It will also stand as a milestone in how to write the modern political history of Africa

Historical Dictionary of the Reformed Churches Benedetto, Guder, Mckim, 1999-11-03 A historical dictionary of Reformed churches It includes a detailed chronology followed by specific entries on the geographical regions where Reformed faith has been rooted Other entries are devoted to outstanding figures who have nurtured and shaped it

King Leopold's Congo and the "Scramble for Africa" Michael A. Rutz, 2018-03-01 King Leopold of Belgium's exploits up the Congo River in the 1880s were central to the European partitioning of the African continent The Congo Free State Leopold's private colony was a unique political construct that opened the door to the savage exploitation of the Congo's natural and human resources by international corporations The resulting red rubber scandal which laid bare a fundamental contradiction between the European propagation of free labor and civilization and colonial governments acceptance of violence and coercion for productivity's sake haunted all imperial powers in Africa Featuring a clever introduction and judicious collection of documents Michael Rutz's book neatly captures the drama of one king's quest to build an empire in Central Africa a quest that began in the name of anti slavery and free trade and ended in the brutal exploitation of human lives This volume is an excellent starting point for anyone interested in the history of colonial rule in Africa

Belgian Empire Rolf Hedger, The late 19th century marked an era of feverish imperial expansion in Europe a time when the continent's great powers carved up vast territories across Africa in a race for resources prestige and control Among the many actors in this turbulent reordering of the world stood an unlikely imperialist Belgium a young and

comparatively small European nation with no prior tradition of overseas conquest Yet under the leadership of its ambitious monarch King Leopold II Belgium would come to dominate a vast expanse of Central Africa leaving behind one of the most brutal and controversial colonial legacies in modern history Belgian Empire Colonial Ambitions and the Scramble for Africa traces Belgium's imperial journey from obscurity to infamy This book begins by exploring the foundations of Belgian statehood and the monarchy's outsized role in shaping its early national identity Leopold II a king without a kingdom of his own emerges as a pivotal figure driven not only by personal ambition and a thirst for grandeur but also by a calculated understanding of the geopolitical moment As the European powers met at the Berlin Conference of 1884-1885 to formalize their claims over African territory Leopold positioned himself cleverly managing to secure personal sovereignty over the Congo Free State under the guise of humanitarian and scientific advancement But the Congo Free State was no ordinary colony It was in effect a corporate venture underwritten by a monarch operated through a brutal system of forced labor violent coercion and extractive capitalism centered around ivory and rubber The suffering inflicted upon the Congolese population would in time draw international condemnation and lead to the transfer of control from Leopold to the Belgian state in 1908

From Lumumba to Gbagbo K. Martial Frindéthié, 2016-02-08 In recent years the Euro American powers have made multiple armed incursions into Africa The election of President Obama greeted by most Africans as providential for their centuries old troubled relations with the West instead inaugurated a destructive coalition against Africa In places like Cote d'Ivoire Egypt and Libya the United Nations the International Criminal Court the World Bank and the International Monetary Fund have supported military intrusions arbitrary imprisonments deportations and political assassinations under the guise of bringing freedom and democracy to benighted Africa The destabilization of Africa the division of the continent into lawless zones controlled by thuggish warlords the displacement of millions of refugees and the systematic sacking of Africa's resources are telling In Africa the West was not on a goodwill mission This book examines the West's policy of aggression in Africa over the last 50 years as a legacy of colonialism with human and economic costs that are radicalizing African nationalists

Activism across Borders since 1870 Daniel Laqua, 2023-08-10 From the Occupy protests to the Black Lives Matter movement and school strikes for climate action the twenty first century has been rife with activism Although very different from one another each of these movements has created alliances across borders with activists stressing that their concerns are not confined to individual nation states In this book Daniel Laqua shows that global efforts of this kind are not a recent phenomenon and that as long as there have been borders activists have sought to cross them Activism Across Borders since 1870 explores how individuals groups and organisations have fostered bonds in their quest for political and social change and considers the impact of national and ideological boundaries on their efforts Focusing on Europe but with a global outlook the book acknowledges the importance of imperial and postcolonial settings for groups and individuals that expressed far reaching ambitions From feminism and socialism to anti war campaigns and green politics this

book approaches transnational activism with an emphasis on four features connectedness ambivalence transience and marginality In doing so it demonstrates the intertwined nature of different movements problematizes transnational action discusses the temporary nature of some alliances and shows how transnationalism has been used by those marginalized at the national level With a broad chronological perspective and thematic chapters it provides historical context clarifies terms and concepts and offers an alternative history of modern Europe through the lens of activists movements and campaigns

Essential is the word for it **Francophone African Cinema** K. Martial Frindéthié, 2014-01-10 Setting the stage for a critical encounter between Francophone African cinema and Continental European critical theory this book offers a transnational and interdisciplinary analysis of 16 Francophone African films including Bassek Ba Kobhio s The Great White Man of Lambarene Cheick Oumar Sissoko s Guimba the Tyrant and Amadou Seck s Saaraba The author invites readers to study these films in the context of transnational conversations between African filmmakers and the conventional theorists whose works are more readily available in academia The book examines black French filmmakers treatments of a number of cross cultural themes including intercontinental encounters and reciprocity ideology and subjective freedom governance and moral responsibility sexuality and social order and globalization Throughout the work the presentation of literary theory is accessible by both beginning and advanced students of film and culture Instructors considering this book for use in a course may request an examination copy here

Sovereignty & the Responsibility to Protect Luke Glanville, 2013-12-20 In 2011 the United Nations Security Council adopted Resolution 1973 authorizing its member states to take measures to protect Libyan civilians from Muammar Gadhafi s forces In invoking the responsibility to protect the resolution draws on the principle that sovereign states are responsible and accountable to the international community for the protection of their populations and that the international community can act to protect populations when national authorities fail to do so The idea that sovereignty includes the responsibility to protect is often seen as a departure from the classic definition but it actually has deep historical roots In *Sovereignty and the Responsibility to Protect* Luke Glanville argues that this responsibility extends back to the sixteenth and seventeenth centuries and that states have since been accountable for this

responsibility to God the people and the international community Over time the right to national self governance came to take priority over the protection of individual liberties but the noninterventionist understanding of sovereignty was only firmly established in the twentieth century and it remained for only a few decades before it was challenged by renewed claims that sovereigns are responsible for protection Glanville traces the relationship between sovereignty and responsibility from the early modern period to the present day and offers a new history with profound implications for the present
