Reform Through Community:

Building Commitment to Reform through Strategic Communication Cecilia Caba ero-Verzosa, Helen R. Garcia, 2009-10-06 Strategic communication is a powerful tool for creating broad based support for reform and change initiatives Much has been written about why communication matters in reform efforts but there is scant material available to help those who manage reforms apply communication concepts and approaches to their own programs and policy reform initiatives Building Commitment to Reform through Strategic Communication attempts to bridge that gap The authors present a pragmatic and systematic approach for reformers ready to use communication strategically to achieve their reform goals The Five Communication Management Decision Tool helps reformers and their teams develop a framework for their communication strategies This decision tool helps managers see change initiatives through the eyes of those who will be affected by the reforms When the decision tool is used in the early stages of the development of change programs reformers gain an even deeper understanding of the stakeholders perspectives on the reforms which influence stakeholder opposition or support for them Such understanding will not only be instructive but possibly transformative for both change agents and those stakeholders whose support is critical to the success of reform Reform agents may recognize the source of stakeholder resistance and be able to revise reform goals and redesign change interventions Stakeholders who have a shared understanding of why the status quo is not acceptable and change is necessary are more likely to create coalitions of committed allies and supporters who will work together to achieve reform goals This workbook illustrates how the decision tool can be used for various types of change and reform initiatives from policy reform to country and donor partnership agreements to sectoral reforms Tested and used in learning interventions across cultures regions and sectors the tool has been used successfully by teams in government nongovernmental organizations the business sector and donor agencies The book will be of great interest to readers working in all of these areas *Global Perspectives on Reforming the Criminal Justice System* Pittaro, Michael, 2021-06-25 The often tenuous relationship between law enforcement and communities of color namely African Americans has grown increasingly strained and the call for justice has once again ignited the demand for criminal justice reform Rebuilding the trust between the police and the citizens that they have sworn to protect and serve requires that criminal justice practitioners and educators collaborate with elected officials and commit to an open ongoing dialogue on the most challenging issues that remain unresolved but demand collective attention and support Reform measures are not limited to policing policies and practices but rather extend throughout the criminal justice system There is no denying that the criminal justice system as we know it is flawed but not beyond repair *Global Perspectives on Reforming the Criminal Justice System* provides in depth and current research about the criminal justice system around the world its many inadequacies and why it urgently needs reformation Offering a fully fleshed outline of the current system this book details the newest research and is incredibly important to fully understand the flaws of the criminal justice system across the

globe The goals of this book are to improve and advance the criminal justice system by addressing the glaring weaknesses within the system and discuss potential reforms including decreasing the prison population decarceration and improving police community relations Highlighting topics that include accountability community oriented policing ethics and mass incarceration this book is ideal for law enforcement officers trainers educators government officials policymakers correctional officers court officials professionals researchers academicians and students in the fields of criminal justice criminology sociology psychology addictions mental health social work public policy and public administration

House of Commons - Communities and Local Government Committee: Community Budgets - HC 163 Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2013-10-23 Community Budgets are demonstrating their potential to deliver cheaper more integrated and more effective public services They are at risk however of being replaced after a few years if key issues are not resolved If this opportunity is missed the Committee warns that local services could come under unsustainable pressure in the face of increased demand and reduced budgets This in turn may

result in more spending later on judicial and emergency health and welfare interventions The Government should send a clear message that it will assist every local authority wishing to introduce Community Budgets and to set out the specific assistance it will provide them with Furthermore the programme of pilots must not be allowed to slow progress towards wider implementation If they are to succeed public service providers and local authorities must realise investment in Community Budgets will bring them benefits Local authorities their partners and central government should therefore develop a framework for agreements on how the benefits of investment are to be shared On the Troubled Families Programme the Committee is supportive of the work being done but highlights the need for greater focus on how work with these families will continue after the programme ends in 2016 Noting that the resources available have not increased in proportion to the number of families added to the programme in June DCLG needs to monitor carefully progress and provide more resources to local authorities if necessary

Resources in Education ,2001-04 *The Reorganisation of British Local Government* John Dearlove,1979-09-20 This volume was first published in 1979 just a few years after the Local Government Act of 1972 redrew the map of British local government Local authorities were also encouraged to change their organization and methods of work anxiety was expressed about finance councillor calibre and the credibility of the whole system itself and neighbourhood councils and public participation in planning were introduced John Dearlove s aim is to make sense of these changes and the discussion they generated He does this by showing that both the official case for reorganization and the academic discussion of it have hindered their own understanding by uncritically accepting superficial traditional wisdoms which fail to reveal the concealed ideological positions behind reorganization Thus he aims to develop a truly political perspective on reorganisation which is rounded out and given greater depth by the insertion at appropriate points of comparative material drawn from American experience and studies

Hamas and Civil Society in Gaza Sara Roy,2013-11-10 A revealing look at Islamic social institutions in Gaza and the West Bank Many in the United States and Israel believe that Hamas is nothing but a terrorist organization and that its social sector serves merely to recruit new supporters for its violent agenda Based on Sara Roy s extensive fieldwork in the Gaza Strip and West Bank during the critical period of the Oslo peace process *Hamas and Civil Society in Gaza* shows how the social service activities sponsored by the Islamist group emphasized not political violence but rather community development and civic restoration Roy demonstrates how Islamic social institutions in Gaza and the West Bank advocated a moderate approach to change that valued order and stability not disorder and instability were less dogmatically Islamic than is often assumed and served people who had a range of political outlooks and no history of acting collectively in support of radical Islam These institutions attempted to create civic communities not religious congregations They reflected a deep commitment to stimulate a social cultural and moral renewal of the Muslim community one couched not only or even primarily in religious terms Vividly illustrating Hamas s unrecognized potential for moderation accommodation and change *Hamas and Civil Society in Gaza* also traces critical

developments in Hamas's social and political sectors through the Second Intifada to today and offers an assessment of the current more adverse situation in the occupied territories The Oslo period held great promise that has since been squandered This book argues for more enlightened policies by the United States and Israel ones that reflect Hamas's proven record of nonviolent community building

initiating meaningful change *UN Millennium Development Library: Halving Hunger* UN Millennium Project, 2013-07-23

The Millennium Development Goals adopted at the UN Millennium Summit in 2000 are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015: income poverty, hunger, disease, exclusion, lack of infrastructure and shelter, while promoting gender equality, education, health, and environmental sustainability. These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them. Achieving the Millennium Development Goals offers the prospect of a more secure, just, and prosperous world for all. The UN Millennium Project was commissioned by United Nations Secretary General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals. As an independent advisory body directed by Professor Jeffrey D. Sachs, the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005. The core of the UN Millennium Project's work has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world, including scientists, development practitioners, parliamentarians, policymakers, and representatives from civil society. UN agencies, the World Bank, the IMF, and the private sector. This report lays out the recommendations of the UN Millennium Project Task Force on Hunger in seven major categories: political action, national policy reforms, increased agricultural productivity for food-insecure farmers, improved nutrition for the chronically hungry, productive safety nets for the acutely hungry, improved rural incomes and markets, and restoration and conservation of natural resources essential for food security. The task force strongly endorses the Secretary General's call for a 21st Century African Green Revolution. These bold yet practical approaches will enable countries in every region of the world to halve world hunger by 2015. [Accelerating Health Reforms through Collective Action](#) Yvonne Nkrumah, Julia Mensah, 2014-10-30

Computerization movement (CM) refers to a special kind of social and technological movement that promotes the adoption of computing within organizations and society. Through theoretical

analyses systematic empirical studies field based studies and case studies of specific technologies the book shows CMs to be driven by Utopian visions of technology that become part of the ether within society The empirical studies presented here show the need for designers users and the media to be aware that CM rhetoric can propose grand visions that never become part of a reality and reinforce the need for critical and scholarly review of promising new technologies Back cover
