String, 2017-07-05

Exploring the intersection between art and political ideology this innovative study of art in Henrician England sheds new light on the ways in which Henry VIII and his advisers exploited visual images in order to communicate ideas to his subjects The works analyzed include water triumphs coronation pageants and funeral processions printed title pages of vernacular Bibles coins portrait miniatures and murals as well as panel paintings With her analysis of these categories of objects and using communication theory as a starting point String presents a new model of communication based on the concepts of magnificence topicality persuasiveness and propaganda Through this model she shows how medium location display and viewership were all considered in the transmission of royal messages Using the art of Henry VIII's reign as a case study String enriches our understanding of the fundamental contribution of imagery to communication and also provides a model for the study of the dissemination of ideas and the patron artist relationship in other royal courts and historical periods

Habsburg Communication in the Dutch Revolt Monica Stensland, 2012 De politieke denkbeelden van de rebellen in de Opstand voorheen de Tachtigjarige Oorlog zijn al langer onderwerp van wetenschappelijk onderzoek Dit boek richt zich echter op het grotendeels onbesproken verhaal van het Habsburgse regime en zijn lokale aanhangers Hoe dachten zij over het conflict en hoe reageerden zij op de beschuldigingen van de opstandelingen De auteur heeft een verscheidenheid aan mondelinge schriftelijke en theatrale media onderzocht om te ontdekken hoe het regime gebruikmaakte van de verschillende communicatiekanalen Daarnaast is de reactie van gewone mensen op het conflict en op de tegenstrijdige berichtgeving in de publieke sfeer onderzocht *Illustrated Religious Texts in the North of Europe, 1500-1800* Feike Dietz, Adam Morton, Lien Roggen, 2016-12-05 In recent years many historians have argued that the Reformation did not as previously thought hamper the development of Northern European visual culture but rather gave new impetus to the production diffusion and reception of visual materials in both Catholic and Protestant milieus This book investigates the crosscurrents of exchange in the realm of illustrated religious literature within and beyond confessional and national borders and against the background of recent insights into the importance of on the one hand material as well as on the other hand sensual and emotional aspects of early modern culture Each chapter in the volume helps illuminate early modern religious culture from the perspective of the production of illustrated religious texts to see the book as object a point at which various vectors of early modern society met Case studies together with theoretical contributions shed light on the ways in which illustrated religious books functioned in evolving societies by analysing the use re use and sharing of illustrated religious texts in England France the Low Countries the German States and Switzerland Interpretations based on points of material interaction show us how the most basic binaries of the early modern world Catholic and Protestant word and image public and private were disrupted and negotiated

in the realm of the illustrated religious book Through this approach the volume expands the historical appreciation of the place of imagery in post Reformation Europe *Literary Cultures and Public Opinion in the Low Countries, 1450-1650*

Protestantism, Poetry and Protest S.K. Barker,2016-04-15 Antoine de Chandieu 1534 1591 was a key figure in the establishment and development of the French Protestant Church Of all its indigenous leaders he was perhaps closest to Calvin and took a leading role in all the major debates about resistance church order and doctrine of the Church He was also a prodigious writer of political religious and poetical works whose output corresponds to a period of great turmoil in the progress of the French Church Chandieu was uniquely placed not merely to engage and contribute to the great debates of the day but also to record ongoing events By illuminating his career which meshed almost exactly with the French Wars of Religion this book not only demonstrates the key role Chandieu s played in the development of French Protestantism but also highlights the vital role of literature in shaping the religious experience of the wars Offering the first systematic evaluation of Chandieu s vernacular works this study questions many of the assumptions made about his motivations and aims and how these developed over a thirty year period His writings were contemporaneous with progress in the worlds of politics theology and poetry worlds in which he played a notable if not well documented role As a corpus these works show the development of one man s understanding of his ideology over a lifetime actively spent in the pursuit of making that ideology a reality Chandieu the young political hothead became Chandieu the defender of Calvinist theology who in turn matured into Chandieu the elder statesman The interest lies in where these changes occurred how they were reflected in Chandieu s writing and what they demonstrate about being Calvinist and a representative of one s faith in a time of disorder As such this book provides not only a reappraisal of the man and his publications but presents an intriguing perspective on the development of French Protestantism during this turbulent time The Character Sketch as Philosophy Katie

Ebner-Landy,2025 Katie Ebner Landy shows that early modern Europeans inspired by the ancient philosopher Theophrastus embraced the character sketch as a source of moral and political education Yet Enlightenment thinkers spurned this genre in favor of elaborating principles thereby helping to drive a wedge between philosophy and literature The Literature of the

Arminian Controversy Freya Sierhuis, 2015-12-03 The Literature of the Arminian Controversy highlights the importance of the Arminian Controversy 1609-1619 for the understanding of the literary and intellectual culture of the Dutch Golden Age. Taking into account a wide array of sources ranging from theological and juridical treatises to pamphlets, plays, and libel poetry, it offers not only a deeper contextualisation of some of the most canonical works of the period such as the works of Dirck Volckertsz Coornhert, Hugo Grotius, and Joost van den Vondel, but also invites the reader to rethink the way we view the relation between literature and theology in early modern culture. The book argues how the controversy over divine predestination acted as a catalyst for literary and cultural change, tracing the impact of disputed ideas on grace and will, religious toleration, and the rights of the civil magistrate in satirical literature, poetry, and plays. Conversely, it reads the theological and political works as literature by examining the rhetoric and tropes of religious controversy. Analysing the way in which literature shapes the political and religious imaginary, it allows us to look beyond the history of doctrine or the history of political rights to include the emotive and imaginative power of such narrative, myth, and metaphor. **A Humanist on the Frontier** Marcell Sebők, 2021-08-19 A Humanist on the Frontier explores the remarkable life of Sebastian Ambrosius, a sixteenth-century Lutheran minister and intellectual from Kismárk, now Kežmarok, in present-day Slovakia, formerly on the borderland of the Kingdom of Hungary. Through an examination of Ambrosius' publications and correspondence, this book throws new light on the dynamics of urban communities in Upper Hungary, communication within the humanist Republic of Letters in both Central European and wider European networks, and ecclesiastical controversies. Adopting methods of microhistory and cultural history, it also reconstructs Ambrosius' life by positioning him in various contexts that trace his relationship to and interpretations of themes of power, tradition, vocation, communication, and identity. This book is essential reading for scholars and students of early modern European history as well as those interested in microhistory, cultural history, and the Republic of Letters. **Preaching a Dual Identity** Nicholas Must, 2017-08-21 In Preaching a Dual Identity, Nicholas Must examines seventeenth-century Huguenot sermons to study the development of French Reformed confessional identity under the Edict of Nantes. Of key concern is how a Huguenot hybrid identity was formulated by balancing a strong sense of religious particularism with an enthusiastic political loyalism. Must argues that sermons were an integral part of asserting this unique confessional position in both their preached and printed forms. To demonstrate this, Must explores a variety of sermon themes to access the range of images and arguments that preachers employed to articulate a particular vision of their community as a religious minority in France. **Voices and Books in the English Renaissance** Jennifer Richards, 2019-10-24 Voices and Books in the English Renaissance offers a new history of reading that focuses on the oral reader and the voice or performance-aware silent reader rather than the historical reader who is invariably male, silent, and alone. It recovers the vocality of education for boys and girls in Renaissance England and the importance of training in pronunciation and delivery for oral aural literary culture. It offers the first attempt to recover the voice

and tones of voice especially from textual sources It explores what happens when we bring voice to text how vocal tone realizes or changes textual meaning and how the literary writers of the past tried to represent their own and others voices as well as manage and exploit their readers voices The volume offers fresh readings of key Tudor authors who anticipated oral readers including Anne Askew William Baldwin and Thomas Nashe It rethinks what a printed book can be by searching the printed page for vocal cues and exploring the neglected role of the voice in the printing process Renaissance printed books have often been misheard and a preoccupation with their materiality has led to a focus on them as objects However Renaissance printed books are alive with possible voices but we will not understand this while we focus on the silent reader

Calvin and the Book Karen E. Spierling, Bruce Gordon, Günter Frank, Ute Lotz-Heumann, Barbara Mahlmann-Bauer, Johannes Schilling, Günther Wassilowsky, Siegrid Westphal, Tarald Rasmussen, Mathijs Lamberigts, David M. Whitford, 2015-08-19 The Protestant Reformation has long had the reputation as being a movement of the Book led by reformers like John Calvin who were men of the Book The essays in this volume reveal many of the underlying complexities of these terms Building on research and scholarly discussions of recent decades these authors delve into a variety of topics related to John Calvin and the printed word ranging from the physical changes in printed texts in the first decades of the Reformation to Calvin's thinking about the relationship of two books the Bible and his own Institutes to Christian doctrine Calvin remains a towering figure in the Protestant Reformation whose theology and religious views are still often cast as rigid and unchanging These essays emphasize in contrast the evolutions and transitions that were fundamental to Calvin's own participation in the Reformation and to the ways that his leadership influenced developments in Reformed Christianity in the following centuries The contributors international experts on the history of Calvin and Reformed Protestantism and on Calvin's theology bring a wide variety of historical and theological approaches to bear on the question of Calvin's relationship to the printed word Taken all together these essays will push specialists and general readers to rethink standard assumptions about Calvin's influence on Reformed Christianity and in particular about the interplay among theology Reformed discipline religious education efforts and the printed word in early modern Europe

How the Light Gets In Graham Ward, 2016-02-25 How the Light Gets In Ethical Life I presents a systematic account of the teachings of the Christian faith to offer a vision from a human created and limited perspective of the ways all things might be understood from the divine perspective It explores how Christian doctrine is lived and the way in which beliefs are not simply cognitive sets of ideas but embodied cultural practices Christians learn how to understand the contents of their faith learn the language of the faith through engagements that are simultaneously somatic affective imaginative and intellectual In the first of four volumes Graham Ward examines the complex levels of these engagements through three historical developments in the systematic organization of doctrine the Creeds the Summa and Protestant dogmatics He outlines a methodology for exploring and practicing systematic theology that captures how the faith is lived in cultural social and embodied engagements Ward then

unpicks several fundamental theological concepts and how they are to be understood from the point of view of an engaged systematics truth revelation judgement discernment proclamation faith seeking understanding and believing as it relates to and grounds the possibilities for faith This groundbreaking work offers an interdisciplinary investigation through poetry art film the Bible and theological discourse analysing the human condition and theology as the deep dream for salvation The final part relates theology as a lived and ongoing pedagogy concerned with individual and corporate formation to biological life social life and life in Christ Here an approach to living theologically is sketched that is the primary focus for all four volumes ethical life
