## **Reforming Fiscal And Economic Management In Afghanistan:**

**Reforming Fiscal And Economic Management In Afghanistan** Michael Carnahan, World Bank, 2004      Reforming Fiscal and Economic Management in Afghanistan, 2004 Reforming Fiscal and Economic Management in Afghanistan sets out the impressive policy and institutional reforms made by the interim and transitional administrations of Afghanistan since the Bonn conference in November 2001. It explores the complexities of managing the significant amount of development assistance and donor interest while balancing the need to respond to donor priorities and to build strong public sector institutions. The book demonstrates that the budget must be the primary vehicle for developing and then implementing policy and shows how this strategy has shaped the renewal of Afghanistan's finance ministry. The volume closes with a specific agenda for finance ministry reform and restructuring. Reforming Fiscal and Economic Management in Afghanistan will be of great interest to finance ministries, national governments, international and nongovernmental organizations and research institutions and to anyone interested in post conflict reconstruction and reform. *Resumé de l'auteur*      Reforming Fiscal and Economic Management in Afghanistan World Bank, 2004 This publication discusses the policy and institutional reforms made by the interim and transitional administrations of Afghanistan since the Bonn conference in November 2001 and considers major fiscal achievements made and remaining challenges involved. Issues considered include the consequences of conflict on fiscal management, the financial management system, revenue, procurement, audit and budget development, aspects of finance ministry functions, accountability reform and restructuring, managing development assistance and donor priorities and fiscal management for the provincial municipalities. It includes case studies of post conflict budgeting in East Timor, Eritrea and Uganda. It finds that the budget must be the primary vehicle for developing and then implementing policy and shows how this strategy has shaped the renewal of Afghanistan's finance ministry.      *Aid Paradoxes in Afghanistan* Nematullah Bizhan, 2017-08-14 The relationship between aid and state building is highly complex and the effects of aid on weak states depend on donors' interests, aid modalities and the recipient's pre-existing institutional and socio-political conditions. This book argues that in the case of Afghanistan, the country inherited conditions that were not favourable for effective state building. Although some of the problems that emerged in the post 2001 state building process were predictable, the types of interventions that occurred, including an aid architecture which largely bypassed the state, the subordination of state building to the war on terror and the short horizon policy choices of donors and the Afghan government, reduced the effectiveness of the aid and undermined effective state building. By examining how foreign aid affected state building in Afghanistan since the US militarily intervened in Afghanistan in late 2001 until the end of President Hamid Karzai's first term in 2009, this book reveals the dynamic and complex relations between the Afghan government and foreign donors in their efforts to rebuild state institutions. The work explores three key areas: how donors supported government reforms to improve the taxation system; how government reorganized the state's fiscal management system; and how aid dependency and aid distribution

outside the government budget affected interactions between state and society Given that external revenue in the form of tribute subsidies and aid has shaped the characteristics of the state in Afghanistan since the mid eighteenth century this book situates state building in a historical context This book will be invaluable for practitioners and anyone studying political economy state building international development and the politics of foreign aid **Advances in Military Sociology**

**Evaluation of World Bank Programs in Afghanistan 2002-11** The World Bank, 2013-08-23 This report evaluates the outcomes of World Bank Group support to Afghanistan from 2002 11 Despite extremely difficult security conditions which deteriorated markedly after 2006 the World Bank Group has commendably established and sustained a large program of support to the country The key messages of the evaluation are While World Bank Group strategy has been highly relevant to Afghanistan s situation beginning in 2006 the strategies could have gone further in adapting ongoing programs to evolving opportunities and needs and in programming

activities sufficient to achieve the objectives of the pillars in those strategies Overall Bank Group assistance has achieved substantial progress toward most of its major objectives although risks to development outcomes remain high Impressive results have been achieved in public financial management public health telecommunications and community development substantial outputs have also been achieved in primary education rural roads irrigation and microfinance all started during the initial phase Bank assistance has been critical in developing the mining sector as a potential engine of growth However progress has been limited in civil service reform agriculture urban development and private sector development The Bank Group s direct financial assistance has been augmented effectively by analytic and advisory activities and donor coordination through the Afghanistan Reconstruction Trust Fund Knowledge services have been an important part of Bank Group support and have demonstrated the value of strategic analytical work even in areas where the Bank Group may opt out of direct project financing With the expected reduction of the international presence in 2014 sustainability of development gains remains a major risk because of capacity constraints and inadequate human resources planning on the civilian side To enhance program effectiveness the evaluation recommends that the Bank Group help the government develop a comprehensive long term human resources strategy for the civilian sectors focus on strategic analytical work in sectors that are high priorities for the government assist in the development of local government institutions and in the interim support the development of a viable system for service delivery at subnational levels assist in transforming the National Solidarity Program into a more sustainable financial and institutional model to consolidate its gains help strengthen the regulatory environment for private sector investment and scale up IFC and MIGA support to the private sector

Tobias Akhtar Haque,2025-06-20 This book provides a critical analysis of the political and conflict impacts of good governance public finance reforms showing how unintended distributional outcomes can undermine broader state building goals The international community expends enormous resources trying to build good governance institutions in countries emerging from war By ensuring efficiency increasing transparency and enhancing public accountability in the use of public resources the adoption of good governance institutions is assumed to support stability peace and sustainable economic growth Such assumptions however have a limited empirical basis and obscure a more complex reality Drawing from political science and institutional economics and evidence from major state building interventions in Afghanistan Timor Leste and Solomon Islands this book explores the impacts of technocratic good governance reforms in fragile environments Through the lens of public finance reform it illustrates how efforts to achieve efficiency and accountability while often bringing important benefits can also undercut the patronage channels that draw together powerful elites thereby increasing conflict pressures and eroding prospects for sustainable peace This book makes the case for a reconsideration of the good governance agenda and the appropriateness of its application in developing countries experiencing or at risk of war This book will be of interest to students of state building global governance political economy development studies and International Relations

*The Decline and Fall of Republican Afghanistan* Ahmad Shuja Jamal, William Maley, 2023-04-01

The Taliban's takeover of Afghanistan in 2021 was the result of declining active support for the government and of waste and inefficiency in aid delivery. Yet while corrosive, these problems were not in themselves sufficient to have brought about a collapse. To a significant degree, they were the result of early failings in institutional design, reflecting an American inclination to pursue short-term policy approaches that created perverse incentives, thus interfering with the long-term objective of stability. This book exposes the true factors underpinning Kabul's fall. The Afghan Republic came under relentless attack from Taliban insurgents who depended critically on Pakistani support. It also suffered a creeping invasion that put the government on the back foot as the US tried and failed to deal with Pakistan's perfidy. The fatal blow came when bored US leaders naively cut an exit deal with the enemy, fatally compromising the operation of the Afghan army and air force and triggering the final collapse, with top leaders at odds over whether to make a final stand in Kabul. The Afghan Republic did not simply decline and fall; it was betrayed.
