*Health Reforms Across The World: The Experience Of Twelve Small And Medium-sized Nations With Changing Their Healthcare Systems* Kieke G Okma, Tim Tenbenschel, Luca Crivelli, 2020-02-24 This book presents the health reform experiences over the past three decades of twelve small and medium sized nations that are not often included in international comparative studies in this field The major conclusion of the study is that despite many similarities in policy goals policy challenges and in the menu of policy options for countries that seek to offer universal coverage to their population the health reforms of the nations in this book did not converge into one direction or model However we found several widespread policy experiences that are relevant for others too For example user fees are unpopular everywhere Governments often try to soften the consequences by exempting large groups of users thus largely defeating the very purpose of those fees As a second example the introduction of new payment modes for medical care like the shift from fee for service to case based payment took much longer than originally expected everywhere and also failed to deliver their promises of improved transparency or efficiency gains A third example is that proposals for universal coverage often ignore the challenges of implementing new financing models that elsewhere took decades if not centuries to develop The conclusions contain both empirical findings and theoretical conclusions of interest to policy makers and scholars of international comparison It is accessible for academics healthcare managers and students as well as a wider audience of readers interested in the changes in healthcare across the world

*International Encyclopedia of Social Policy* Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally Supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected

Contributors draw in and make the necessary connections with social policy's associated disciplines to provide a rich picture of this vast and highly diverse field. Comprehensive and authoritative, the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on-going research, debate, and sometimes serious disagreement and divergence in theory and practice. To this end, entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches. The whole is integrated by cross-referencing and each entry includes a bibliography for further reading. There is a full index. The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come.

Informal Institutions and Citizenship in Rural Africa Lauren M. MacLean, 2010-05-24 This book challenges previous assumptions about institutions, social capital, and the nature of the African state by investigating the history of political and economic change in villages on either side of the Ghana-Cote d'Ivoire border. Prior to European colonial rule, these Akan villages had very similar political and cultural institutions. By the late 1990s, however, Lauren M. MacLean found puzzling differences in the informal institutions of reciprocity and indigenous notions of citizenship. MacLean argues that divergent histories of state formation not only shape how villagers help each other but also influence how local groups and communities define citizenship and then choose to engage with the state on an everyday basis. She examines the historical construction of the state's role in mediating risk at the local level across three policy areas: political administration, social service delivery, and agriculture.

Rebuilding Lives Post-Disaster Julie L. Drolet, 2019-04-26 Social workers are increasingly engaged in supporting individuals and communities in long-term disaster recovery. *Rebuilding Lives Post-Disaster* brings together an international team of social work researchers who have investigated the experiences, perspectives, challenges, and complexities in disaster recovery. It features country case studies drawing from field research undertaken in disaster-affected communities in Canada, the United States, Australia, India, Pakistan, Taiwan, Sri Lanka, and China. In so doing, the volume provides a comprehensive perspective on the realities of disaster recovery and explores key concepts such as resilience, community-based disaster risk reduction, and social and gendered construction of vulnerability and capabilities. Undergraduate and graduate students and professionals in the fields of social work, community development, international social work, emergency management, and related fields will find the text to be a helpful resource.

Building Equality and Opportunity Through Social Guarantees Estanislao Gacitúa-Marió, Andrew Norton, Sophia V. Georgieva, 2009 This book examines the validity of a social guarantees approach as a framework for evaluating, monitoring, and improving the design of social policy. Social guarantees are defined as sets of policy mechanisms that determine citizens' entitlements related to basic services and ensure their fulfillment on the part of the state. The social guarantee concept gives operational expression to fundamental human rights principles by providing mechanisms for awareness, participation, equity, and redress in the delivery of social policy. In addition, the social guarantees approach
