s reforms *The Paradox of China's Post-Mao Reforms* Merle Goldman, Roderick MacFarquhar, 1999 China's bold program of reforms launched in the late 1970s, the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China's unprecedented economic boom. Yet while the reforms made possible a rising standard of living for the majority of China's population, they came at the cost of a weakening central government, increasing inequalities, and fragmenting society. The essays of Barry Naughton, Joseph Fewsmith, Paul H. B. Godwin, Murray Scot Tanner, Lianjiang Li, and Kevin J. O'Brien, Tianjian Shi, Martin King Whyte, Thomas P. Bernstein, Dorothy J. Solinger, David S. G. Goodman, Kristen Parris, Merle Goldman, Elizabeth J. Perry, and Richard Baum, and Alexei Shevchenko analyze the contradictory impact of China's economic reforms on its political system and social structure. They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century.

The Everyday Impact of Economic Reform in China Ying Zhu, Michael Webber, John Benson, 2010-05-11 During the past 30 years, China has undergone extensive economic reform, replacing the government's administration of enterprises with increasing levels of market-oriented enterprise autonomy. At the heart of the reform are changes in the employment relationship, where state control has been superseded by market relationships. These reforms have had far-reaching implications for many aspects of everyday life in Chinese society. This book appraises the impact of the economic reforms on the employment relationship and, in turn, examines the effects on individual workers and their families, including salaries, working conditions, and satisfaction, job security, and disparities based on location, gender, age, skill, position, and migrant status. In particular, it focuses on how changes in the employment relationship have affected the livelihood strategies of households. It explores the changing human resource management practices and employment relations in different types of enterprises, including State-Owned Enterprises, Foreign-Owned Enterprises, and Domestic Private Enterprises, throughout different industries, focusing especially on textiles, clothing, and footwear, and the electronics industry, and in different regions and cities within China: Beijing, Haerbin, Lanzhou, Hangzhou, Wuhan, and Kunming. Overall, this book provides a detailed account of the everyday implications of economic reform for individuals and families in China.
