Refugee Protection and the Role of Law Susan Kneebone, Dallal Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the signing of the Refugee Convention forced migration and refugee movements continue to raise global concerns for hosting states and regions for countries of origin for humanitarian organisations on the ground and of course for the refugee This edited volume is framed

around two themes which go to the core of contemporary refugeehood protection and identity. It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times. The book investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement. It argues that Protection, which is a core focus of the Refugee Convention, appears to be under threat as there are many gaps and inconsistencies in practice. Contributors to the volume who include Erika Feller, Elspeth Guild, H. L. Lambert and Roger Zetter look at the relevant issues from the perspective of a number of different disciplines including law, politics, sociology and anthropology. The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice. The situation in a number of jurisdictions and regions in Europe, North America, South East Asia, Africa and the Middle East is explored in order to ask the question: does jurisprudence under the Refugee Convention need better coordination and how successful is oversight of the Convention?

Social Innovation Helmut Anheier, Gorgi Krlev, Georg Mildemberger, 2018-10-29

Social Innovation Comparative Perspectives investigates socio-economic impact. Since it is hard to establish causality and to measure social properties when investigating impact especially at the level of society, the book narrows down impact to one priority aspect: social innovation understood as organizations' capacity to generate novel ideas, ways and means of doing things of addressing public and social problems of many kinds. This volume's primary assertion is that the Third Sector specifically through stimulating civic involvement is best placed to produce social innovation outperforming business firms and state agencies in this regard. By investigating actor contributions to social innovation across seven fields of activity, *Social Innovation Comparative Perspectives* develops our understanding of why and how the Third Sector is central to functioning cohesive and viable societies. This volume is based on contributions of the project ITSSOIN: Impact of the Third Sector as Social Innovation, funded by the European Commission under the 7th framework programme. It will be of insight across disciplines in particular to the growing social innovation community, innovation researchers more generally and to non-profit scholars. The practical relevance of the book will be of interest to European and national policy makers and practitioners across different sectors.
