Essential Public Affairs for Journalists James Morrison, 2025

Changing local governance, changing citizens Durose, Catherine, Greasley, Stephen, 2009-10-14 The relationship between citizens and local decision makers is a long standing policy pre occupation and has often been the subject of debate by politicians across parties Recent governments have sought to empower activate and give responsibility to some citizens while other groups have been abandoned or ignored Drawing on extensive up to date empirical work by leading researchers in the field *Changing local governance changing citizens* aims to explain what debates about local governance mean for local people Questions addressed include what new demands are being made on citizens and why Which citizens are affected and how have they responded What difference do changing forms of local governance make to people s lives The book explores governance and citizenship in relation to multiculturalism economic migration community cohesion housing markets neighbourhoods faith organisations behaviour change and e democracy in order to establish a differentiated contemporary view of the ways that citizens are constituted at the local level today *Changing local governance changing citizens* provides a pertinent and robustly empirical contribution to current debates amongst policy makers academics practitioners and local communities about how to respond to this changing policy framework It will be of interest to post graduate students and academic researchers in politics public and social policy sociology local government and urban studies as well as policy makers and practitioners

Working Across Boundaries Helen Sullivan, Chris Skelcher, 2017-03-14 Collaboration between governments business the voluntary and community sectors is now central to the way public policy is made managed and delivered This book provides the first comprehensive and authoritative account of the theory policy and practice of collaboration Written by two leading authorities in the field the book explores the experience of collaboration in regeneration health and other policy sectors and assesses the consequences of the emergence of public private partnerships contrasting the UK experience to that elsewhere in the world

Partnerships Between Health and Local Government Stephanie Snape, Pat Taylor, 2004-06-01 The theme of this collection of essays is partnerships between health and local government Such partnerships are not new Nor is discussion of the merits or otherwise of collaboration between the two sectors The history of collaboration between these two sectors of the public services has been chequered to say the least indeed the boundary between health and social care has been described as a Berlin Wall However New Labour s ascension to power in 1997 has rekindled an avid interest in this issue The government s emphasis on partnerships and collaboration has been

projected as a key element of its Third Way philosophy Partnership working in particular has been viewed as the most appropriate means of addressing endemic obdurate social ills such as social exclusion poor health poverty and low educational standards *International Bibliography of Political Science* Compiled by the British Library of Political and Economic Science,2000-02 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences

The Political Marketing Revolution Jennifer Lees-Marshment,2004-10 This book shows how British politics is being transformed from a leadership run system to one dictated by public needs and demands No longer confined to party politics organizations including the monarchy the BBC universities local councils charities and the Scottish Parliament are adopting the tools of market intelligence to understand their market needs and demands The political marketing revolution raises many questions such as whether the student or patient really does know best and can decide his own education and health care The book calls for a debate about the movement of the British political system towards a market orientation and a re negotiation of the relationship between leaders and the market While recognizing the need for political leaders to listen this debate places some responsibilities on the political consumer looking to create a new relationship that might work more effectively for both sides

Democratic Leadership in Education Philip Woods,2005-10-03 This is an important book for anyone who is serious about introducing or sustaining democratic leadership in schools Busy practitioners will get much from it by going straight to the chapters about how democratic leadership could be made to work Kate Myers Times Educational Supplement I found this an interesting and stimulating book The book s ideas are a useful counterpoint to some of the daft notions of macho leadership and management being peddled in education and indeed the public sector more widely Woods book has the merits that though radical it seeks to base its recommendations in the real world and to argue that there are possibilities for change that can bring about real improvements in everyone s experience and outcomes Matching the rhetoric of democracy with reality or at least making them closer might also improve the quality of our political process and hence increase interest and reduce cynicism about politics something which surely should be welcomed Woods agenda is significant and his book certainly worth reading ESCalate Philip Woods productively refocuses our attention not on heroes and visions but on how we understand and practise within educational institutions in ways that are social and relational He provides a realistic and yet challenging analysis of democratic leadership in ways that speak to practitioners policy makers and researchers We deal everyday with issues of social justice and Philip Woods shows us how we might think differently about it and so work for a better system of learning and schooling Professor Helen Gunter School of Education University of Manchester Not another bunny but a welcome academic fox Kevin Avison Steiner Waldorf Schools Fellowship The theory and practice of democracy and democratic leadership have implications for how we understand what ought to be counted as improving schools In this book the author focuses on the idea of democratic leadership He examines what is meant by

democratic leadership and what forms it can take and shows how it is relevant to school education and learning The author shows how the ideals and theories of democratic leadership can translate into practice and sets out some of the challenges that democratic leadership poses in the context of contemporary education This book challenges many of the assumptions inherent in educational policy and conventional approaches to leadership It is about understanding and exploring both the idea of democratic leadership and its practical relevance through examples drawn from practice and research This book is for practitioners and students on professional development and academic courses It will be essential reading for all policy makers academics and others such as inspectors who critically examine leadership and management of educational institutions Every now and then a book is written in the field of leadership that stands out says something different is coherent original and makes us really ponder and think This is such a book it will provoke policy makers academics experienced practitioners and advanced students Cambridge Journal Education Managing the City John Diamond, Joyce Little, Alan Southern, Alan Townsend, 2007-01-24 Taking a problem based approach to regeneration management this exciting book examines how various issues are addressed within the areas of social and economic development and transformation **Special Issue on Renewing Local Democracy?** Lawrence Pratchett, 1999 *Toward an Anthropology of Government* W. Schumann, 2009-09-14 The National Assembly for Wales was established in 1999 granting the people of Wales a parliament for the first time in nearly six centuries The Assembly was intended to create a parliamentary culture of open inclusive and modern democracy that stood apart from the Houses of Parliament in London Based on anthropological fieldwork this informative book analyzes how power in Wales is legitimated and justified William Schumann's intriguing argument makes the case that contradictory political practices exist which affirm elected officials as public representatives while also reproducing the subordinate status of Wales within the institutional hierarchies of the United Kingdom and European Union Participatory Democracy and Political Participation Thomas Zittel, Dieter Fuchs, 2006-11-22 A detailed new examination of the initiatives governments are exploring to reform the institutions and procedures of liberal democracy in order to provide more opportunities for political participation and inclusion Combining theory and empirical case studies this is a systematic evaluation of the most visible and explicit efforts to engineer political participation via institutional reforms Part I discusses the phenomenon of participatory engineering from a conceptual standpoint while parts II III and IV take a comparative as well as an empirical perspective The contributors to these sections analyze participatory institutions on the basis of empirical models of democracy such as direct democracy civil society and responsive government and analyze the impact of these models on political behaviour Part V includes exploratory regional case studies on specific reform initiatives that present descriptive accounts of the policies and politics of these reforms Delivering a detailed assessment of democratic reform this book will of strong interest to students and researchers of political theory democracy and comparative politics Comparative Metropolitan Policy Jen Nelles, 2012-02-20 How are metropolitan regions governed

What makes some regions more effective than others in managing policies that cross local jurisdictional boundaries Political coordination among municipal governments is necessary to attract investment rapid and efficient public transit systems and to sustain cultural infrastructure in metropolitan regions In this era of fragmented authority local governments alone rarely possess the capacity to address these policy issues alone This book explores the sources and barriers to cooperation and metropolitan policy making It combines different streams of scholarship on regional governance to explain how and why metropolitan partnerships emerge and flourish in some places and fail to in others It systematically tests this theory in the Frankfurt and Rhein Neckar regions of Germany and the Toronto and Waterloo regions in Canada Discovering that existing theories of metropolitan collective action based on institutions and opportunities are inconsistent the author proposes a new theory of civic capital which argues that civic engagement and leadership at the regional scale can be important catalysts to metropolitan cooperation The extent to which the actors hold a shared image of the metropolis and engage at that scale strongly influences the degree to which local authorities will be willing and able to coordinate policies for the collective development of the region Metropolitan Governance and Policy will be of interest to students and scholars of comparative urban and metropolitan governance and sociology
