Death and Tenses Neil Kenny, 2015-12-17 In what tense should we refer to the dead The question has long been

asked from Cicero to Julian Barnes Answering it is partly a matter of grammar and stylistic convention But the hesitation annoyance and even distress that can be caused by the wrong tense suggests that more may be at stake our very relation to the dead This book the first to test that hypothesis investigates how tenses were used in sixteenth and early seventeenth century France especially in French but also in Latin to refer to dead friends lovers family members enemies colleagues writers officials kings and queens of recent times and also to those who had died long before whether Christ the saints or the ancient Greeks and Romans who posthumously filled the minds of Renaissance humanists Did tenses refer to the dead in ways that contributed to granting them differing degrees of presence and absence Did tenses communicate dimensions of posthumous presence and absence that partly eluded more concept based affirmations The investigation ranges from funerary and devotional writing to Eucharistic theology from poetry to humanist paratexts from Rabelais s prose fiction to Montaigne s Essais Primarily a work of literary and cultural history it also draws on early modern grammatical thought and on modern linguistics with its concept of aspect and its questioning of tense while arguing that neither can fully explain the phenomena studied The book briefly compares early modern usage with tendencies in modern French and English in the West asking whether changes in belief about posthumous survival have been accompanied by changes in tense use

Translation, Poetics, and the Stage Romy Heylen, 2014-08-13 This book establishes an analytical model for the description of existing translations in their historical context within a framework suggested by systemic concepts of literature It argues against mainstream 20th century translation theory and by proposing a socio cultural model of translation takes into account how a translation functions in the receiving culture The case studies of successive translations of Hamlet in France from the eighteenth century neoclassical version of Jean Francois Ducis to the 20th century Lacanian post structuralist stage production of Daniel Mesguich show the translator at work Each chapter focuses on a different aspect of the changing theatrical and literary norms to which translators through the ages have been bound by the expectations both of their audiences and the literary establishment

The Creation of Kazakh National Identity Dmitry V. Shlapentokh, 2023-10-31 This monograph utilizes three theoretical models to explain Kazakhstan's emergence as an independent state and its changing relationships with the broader world particularly Russia since the beginning of the twentieth century The book first explores the construction of Kazakh national identity and the ways in which intellectuals appealed to history to substantiate their claims about Kazakhstan's future Secondly the narrative demonstrates that not all segments of totalitarian machinery work in unison While terror reached its peak in the 1930s cultural and ideological control was not as rigid as it would become in the late 1940s and early 1950s Most importantly the work is grounded in the study of the social universe The book introduces the notion of cosmos the peculiar connections between social economic and political forces While not necessarily directly dependent on each other they nevertheless created a unique interplay among the segments of societal structures and the state's relationship with the wider universe Taking this framework as the point of departure this research analyzes Kazakhstan's multi vectorism as uniquely fit to contemporary global arrangements when no global power dominates and the lines between friend and foe are blurred This compelling approach to Kazakhstan's history will appeal to postgraduate students and scholars in Russian history and world history

The Clash of Empires Lydia He. LIU, Lydia He Liu, 2009-06-30 What is lost in translation may be a war a world a way of life A unique look into the nineteenth century clash of empires from both sides of the earthshaking encounter this book reveals the connections between international law modern warfare and comparative grammar and their influence on the shaping of the modern world in Eastern and Western terms The Clash of Empires brings to light the cultural legacy of sovereign thinking that emerged in the course of the violent meetings between the British Empire and the Qing Dynasty 1644 1911 Lydia Liu demonstrates how the collision of imperial will and competing interests rather than the civilizational attributes of existing nations and cultures led to the invention of China the East the West and the modern notion of the world in recent history Drawing on her archival research and comparative analyses of English and Chinese language texts as well as their respective translations she explores how the rhetoric of barbarity and civilization friend and enemy and discourses on sovereign rights injury and dignity were a central part of British imperial warfare Exposing the military and philological and almost always translingual nature of the clash of empires this book provides a startlingly new interpretation of modern imperial history
