The Reporters' Magazine, 1880 *Investigative Reporting* Marcy Burstin, 2018-06-18 *Investigative Reporting* provides a step-by-step approach for tackling any investigative story, teaching reporters the skills they need to overcome common obstacles during investigative work. Including tips and advice from student and professional reporters, this comprehensive textbook also offers strategies for conducting interviews and for organizing information into a compelling story or series of stories that engage the reader through multimedia storytelling. Highlights of the new edition include updated examples and anatomies of news stories, extensive discussion of data reporting and analysis for investigative projects, guidance on how to request public records using state public records acts and how to appeal denials of public records requests, instruction on the use of free collaborative tools for organizing, sharing, and analyzing information, a new chapter on creating a fact-checking system, a section on careers in investigative journalism, interviews with student investigative reporters from colleges across the country with professional investigative reporters from non-profit news organizations, emerging journalistic outlets and advocacy publications, and with staff and freelance reporters who produce stories for mainstream radio, television, print, and online news organizations.

Haller, 2005 *An Introduction to News Reporting* gives beginning reporters the tools to succeed by introducing them to news beats and the people, issues, sources, and stories associated with them. The text begins by reviewing the basics of reporting, including conducting interviews, developing sources, finding documents, and gathering information ethically and legally. It continues with a detailed look at the beats students are most likely to cover as beginning reporters: local government, education, business, police, and fire, courts, and others. Features: Covers the major beats in any news organization and lists sources for each beat, giving students the tools to begin reporting their stories. Includes the basics of newswriting so instructors can use the text in courses that combine newswriting and reporting. Provides activities at the end of every chapter, giving students a starting point for reporting the beat and guiding instructors in how to teach reporting skills. Provides a list of resources and

Web sites in every chapter to give students and instructors additional information on a particular beat and a starting point for researching stories
