Representations Of God Visible Religion S:

The New Visibility of Religion Graham Ward, Michael Hoelzl, 2008-10-09 Since the late 1980s sociologists have been drawing our attention to an international surge in the public visibility of religion. This has increasingly challenged two central aspects of modern western European culture: first, the assumption that as we became more modern we would become more secularised and religion would disappear; and secondly, that religion and politics should occupy radically differentiated spheres in which private conviction did not exert itself within the public realm. The new visibility of religion is not simply a matter of what Keppel famously called 'The Revenge of God' that is the resurgence of Christian, Islamic and Jewish fundamentalism. Religion is permeating western culture in many different forms, from contemporary continental philosophy, the arts and the media to the rhetoric of international politicians. This collection of essays brings together a unique collection of voices from theology, aesthetics, social and political science, philosophy and cultural theory in an exploration of four major aspects of this new visibility of religion: the revision of the secularisation thesis, the relationship between religion and violence, the new re-enchantment of reality and the return of metaphysics. The exploration is conducted through essays by and interviews with figures at the forefront of reflecting upon this major cultural shift and its implications. It is distinctively multidisciplinary, examining the phenomenon of the rise of religion in Western Europe from a number of interrelated perspectives.

Recent Trends in Social Systems: Quantitative Theories and Quantitative Models Antonio Maturo, Šárka Hošková-Mayerová, Daniela-Tatiana Soitu, Janusz Kacprzyk, 2016-08-26 The papers collected in this volume focus on new perspectives on individuals, society and science specifically in the field of socio-economic systems. The book is the result of a scientific collaboration among experts from Alexandru Ioan Cuza University of Iași, Romania; G. d'Annunzio University of Chieti-Pescara, Italy; University of Defence of Brno, Czech Republic; and Pablo de Olavide University of Sevilla, Spain. The heterogeneity of the contributions presented in this volume reflects the variety and complexity of social phenomena. The book is divided into four Sections as follows. The first Section deals with recent trends in social decisions. Specifically, it aims to understand which are the driving forces of social decisions. The second Section focuses on the social and public sphere. Indeed, it is oriented on recent developments in social systems and control. Trends in quantitative theories and models are described in Section 3, where many new formal mathematical/statistical tools for modelling complex social phenomena are presented. Finally, Section 4 shows integrative theories and models, particularly it deals with the ethical, cultural and political approaches to social science, the pedagogical methods and the relationship between literature, politics, religion and society. The book is addressed to sociologists, philosophers, mathematicians, statisticians, people interested in ethics and specialists in the fields of communication, social and political sciences.

Judaic Technologies of the Word Gabriel Levy, 2014-10-14 *Judaic Technologies of the Word* argues that Judaism does not exist in an abstract space of reflection. Rather, it exists both in artifacts of the material world such as texts

and in the bodies brains hearts and minds of individual people More than this Judaic bodies and texts both oral and written connect and feed back on one another Judaic Technologies of the Word examines how technologies of literacy interact with bodies and minds over time The emergence of literacy is now understood to be a decisive factor in religious history and is central to the transformations that took place in the ancient Near East in the first millennium BCE This study employs insights from the cognitive sciences to pursue a deep history of Judaism one in which the distinctions between biology and culture begin to disappear *A Heart of Wisdom* Maurice Friedman,2012-02-01 Drawing on almost half a century of immersion in the world s great religions coupled with an ever deepening understanding of the philosophy and phenomenology of religion the author takes a dialogical approach through which religious reality is not seen as external creed and form or as subjective inspiration but as the meeting in openness presentness immediacy and mutuality with ultimate reality Religion has to do with the wholeness of human life The absolute is found not just in the universal but in the particular and the unique When it promotes a dualism in which the spirit has no binding claim upon life and life falls apart into unhallowed fragments religion becomes the great enemy of humankind **Religions and Trade** ,2013-11-28 In Religions and Trade a number of international scholars investigate the ways in which eastern and western religions were formed and transformed from the perspective of trade Trade changes religions Religions expand through the help of trade infrastructures and religions extend and enrich the trade relations with cultural and religious commodities which they contribute to the market place of human culture and religion This leads to the inclusion demarcation and densification as well as the amalgamation of religious traditions In an attempt to find new pathways into the world of religious dynamics this collection of essays focuses on four elements or commodities of religious interchange topologies of religious space religious symbol systems religious knowledge and religious ethical ways of life Contributors include Christoph Auffarth Izak Cornelius Georgios Halkias Geoffrey Herman Livia Kohn Al Makin Jason Neelis Volker Rabens Abhishek Singh Amar Loren Stuckenbruck Joan Goodnick Westenholz Peter Wick Michael Willis and Sylvia Winkelmann **Symbolic Representation in Kant's Practical Philosophy** Heiner Bielefeldt,2003-05-29 This book explores in detail the role that symbolic representation plays in the architecture of Kant s philosophy Symbolic representation fulfills a crucial function in Kant s practical philosophy because it serves to mediate between the unconditionality of the categorical imperative and the inescapable finiteness of the human being By showing how the nature of symbolic representation plays out across all areas of the practical philosophy moral philosophy legal philosophy philosophy of history and philosophy of religion Heiner Bielefeldt offers a unique perspective on how these various facets of Kant s philosophy cohere [The Greater Men and Women of the Bible](#) James Hastings,1914 *Performing the Sacred: Christian Representation and the Arts* Carla M. presentation and the role of performance within the Christian tradition between arts and drama The essays in this book demonstrate that the idea of performance was central to Christian theology and that from the Middle Ages to the Early Modern era it became a device through which people saw prayed preached wrote imagined officiated rites celebrated cults and practiced devotions Seen that performance is a habitus within Christianity performing the sacred does not just mean representing it but rather enacting it in a tangible visible and involved way Theology of Migration in the Abrahamic Religions E. The Cambridge Companion to Ancient Mediterranean Religions Barbette Stanley Spaeth,2013-11-25 In antiquity the Mediterranean region was linked by sea and land routes that facilitated the spread of religious beliefs and practices among the civilizations of the ancient world The Cambridge Companion to Ancient Mediterranean Religions provides an introduction to the major religions of this area and explores current research regarding the similarities and differences among them The period covered is from the prehistoric period to late antiquity that is ca 4000 BCE to 600 CE The first nine essays in the volume provide an overview of the characteristics and historical developments of the major religions of the region including those of Egypt Mesopotamia Syria Canaan Israel Anatolia Iran Greece Rome and early Christianity The last five essays deal with key topics in current research on these religions including violence identity the body gender and visibility taking an explicitly comparative approach and presenting recent theoretical and methodological advances in contemporary scholarship *Religious Thought in England from the Reformation to the End of Last Century* John Hunt,1873

John Hunt (M.A., Curate of St. Ives.),1873 **Catholic Missions in Figures and Symbols** Robert Streit,1927 *Philosophy, Theology, and Hegel's Berlin Philosophy of Religion, 1821-1827* Philip M. Merklinger,1993-01-01 This book examines Hegel s contribution to the debate about the relationship between philosophy and theology reason and faith The author locates the debate within the philosophy of religion displaying that there is a need for philosophy to enter into dialogue with and to reflect upon the contents of theology Utilizing the recently published critical editions of Hegel s Berlin Lectures on the Philosophy of Religion the author substantiates this insight by tracing dialectically the development of Hegel s notion of the philosophy of religion through the 1821 1824 and 1827 lecture series on religion Not only does the author demonstrate that philosophy needs to incorporate theology in its thinking but he also establishes that such incorporation means that the philosophy of religion will be a continuously developing mode of reflection Indeed the author notes this developing philosophy of religion can for Hegel only take place through dialectical interaction with the leading theologies and theologians of one s time The book shows that this inner development of the philosophy of religion is also the

Montgomery, 2017-10-03 Jesus Christ is the most famous person in human history His favorite name for himself was the Son of Man or the the Human One Rarely did his followers call him that but it must have had great significance for him This book describes why this name was so important and what it means for us now Along with this favorite name this book shows how Jesus Christ fulfills human longing but at the same time is resisted by his own followers to this day Nevertheless his call to follow him has sounded down the centuries and been heeded by millions The book leads to an exploration of the Way that is found in Jesus Christ who called himself the Human One Religious Studies and Theology Helen Katharine Bond, Helen R.
