Seeing a Slice of Southern Africa My Way Tony Giles,2021-01-01 Seeing a Slice of Southern Africa My Way is the third in the Seeing The World series by Tony Giles It offers a unique insight into travelling in Southern Africa from a blind person s perspective It is a journey of continued self discovery for the author as he plots his way from multi cultural South Africa with its complex society to Malawi with its picturesque and peaceful nature This fascinating travel biography takes the reader through parts of Southern Africa and offers a brief glimpse into a little of Lesotho Swaziland Mozambique Zambia and Zimbabwe The history culture geography and nature of these nations is described through the author s other senses and provides an alternative insight to travelling in a fascinating and somewhat dangerous region of Africa How does the author cope travelling around countries that lack the conventional infrastructures of the UK whilst blind What skills does he use to tackle the many challenges that are encountered in such impoverished countries like Zimbabwe These alongside many more questions are answered in the pages of this compact and often emotional story There are moments of the usual dare devil adrenaline activities associated with this author including an incident that leaves Tony in an extremely dangerous situation Buy this enthralling book to discover how he survives Author of eBooks Seeing The World My Way 2017 Seeing The Americas My Way 2016 Website www.tonythetraveller.com Facebook www.facebook.com/theblindbackpacker Multispecies Leisure: Human-Animal Interactions in Leisure Landscapes Paula Danby,Katherine Dashper,Rebecca Finkel,2021-05-13 Multispecies Leisure Human Animal Interactions in Leisure Landscapes seeks to bring the animal in to the leisure studies domain and contribute to greater understanding of leisure as a complex interwoven multispecies phenomenon The emerging multidisciplinary field of human animal studies encourages researchers to move beyond narrow focus on human centric practices and ways of being in the world and to recognise that human and non human beings are positioned within shared ecological social cultural and political spaces With some exceptions leisure studies has been slow to embrace the animal turn and consider how leisure actions experiences and landscapes are shaped through multispecies encounters between humans other animals birds and insects plants and environment This book begins to address this gap by presenting research that considers leisure as more than human experiences The authors consider leisure with nonhuman others e g dogs horses affecting those others e g environmental concerns and affected by the non human e g landscape weather by exploring the contact zones between humans and other species Thus this work contributes to greater understanding of leisure as a
