The Republic of Dreams and Other Essays Gary Beck, 2018-11-27 From the previous published essays of New York author Gary Beck comes *The Republic of Dreams* A collection of his best essays with concerns for the the modern world and its interaction with the government body that rules over it A thought provoking collection for the modern age and future Alexis Allinson

The Republic of Art and Other Essays T. J. Diffey, 1991 Theories of Art Today Noël Carroll, 2000 What is art The contributors to *Theories of Art Today* address the assertion that the term art no longer holds meaning They explore a variety of issues including aesthetic and institutional theories of art feminist perspectives on the philosophy of art the question of whether art is a cluster concept and the relevance of tribal art to philosophical aesthetics Contributors to this book include such distinguished philosophers and historians as Arthur Danto Joseph Margolis and George Dickie

The Art Instinct Denis Dutton, 2009-01-01 Challenges popular conceptions in art theory and criticism to argue that human tastes in the arts are evolutionary traits shaped by Darwinian selection as opposed to social construction in a volume that explains the role of evolution in aesthetic preferences while calling for a practice of art criticism from an evolutionary standpoint 40 000 first printing

Art and Knowledge James O. Young, 2003-09-02 Almost all of us would agree that the experience of art is deeply rewarding Why this is the case remains a puzzle nor does it explain why many of us find works of art much more important than other sources of pleasure *Art and Knowledge* argues that the experience of art is so rewarding because it can be an important source of knowledge about ourselves and our relation to each other and to the world The view that art is a source of knowledge can be traced as far back as Aristotle and Horace Artists as various as Tasso Sidney Henry James and Mendelssohn have believed that art contributes to knowledge As attractive as this view may be it has never been satisfactorily defended either by artists or philosophers *Art and Knowledge* reflects on the essence of art and argues that it ought to provide insight as well as pleasure It argues that all the arts including music are importantly representational This kind of representation is fundamentally different from that found in the sciences but it can provide insights as important and profound as available from the sciences Once we recognise that works of art can contribute to knowledge we can avoid thorough relativism about aesthetic value and we can be in a position to evaluate the avant garde art of the past 100 years *Art and Knowledge* is an exceptionally clear and interesting as well as controversial exploration of what art is and why it is valuable It will be of interest to all philosophers of art artists and art critics

From Text to Literature S. Olsen, A. Pettersson, 2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text Adopting an analytic approach the articles attempt to clarify how these concepts govern our thinking about the phenomenon

of literature in various ways exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature

Images of Excellence Christopher Janaway, 1995-05-25 Plato was the first great figure in Western philosophy to assess the value of the arts he famously argued in the Republic that traditionally accepted forms of poetry drama and music are unsound claiming they are conducive to warped ethical standards detrimental to the psyche and purveyors of illusions about important matters in human life This view has been widely rejected but Christopher Janaway here argues that Plato's hostile case is a more coherent and profound challenge to the arts than has sometimes been supposed Denying that Plato advocates good art in any modern sense Dr Janaway seeks both to understand Plato's critique in the context of his own philosophy and to locate him in today's philosophy of art showing how issues in aesthetics arise from responses to his charges Plato's questions about beauty emotion representation ethical knowledge artistic autonomy and censorship are of contemporary relevance as formerly secure assumptions about the value of art and the aesthetic come under scrutiny *Images of Excellence* gives a new and original view of a famous issue in the history of philosophy it is written not only for readers working in ancient philosophy but for all who are interested in aesthetics art theory and literary theory

Art in Three Dimensions Noël Carroll, 2010-07-15 This is a collection of essays by one of the most eminent figures in philosophy of art Carroll argues that philosophers of art need to refocus their attention on the ways in which art enters the life of culture and the lives of individual audience members

Artworks Robert Stecker, 1996-12-09 What is art What is it to understand a work of art What is the value of art Robert Stecker seeks to answer these central questions of aesthetics by placing them within the context of an ongoing debate criticizing but also explaining what can be learned from alternative views His unified philosophy of art defined in terms of its evolving functions is used to

explain and to justify current interpretive practices and to motivate an investigation of artistic value Stecker defines art roughly as an item that is an artwork at time t if and only if it is in one of the central art forms at t and is intended to fulfill a function art has at t or it is an artifact that achieves excellence in fulfilling such a function Further he sees the standard of acceptability for interpretations of artworks to be relative to their aim Finally he tries to understand the value of artworks through an analysis of literature and the identification of the most important functions of literary works In addition to offering original answers to major questions of aesthetics Artworks covers most of the major issues in contemporary analytic aesthetics and discusses many major as well as many minor figures who have written about these issues including Stanley Fish Joseph Margolis Richard Rorty and Richard Shusterman *Aesthetics* Steven M. German nation in the nineteenth century so in the GDR it contributed to the act of imagining the collective socialist state Composing the Canon in the German Democratic Republic uses the reception of the Germanic musical heritage to chart the changing landscape of musical culture in the German Democratic Republic Author Elaine Kelly demonstrates the nuances of musical thought in the state revealing a model of societal ascent and decline that has implications that reach far beyond studies of the GDR itself The first book length study in English devoted to music in the GDR Composing the Canon in the German Democratic Republic is a seminal text for scholars of music in the Cold War and in Germany more widely

Bonnie S. Herbert David Croly,1928 **Rape in the Republic, 1609-1725: Formulating Dutch Identity** Amanda C.

Pipkin,2013-08-15 This book reveals the fundamental role rape played in promoting Dutch solidarity from 1609 1725 Through the identification of particular enemies it directed attention away from competing regional religious and political loyalties Patriotic Protestant authors highlighted atrocities committed by the Spanish and lower class criminals They conversely cast Dutch men as protectors of their wives and daughters an appealing characterization that allowed the Dutch to take pride in a sense of moral superiority and justify the Dutch Revolt After the conclusion of peace with Spain in 1648 marginalized authors including Catholic priests and literary women employed depictions of rape to subtly advance their own agendas without undermining political stability Rape was thus essential in the development and preservation of a common identity that paved the way for the Dutch defeat of the mighty Spanish empire and their rise to economic pre eminence in Europe
