Mason,Mahn Je Kim,Dwight H. Perkins,Kwang Suk Kim,David C. Cole,2020-03-17 Explores the economic and social development of Korea primarily in the twentieth century Includes extensive statistical data Examines the impact of Japanese colonialism and subsequent macroeconomic development industrialization rural development fiscal and financial development income distribution the development of foreign trade the role of education foreign assistance and urbanization Includes 134 tables and 10 figures summarizing historical statistical data *Historical Dictionary of the Republic of Korea* James E. Hoare,2015-06-09 This third edition of Historical Dictionary of the Republic of Korea covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture *The Political Economy of Development and Environment in Korea* Jae-Yong Chung,Richard J. Kirkby,2005-07-25 This book looks at Korea s economic social and spatial development processes from the early Modernisation period to the financial crisis of 1997 It focuses on the political and ideological control of the state during the developmental era as well as the environmental problems of Korea and examines how society and environment have been used as means to attain rapid accumulation Providing an holistic approach to Korean development this title allows a comprehensive view of Korea s economic miracle as well as its recent problems **The Korean Developmental State** Iain Pirie,2007-09-12 The Korean Developmental State is a comprehensive and up to date analysis of processes of state and economic restructuring in South Korea since the 1997 crisis The book distinguishes itself from previous studies by consistently arguing that structural changes in the global political economy have played a crucial role in reshaping the Korean state s own economic project More precisely Iain Pirie seeks to demonstrate how the Korean state increasingly adopted neo liberal policies from the 1980s onwards as a rational response to the evolution of global economic structures an evolution which has been driven by the continuous attempts of major global firms and leading capitalist states to overcome the chronic profitability problems that have dogged the core capitalist area since the late 1960s The radical restructuring programme the Korean state initiated after the 1997 crisis must be understood as a logical conclusion to these earlier more incremental processes of reform it initiated almost two decades earlier This book seeks to establish the neo liberal character of the Korean state through a close analysis of key institutional and policy reforms and serious engagement with more theoretical debates concerning the nature of the neo liberal state itself The Korean Developmental State offers a new perspective on the economic experience of Korea as a development model one that emphasizes global trends and

contradictions for Korea's economic crisis and resulting transformation and as such will be of significant interest to scholars of Korean studies and the Asian economy      **Curbing Corruption in Asian Countries** Jon S. T. Quah, 2011-07-21 As corruption is a serious problem in many Asian countries their governments have introduced many anti corruption measures since the 1950s This book analyzes and evaluates the anti corruption strategies employed in Hong Kong SAR India Indonesia Japan Mongolia the Philippines Singapore South Korea Taiwan and Thailand      **Korea** Keith Pratt, Richard Rutt, 2013-12-16 Compiled by specialists from the University of Durham Department of East Asian Studies this new reference work contains approximately 1500 entries covering Korean civilisation from early times to the present day Subjects include history politics art archaeology literature etc The Dictionary is intended for students teachers and researchers and will also be of interest to the general reader Entries provide factual information and contain suggestions for further reading A name index and comprehensive cross reference system make this an easy to use multi purpose guide for the student of Korea in the broadest sense      **The Struggle of Entertainment and Neoliberal Postcolonial Capitalist Politics in "New" Saudi Arabia** Anas M. Alahmed, 2022-07-07 Anas M Alahmed argues that the Entertainment Authority of Saudi Arabia created in 2016 was meant to introduce a new Saudi to the Western outsider audience and that the new Saudi state is on a mission to transform the country from a traditional and conservative kingdom to a new state dedicated to social modernization and openness Alahmed contends that globalization and the neoliberalism capitalist mode of politics have reinforced the transformation of cultural production into global entertainment production Therefore the author shows how the entertainment sector relies heavily on reproducing the Western culture of entertainment production and depends on Western businesses to bring entertainment into the country instead of investing in local entertainment businesses which forces the state to adopt neoliberal capitalism The author provides evidence on how the new modernity of Saudi Arabia has become a political tool through which neoliberal capitalists can create positive relationships with Western capitals as part of the postcolonial struggle of neoliberalism in the Global South Alahmed argues that there is a connection between the role of geopolitical power in globalization and postcolonial studies that explains the struggles of indigenous cultures related to providing their own production to society      *The Political Economy of Reforms in Egypt* Khalid Ikram, 2018 Drawing on Khalid Ikram's extensive knowledge of economic policymaking at the highest levels *The Political Economy of Reforms in Egypt* lays out the enduring features of the Egyptian economy and its performance since 1952 before presenting an account of policy making growth and structural change under the country's successive presidents to the present day      [The Korean Automotive Industry, Volume 1](#) A. Jacobs, 2021-12-10 In 1962 South Korea assembled just 1 100 new automobiles By 1996 this total had soared to 2 812 714 What explains this remarkable growth The answer is complex and involves a combination of a supportive State timely technology alliances a skilled but historically low paid workforce aggressive pricing savvy entrepreneurs and fortuitous circumstances Despite this amazing ascent comparatively little has been written about the Korean auto industry in

English In the first of a two volume set this 11 chapter book seeks to help fill this void by providing in depth examinations of all six of Korea s automakers from their beginnings through 1996 Uniquely written from the perspective of industry analysts at the time without knowledge of the Asian Fiscal Crisis the book should prove informative to practitioners scholars and students interested in automotive history international political economy Asian studies and more **The Koreas** ,1990

**They Are Not Machines** Chun Soonok, 2017-09-29 The multi faceted tensions created in developing countries between a burgeoning popular desire for democracy and the harsh imperatives of modernisation and industrialisation are nowhere more evident than in the so called Asian tiger nations Of all those nascent economies South Korea in the 1960s and 1970s stands pre eminent for the magnitude and speed of its development and the extraordinarily oppressive and inhumane conditions that its labour force mainly women and young girls were compelled to endure The author of this book was one of those young girls who suffered in the warren of sweat shop garment factories in the slums of central Seoul With little or no support from male co workers and despite their political naivety and the traditionally subordinate status of Korean females the women textile and garment workers confronted the ruling authority at all levels The author s mother was one of their leaders and her eldest brother sacrificed his life for their cause Despite appalling state directed violence betrayal by erstwhile colleagues the chicanery and mendacity of employers cooperatives and countless other setbacks these uneducated and overworked women finally succeeded in forming the first fully democratic trade union in the history of Korea Based on compelling personal accounts this is the first published account of the women s struggle and it throws much light on the process of modernisation and industrialisation in Korea and beyond
