Watson,2014-09-10 Besides the groundbreaking novels and stories that brought him fame William Faulkner throughout his life wrote letters to his publisher his lovers his family and his friends In this first major study of epistolarity in Faulkner s work James G Watson examines Faulkner s personal correspondence as a unique second canon of writing separate from his literary canon with its many fictional letters but developing along parallel lines By describing the similarity of forms and conventions in Faulkner s personal and fictional correspondence Watson clearly demonstrates that Faulkner s personal experience as a writer of letters significantly shaped his imaginative work early and late Letters are always about themselves they re create a world between the sender and the receiver In this illuminating study Faulkner s personal letters are treated as a form of reflexive writing first person narratives in which Sender self consciously portrays Self to a specific Receiver likewise portrayed in the letter text This duality of actual experience and imaginative re creation measures the personal distances between the life of the writer and the written self image It reveals that letters are at once fragments of autobiography and fictions of self Such laws of letters apply equally to the letters that appear throughout Faulkner s novels and stories The twenty one letters and telegrams in *The Sound and the Fury* for example portray character propel plot and convey important themes of failed communication and broken identity From *Soldiers Pay* to his last work Faulkner s carefully lettered canon of fiction is dramatic evidence of his understanding of epistolarity and of the extent to which he adapted letters including some of his own to shape his fictional world Nineteenth-Century Choral Music Donna M. Poland Russia Scandinavia and Finland Spain and the United States This diverse collection of essays brings together the work of 25 authors many of whom have devoted much of their scholarly lives to the composers and music discussed giving the reader a lively and unique perspective on this significant part of nineteenth century musical life **William Faulkner and the Materials of Writing** Jonathan Berliner, 2023-01-05 This book examines materials of writing in William Faulkner's novels and stories from parchment to typewriters letters to telegrams **The Letters of Arturo Toscanini** Arturo Toscanini, 2006-12 Fifty years after his death Arturo Toscanini is still considered one of the greatest conductors in history and probably the most influential His letters expertly collected translated and edited here by Harvey Sachs will give readers a new depth of insight into his life and work As Sachs puts it they reveal above all else a man whose psychological perceptions in general and self knowledge in particular were much more acute than most people have thought likely They are sure to enthrall anyone interested in learning more about one of the great lives of the twentieth century This is a major contribution to our understanding of Toscanini and of several entire eras of late nineteenth and twentieth century musical life especially the almost improvisatory looseness of opera in Italy the glamour of European festivals and the concert life of the United States It is also a wonderful sometimes downright salacious read New York Times Toscanini's large cranky humanity comes alive throughout his letters as it does in his best recordings New York Review of Books Edited with scrupulous care and wide ranging erudition Wall Street Journal Sachs has served the conductor well by editing this generously annotated and unprecedentedly revealing collection of letters that were written usually in haste and often in fury over the course of seventy years Washington Post **The Century Dictionary**, 1914 **The Century Dictionary and Cyclopedic**, 1906 **The Century Dictionary** William Dwight Whitney, 1890 *Letters of Clara Schumann and Johannes Brahms, 1853-1896* Clara Schumann, 1927 **The Century Dictionary: The Century dictionary**, 1911 **Faulkner, a Comprehensive Guide to the Brodsky Collection: The letters** Louis Daniel Brodsky, Robert W. Whitney**, 1904 **Rethinking the South** Michael O'Brien, 1993 Bringing together Michael O'Brien's pathbreaking essays on the American South this book examines the persistence and vitality of southern intellectual history from the early nineteenth century to the present day At once a broad survey of southern thought and a meditation on the subject as an academic discipline Rethinking the South deftly integrates social history literary criticism and historiography as it positions the South within the wider traditions of European and American culture In his thoughtful introduction and throughout the ten essays that follow O'Brien stresses the tradition of Romanticism as a central theme binding together figures as disparate as critic Hugh Legare literary scholar Edwin Mims poets Richard Henry Wilde and Allen Tate and historians W J Cash and C Vann Woodward First published as a collection in 1988 these essays confirm O'Brien's position as a pioneer in establishing and defining the enterprise of southern intellectual history

At the Edges of Vision Ren?ande Vall,2017-07-05 In *At the Edges of Vision* Ren van de Vall re examines the aesthetics of spectatorship in terms of new media art and visual culture The aesthetic experience of visual art has traditionally been described in terms of the distanced contemplation and critical interpretation of the work s form and representational content Recent developments in installation video and computer art have foregrounded the bodily and affective engagement of the spectator and in retrospect throw into question the model of spectatorial distance for more traditional art forms as well But what does this development entail for art s potential for reflective imaginative and experiential depth Is art still capable of providing a critical counterpoint to the ubiquitous presence of sensational yet short lived media imagery when it speaks to the senses rather than to the mind In a thorough examination of examples from painting film installation art and interactive video and computer art Van de Vall argues for a tactile and affective conception of reflection linking philosophy and art Looking at a Rembrandt self portrait and navigating through an internet art work have in common that both types of work rely on a playful rhythmically structured sensuous and embodied reflexivity for the articulation of meaning This sensuous dimension of playful reflexivity is just as important in philosophical thought however as the transcendental condition for genuine open ended reflection Drawing on the philosophy of Merleau Ponty Levinas Lyotard and Deleuze on the one hand and on new media theory on the other Van de Vall develops a performative phenomenology of aesthetic reflection visuality and visual art in order to rethink art s ethical and political relevance in present day digital media culture
