Rescue The Earth Conversations With The Green Crusaderse:

Rescue the Earth Farley Mowat,1998-12 Mowat is acknowledged as a world leader in relating humans to the planet they share with other species His lifetime of writing experience brings these conversations to powerful life This book consists of conversations between Mowat proponents of several of the most active representative of the combat units in the environmental movement ranging from a self styled environmental diplomat to grass roots guerrilla fighters A deeply thoughtful book about the real issues of the environmental time bomb Full of fascinating perspectives guaranteed to get you thinking about your own life your place on earth

The Green Bible Stephen Bede Scharper,2002 The Green Bible seeks out the word of God for our diminished planet Its sources range from the Hebrew and Christian scriptures to religious and political leaders scientists and environmentalists today Their voices bring home the urgent task we face to mend our household which is Creation and to inspire hope that life will continue and flourish for all Earth s beings

The ^AVoice of the Past Paul Thompson,2017-02-24 Oral history and life stories through recording the experiences of people of all kinds invigorate both past and present broadening life s base with unique testimony from hidden spheres of experience such as family relationships the informal culture of work or the lives of migrants This fully revised fourth edition of Paul Thompson s classic *The Voice of the Past* offers an invaluable tool for anyone using this approach

In Defence of Home Places Mark R. Leeming,2017-06-07 As environmental deterioration became a major political issue near the end of the twentieth century activists in Nova Scotia stood together to defend the places they called home They cooperated to protect local environments and economies but they disagreed about the causes of environmental problems the role of humanity in nature and the place of environmentalists in the political process *In Defence of Home Places* examines the diversity of environmental activism in Nova Scotia illustrating how radicals and conservatives combined efforts to achieve early legislative and social success It also chronicles the debates and disagreements over fundamental principles that then weakened and divided the powerful environmental movement Placing the evolution of Nova Scotian environmental activism within a broader theoretical framework Mark R Leeming considers its development in national and international contexts examining the environmental movement itself along with the choices and tactics that brought about its greatest successes and failures

Icy Battleground Donald Barry,2005 *Icy Battleground* is the first comprehensive account of the forty year political controversy over the seal hunt With a foreword by the Honourable John C Crosbie it traces the rise of the anti sealing protests the emergence of the International Fund for Animal Welfare its vigorous and unrelenting campaign to end commercial sealing and its strategies in mobilising pressure in Canada and abroad It also assesses the Canadian gove ment s counter strategies to continue the hunt as well as the challenges that emotionally targeted campaigns like the seal hunt pose for gove ment decision makers

The First Green Wave Ryan O'Connor,2014-11-15 In *The First Green Wave* Ryan O Connor traces the rise of the environmental movement in Toronto home to one of Canada s earliest and most dynamic communities of

environmental activists from the mid 1960s to the mid 1980s At the heart of the story is Pollution Probe an organization founded in 1969 by students and faculty at the University of Toronto Living up to its motto Do it in its first year of operation Pollution Probe confronted Toronto's City Hall over its use of pesticides Ontario Hydro over air pollution and the detergent industry over pollution of the Great Lakes The organization's successes inspired the founding of other environmental organizations across Canada and led to the development of initiatives now taken for granted such as waste reduction and energy policy This book describes the heady days of Canada's early environmental movement and examines the forces that reshaped the activist landscape in the 1980s *How Ottawa Spends 1991-92* Frances Abele,1991 The Nature of Canada Colin M. Coates,Graeme Wynn,2019-05-01 Intended to delight and provoke these short beautifully crafted essays enlivened with photos and illustrations explore how humans have engaged with the Canadian environment and what those interactions say about the nature of Canada Tracing a path from the Ice Age to the Anthropocene some of the foremost stars in the field of environmental history reflect on how we as a nation have idolized and found inspiration in nature even as fishers fur traders farmers foresters miners and city planners have commodified it or tried to tame it They also travel lesser known routes revealing how Indigenous people listened to glaciers and what they have to tell us and how even the nature we can't see the smallest of pathogens has served the interests of some while threatening the very existence of others The Nature of Canada will make you think differently not only about Canada and its past but quite possibly about Canada and its future Its insights are just what we need as Canada attempts to reconcile the opposing goals of prosperity and preservation *The John A. Livingston Reader* John Livingston,2013-03-05 Canada's pioneering radical naturalist now back in print John A Livingston is Canada's Rachel Carson His cogent brilliant writing on the effects of man on nature has defined an entire generation of environmentalists and is required reading for anyone who wants to understand the underpinnings of today's issues Radical when first published in the early 1970s and 1980s Livingston's arguments that we must find new approaches to our perception of nature and our place within it or face the irreversibility of our destruction of nature now reads prophetically The Reader brings two of Livingston's poetic and provocative books back into print for a new generation of readers and features an appreciation by Graeme Gibson *Future Survey Annual 1992* Michael Marien,1993-01-30 Working for Wildlife Janet Foster,1998-01-01 Foster shows how a small band of dedicated civil servants transformed their own goals of preserving endangered animals into active government policy The definitive history of the beginnings of wildlife conservation in Canada **Eco-facts and Eco-fiction** William H. Baarschers,2013-04-15 Ozone friendly recyclable zero waste elimination of toxic chemicals such environmental ideals are believed to offer solutions to the environmental crisis Where do these ideals come from Is the environmental debate communicating the right problems Eco Facts and Eco Fiction examines serious errors in perceptions about human and environmental health Drawing on a wealth of everyday examples of local and global concerns the author explains basic concepts and observations relating to the environment Removing fear of science

and technology and eliminating wrong perceptions lead to a more informed understanding of the environment as a science a philosophy and a lifestyle By revealing the flaws in today s environmental vocabulary this book stresses the urgent need for a common language in the environmental debate Such a common language encourages the effective communication between environmental science and environmental decision making that is essential for finding solutions to environmental problems

The Subjugation of Canadian Wildlife Max Foran, 2018-04-10 Hardly a day goes by without news of the extinction or endangerment of yet another animal species followed by urgent but largely unheeded calls for action An eloquent denunciation of the failures of Canada s government and society to protect wildlife from human exploitation Max Foran s *The Subjugation of Canadian Wildlife* argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin management practices and policies Tracing the evolution of the highly contestable assumptions that define the human wildlife relationship Foran stresses the price wild animals pay for human self interest Using several examples of government oversight at the federal provincial and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected Areas Network and provincial management plans this volume shows that wildlife policies are as much or more about human needs priorities and profit as they are about preservation Challenging established concepts including ecological integrity adaptive management sport hunting as conservation and the flawed belief that wildlife is a renewable resource the author compels us to recognize animals as sentient individuals and as integral components of complex ecological systems A passionate critique of contemporary wildlife policy *The Subjugation of Canadian Wildlife* calls for belief change as the best hope for an ecologically healthy wildlife rich Canada

Mother / Nature Catherine M. Roach, 2003-01-30 This brief but ambitious book explores our relationship with nature through the imagery we use when we talk about Mother Nature Employing the critical tools of religious studies psychology and gender studies Catherine M Roach examines the various manifestations of nature as mother and what that idea implies for the way we approach the natural world Part One Nature as Good Mother discusses the notion that nature is or is like a beneficent and nurturing mother who provides and maintains life In studying the green slogan Love Your Mother Roach questions the effects for women and for the environment of imputing female gender to nature She asks us to look at the associations that motherhood and mothering carry within a culture still shaped by patriarchy She notes the danger of such an apparently pro environmental slogan if mother evokes the bountiful self sacrificing provider who herself requires no care Part Two Nature as Bad Mother looks at the contrary notion of nature as a violent threatening and wrathful mother This image arises most often when humans and technology are depicted as masters of unruly nature Here Roach draws on theological reflection to analyze this ambivalence toward nature manifested in a fantasy that casts humans as gods She explores the contributions of eco theology and eco psychology to a heart of darkness perspective Finally Part Three Nature as Hurt Mother looks at possibilities and pitfalls of environmental healing inherent in the image of nature as a mother we have wounded and now seek to heal

Environmental Consciousness Stephen Hussey, Paul Richard Thompson, 2004 Across the globe environmental questions feature more and more in today's social and political agendas. In Western countries environmental campaigns target issues at home and abroad. They have a special urgency which draws in an astonishing range of field campaigners from young militants to rebel aristocrats. This book examines the roots of contemporary environmental consciousness and action in terms of both popular experience and tradition. The global reach of this book reflects the character of contemporary environmentalism. It examines a geographically and thematically diverse range of case studies including British environmental campaigners in the Brazilian rainforest, ecocriticism and literature, the environmental movement in Kazakhstan and medieval church iconography. The common theme linking each chapter is that environmental consciousness and activism are shaped through people's life stories and that their memories are shaped not only through individual experience but also through myth, tradition and collective memory. Containing a wealth of empirical source material, *Environmental Consciousness* will be invaluable for sociologists and historians alike. It offers a cutting edge illustration of how narrative and oral history can illuminate our understanding of an uncertain present. Stephen Hussey is a research associate at the School of Education at the University of Cambridge. His previous publications include *Childhood in Question* and his next publication will be a book for the wider market entitled *Headline History*. Paul Thompson is research professor in sociology and director of Qualidata at the University of Essex. He is also founder of the National Life Story Collection at the British Library National Sound Archive and founder editor of *Oral History*. His previous publications include *The Voice of the Past*, *The Edwardians* and *The Work of William Morris*.

Ecology of a Managed Terrestrial Landscape Ajith H. Perera, David L. Euler, Ian D. Thompson, 2011-11-01 The growing popularity of the broad landscape scale approach to forest management represents a dramatic shift from the traditional stand based focus on timber production. *Ecology of a Managed Terrestrial Landscape* responds to the increasing need of forest policy developers, planners and managers for an integrated comprehensive perspective on ecological landscapes. The book examines the big picture of ecological patterns and processes through a case study of the vast managed forest region in Ontario. The contributors synthesize current landscape ecological knowledge of this area and look at gaps and future research directions from several points of view: spatial patterns, ecological functions and processes, natural disturbances and ecological responses to disturbance. They also discuss the integration of landscape ecological knowledge into policies of forest management, particularly with respect to Ontario's legislative goals of forest sustainability. *Ecology of a Managed Terrestrial Landscape* is the first book to describe the landscape ecology of a continuously forested landscape in a comprehensive manner. It is written for instructors and students in forest management, wildlife ecology and landscape ecology, and for forest managers, planners and policy developers in North America.

Unveiling the Whale Arne Kalland, 2009 Whaling has become one of the most controversial environmental issues. It is not that all whale species are at the brink of extinction but that whales have become important symbols to both pro and anti

whaling factions and can easily be appropriated as the common heritage of humankind This book the first of its kind is therefore not about whales and whaling per se but about how people communicate about whales and whaling It contributes to a better understanding and discussion of controversial environmental issues Why and how are issues selected How is knowledge on these issues produced and distributed by organizations and activists And why do affluent countries like Japan and Norway still support whaling which is of insignificant economic importance Basing his analysis on fieldwork in Japan and Norway and at the International Whaling Commission the author argues how an image of a superwhale has been constructed and how this image has replaced meat and oil as the important whale commodity He concludes that the whaling issue provides an arena where NGOs and authorities on each side can unite swapping political legitimacy and building personal relations that can be useful on issues where relations are less harmonious

Cape Bretoniana Beaton Institute of Cape Breton Studies, 2005-01-01 Nova Scotia s Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place While outsiders may think only of the island s perennial economic woes and long economic dependence on coal mining and steel production it is also the home of a rich vibrant and distinct culture Brian Douglas Tennyson s *Cape Bretoniana* is the first bibliography to gather together all known publications relating to the history culture economy and politics of Cape Breton Island With more than 6000 entries it not only provides a comprehensive listing of publications and post graduate theses but also detailed annotations on the listings Each entry lists the author title place of publication publisher date of publication volume and issue number in the case of periodicals and page references followed by a brief description of the item Cape Breton has never been so thoroughly documented This bibliography will help to ensure that even in a world becoming increasingly homogenized by the forces of globalization unique cultural identities like Cape Breton s can be preserved and nurtured

Consuming Canada Chad Gaffield, Pam Gaffield, 1995 *Understanding Canada* Wallace Clement, 1997 The new Canadian political economy has emerged from its infancy and is now regarded as a respected and innovative field of scholarship *Understanding Canada* furthers this tradition by focusing on current issues in an accessible and informative way
