Consumption and Social Welfare Daniel T. Slesnick,2001 Designed to be accessible to noneconomists it relegates technical details to appendixes BOOK JACKET **Handbook of Income Distribution** Anthony B. Atkinson,Francois Bourguignon,2014-12-30 What new theories evidence explanations and policies have shaped our studies of income distribution in the 21st century Editors Tony Atkinson and Francois Bourguignon assemble the expertise of leading authorities in this survey of substantive issues In two volumes they address subjects that were not covered in Volume 1 2000 such as education health and experimental economics and subjects that were covered but where there have been substantial new developments such as the historical study of income inequality and globalization Some chapters discuss future growth areas such as inheritance the links between inequality and macro economics and finance and the distributional implications of climate change They also update empirical advances and major changes in the policy environment The volumes define and organize key areas of income distribution studies Contributors focus on identifying newly developing questions and opportunities for future research The authoritative articles emphasize the ways that income mobility and inequality studies have recently gained greater political significance **Human Security, Law and the Prevention of Terrorism** Andrej Zwitter,2010-11-23 This study examines two important questions regarding terrorism and political violence which threats to human security constitute root causes for collective violence and which adequate responses for these root causes are available to the international community The responses are examined on the basis of international law in particular human rights law and within the concept of human security with the goal of fostering a long term reduction in political violence Drawing on existing political discussions and research about the root causes of terrorism Zwitter develops a legal framework for the application of legal terrorism prevention tools This study serves as a framework of action and analysis using concepts and particularly legal frameworks which are already broadly or universally recognized to increase the applicability of the

framework without having to invent new legal regimes In doing so it makes use of the concept of human security for tackling breeding grounds and other facilitators of terrorism making it universally accessible Combining social science research with legal sociology and international law this book will be of interest to students and scholars of politics international relations security studies conflict studies and law

For Good Measure Advancing Research on Well-being Metrics Beyond GDP OECD,2018-11-27 The 2009 Commission on the Measurement of Economic Performance and Social Progress Stiglitz Sen Fitoussi Commission concluded that we should move away from over reliance on GDP when assessing a country s health towards a broader dashboard of indicators

Essays on Saving, Bequests, Altruism, and Life-cycle Planning Laurence J. Kotlikoff,2001-06-22 This collection of essays coauthored with other distinguished economists offers new perspectives on saving intergenerational economic ties retirement planning and the distribution of wealth The book links life cycle microeconomic behavior to important macroeconomic outcomes including the roughly 50 percent postwar decline in America s rate of saving and its increasing wealth inequality The book traces these outcomes to the government s five decade long policy of transferring in the form of annuities ever larger sums from young savers to old spenders The book presents new theoretical and empirical analyses of altruism that rule out the possibility that private intergenerational transfers have offset those by the government While rational life cycle behavior can explain broad economic outcomes the book also shows that a significant minority of households fail to make coherent life cycle saving and insurance decisions These mistakes are compounded by reliance on conventional financial planning tools which the book compares with Economic Security Planner ESPlanner a new life cycle financial planning software program The application of ESPlanner to U S data indicates that most Americans approaching retirement age are saving at much lower rates than they should be given potential major cuts in Social Security benefits

Theories of Social Capital Ben Fine,2010-01-11 Tracing the evolution of social capital since his highly acclaimed contribution of 2001 Social Capital Versus Social Theory Ben Fine consolidates his position as the world s leading critic of the concept Fine forcibly demonstrates how social capital has expanded across the social sciences only by degrading the different disciplines and topics that it touches a McDonaldisation of social theory The rise and fall of social capital at the World Bank is critically explained as is social capital s growing presence in disciplines such as management studies and its relative absence in others such as social history Writing with a sharp critical edge Fine not only deconstructs the roller coaster presence of social capital across the social sciences but also draws out lessons on how and how not to do research

Multiple Deprivation and Multiple Disadvantage in Ireland Christopher T. Whelan,Bertrand Maitre,Brian Nolan,2007

Security Studies Christopher W. Hughes,Yew Meng Lai,2011-02-18 This reader brings together key contributions from many of the leading scholars in the field offering students an informed overview of the most significant work in security studies The editors chart the development of the key theoretical and empirical debates in security studies in the Cold War and post Cold War periods introducing the ideas of the most influential past masters and contemporary

thinkers on security in the UK US and elsewhere The book is divided into five areas What is Security Security Paradigms Security Dimensions and Issues Security Frameworks and Actors The Future of Security In order to guide students through the issues the book has a substantial critical introduction exploring the development of security studies as well as introductory essays that provide an overview of each section highlighting clearly how the readings fit together Suggestions for further reading and key questions for discussion are also included Security Studies is an invaluable resource for all students of security studies and international relations

Failed States and the Origins of Violence Tiffany Howard, 2016-04-15 What makes a terrorist Is an individual inherently predisposed to be attracted to political violence or does exposure to a certain environment desensitize them in such a way that violence represents a viable mode for addressing political grievances Identifying state failure as the impetus for political violence this book addresses these questions and focuses on why existing extremist groups find failed states so attractive Utilizing global barometer data Tiffany Howard examines the underpinnings of individual support for political violence and argues that an insidious pattern of deprivation within failed states drives ordinary citizens to engage in and support extreme acts of political violence A rigorous examination of four regions plagued by a combination of failed states and political violence Sub Saharan Africa The Middle East and North Africa Southeast and South Asia and Latin America this text draws parallels to arrive at a single conclusion that failed states are a natural breeding ground for terrorism and political violence

The Perception of Poverty A.J.M. Hagenaars, 2014-06-28 An attempt to define measure and explain poverty is presented in this volume by means of a newly developed theoretical model A combination of theory and empirical application is achieved by using the theoretical model on a sizeable data set derived from an extensive survey conducted in eight European countries The nature of poverty is thereby empirically defined and not a priori as being the income level at which households feel that their income is just between sufficient and insufficient An aggregate poverty index associated with this poverty line definition is calculated for each country and for subgroups within each country Conclusions for social policy are drawn describing which groups are at especially high risk of entering poverty and who therefore need more specific policies It is also discussed to what extent economic growth will eliminate poverty and which alternative measures are available
