[Welcoming tourists]

Hello everyone. My name is Luca. On behalf of Suntan Tours I'd like to welcome you all to Los Cabos. The bus ride to your hotel will take about fifteen minutes. Right now I'd like to take a minute to familiarize you with the area and discuss some brief safety precautions. Firstly, I ask that you remain seated until we reach our destination and that you not eat or drink while on the bus. Secondly, please realize that it is against the law to get drunk in public. Enjoy your vacation, but do drink responsibly and do not drink and drive.

[Describing the location]

I promise you are going to enjoy your stay here in San Jose, Los Cabos. This is a beautiful, quiet city where you can relax, sit by the beach, enjoy great meals and feel very safe. You can walk into town and enjoy the fountains or take a moonlit walk along the water. Please do not swim here. This is not a safe place to swim because there is a strong undertow. Cabos San Lucas is the place to go if you want to enjoy swimming in the ocean. You can take a short bus ride from your hotel. There you will also enjoy entertainment and dancing.

Pick,2012-12-06 This book grew out of discussion at the meetings of the Board of Scientific Affairs of the American Psychological Association during the years 1972 through 1975 Members of the board felt that there was general misunderstanding by the public about the role of basic research in science The problem was thought to be particularly severe in the case of the behavioral sciences but it appeared to be a reflection of a more general anti intellectual attitude in the United States At the same time basic researchers had been admittedly underconcerned with the practical application of their results Yet many thoughtful scientists realize there is a very fruitful interplay between basic research and application The proposal was made to prepare a book of case studies that demonstrate the application of basic research in psychology The book was organized to sample applications from a range of topics in psychology The editorial board divided up responsibilities for these topics Herschel W Leibowitz focused on applications from experimental and engineering psychology and Jerome E Singer organized the section on applications to social problems Alfred Steinschneider took responsibility for the section on clinical applications of basic research in psychology and Harold W Stevenson organized the section on applications of basic research to developmental and educational problems
