Richard Hauser,Irene Becker,2012-12-06 Irene Becker and Richard Hauser Bringing Income Distribution in From The Cold

was the title Anthony B Atkinson gave his Presidential Address to the Royal Economic Society in 1996 This provocative formulation was intended to draw attention to the way in which the subject of income distribution long has been marginalised in the field of economics Atkinson 1997 In recent years however scientific interest in matters of personal income distribution has been growing One reason for this recent concern stems from the political sphere The factors of reinforced competition between countries due to the globalisation of markets and European integration high unemployment rates and demographic changes necessitate reforms of labour markets tax systems and social security systems These reforms will affect both allocation and distribution so that reliable information on both areas is needed to devise balanced political programs Another reason for the burgeoning literature on personal income distribution is the improved availability of data on individual income which are a major prerequisite for detailed analyses of distribution topics Last but not least the development of powerful computers advanced statistics econometric packages and extended micro simulation models enables researchers both to work with huge individual data sets to describe and explain the personal distribution of income and to simulate the effects of political social and economic programs The volume at hand is based on some of the research advances in this field during the last decade

Handbook of Attitudes, Volume 2: Applications Dolores Albarracin, Blair T. Johnson, 2018-10-10 Attitudes are evaluations of people places things and ideas They help us to navigate through a complex world They provide guidance for decisions about which products to buy how to travel to work or where to go on vacation They color our perceptions of others Carefully crafted interventions can change attitudes and behavior Yet attitudes beliefs and behavior are often formed and changed in casual social exchanges The mere perception that other people say rich people favor something may be sufficient to make another person favor it People s own actions also influence their attitudes such that they adjust to be more supportive of the actions People s belief systems even change to align with and support their preferences which at its extreme is a form of denial for which people lack awareness These two volumes of The Handbook of Attitudes provide authoritative critical surveys of theory and research about attitudes beliefs persuasion and behavior from key authors in these areas This second volume covers applications to measurement behavior prediction and interventions in the areas of cancer HIV substance use diet and exercise as well as in politics intergroup relations aggression migrations advertising accounting education and the environment

Inclusive Growth And Development In The 21st Century: A Structural And Institutional Analysis Of China And India Dilip Dutta, 2014-03-10 Using case studies of both China and India this book reinforces the fact that the processes of economic growth and development are dynamic and organic in the sense that structural and institutional elements are not only interrelated but also constantly changing in their patterns of interactions more so during the transitional period of both countries Inclusiveness or its lack in some specific socio economic sector context geographical region state or economy as a whole is critically analysed using recent data on both the countries from different sources

Social Ethics and Normative Economics Marc Fleurbaey, Maurice Salles, John A.

Weymark,2011-04-11 This collection of thirteen essays on social ethics and normative economics honouring Serge Christophe Kolm s seminal contributions to this field addresses the following questions How should the public sector price its production and services What are the normative foundations of criteria for comparing distributions of riches and advantages How should intergenerational social immobility and inequality in circumstances be measured What is a fair way to form partnerships How vulnerable to manipulation is the Lindahl rule for allocating public goods What are the properties of Kolm s ELIE tax proposal Would the addition of EU level income taxes enhance equity How should we compare different scenarios for future societies with different population sizes How can domain conditions in social choice theory be justified using Kolm s epistemic counterfactuals How can Kolm s distributive liberal contract be implemented What are the implications of norms of reciprocity for the organization of society The answers to these questions give major insight into the state of the art of social ethics and normative economics and are thus an indispensable source for researchers in both of these fields **The**
