Retreat From Leningrad Army Group North 1944/1945:

Retreat from Leningrad, Army Group North, 1944/1945 Steven H. Newton, 1995 11 The Tactical Success of Army Group North **The Crushing of Army Group North 1944-1945 on the Eastern Front** Ian Baxter, 2017-01-30 The Crushing of Army Group North 1944 45 on the Eastern Front tells the story in words and images of the last bitter months fought on Russian soil and the battle of the Baltic States that ensued Drawing on rare and unpublished photos it reveals in detail how remnants of Army Group North were driven back to the borders of Estonia Latvia and Lithuania In the battles that followed the retreating German Panzer and infantry divisions were encircled and annihilated With the remnants were pushed back into East Prussia and then fought to the death in the last few small pockets of land surrounding three ports of Libau in Kurland Pillau in East Prussia and Danzig at the mouth of the River Vistula It was here that the final battle of Army Group North would take place after Hitler ordered his troops to stand and fight and wage an unprecedented battle of attrition

Army Group North Werner Haupt, 1997 After long years of studying sources and literature Werner Haupt presents the military history of one of the larger theaters of World War II The completion of the history of Army Group North is the result of the author's utilization of all German and Russian literature as well as those combat diaries and documents of the committed troop units that are available in German archives In addition the author was assisted in clearing up several questions by the advice of former members of the army group from commanders to drivers This series by Werner Haupt will continue with a volume each on Army Group Center and Army Group South The author served in the German Army as a soldier and officer in the northern sector of the Eastern Front during the Second World War He is also the author of Assault on Moscow 1941 available from Schiffer Publishing Ltd **Hitler's War Against the Partisans During Operation**

Barbarossa Antonio J Muñoz, 2025-04-28 From the start of the war on the Eastern Front Hitler's Ostheer his Eastern Army would wage a vernichtungskrieg or war of annihilation in the East Never before had such a wide reaching campaign been fought Preparations for Germany's invasion of the Soviet Union had included the drawing up of plans and allocation of resources to secure the newly conquered territories These plans included the premeditated murder of many innocent civilians Adolf Hitler said as much when in July 1941 shortly after Stalin ordered the formation of partisans he told his Army High Command This partisan war has some advantage for us it enables us to eradicate everyone who opposes us Anticipating resistance to Nazi occupation and rule Hitler instructed the Ostheer to act ruthlessly not only on the front lines but in the rear areas as well When in July 1941 Stalin ordered partisan forces to be created the stage was therefore set for the largest and most savage conflict ever waged between a modern military force and a guerrilla army The scale of the partisan and anti partisan war on the Eastern Front was as costly and bitterly fought as the struggle on the front lines themselves Employing thousands of primary source documents and scouring eight separate state archives in six countries over a twenty two year period Antonio J Muñoz has produced what can be described as a definitive account of this part of the war behind the front

lines in the East during the invasion of the Soviet Union From the very beginning the Nazis fought this war ruthlessly by eliminating not only actual guerrillas but a good portion of the civilian population Employing dozens of wartime anti partisan operational instructions plus newly created detailed battle maps and full orders of battle Dr Mu oz brings this little known conflict behind the lines into focus for the very first time The war behind the lines is detailed by district This includes the Reichskommissariat Ostland region which comprised the Generalbezirk Estland Estonia Generalbezirk Lettland Latvia Generalbezirk Litauen Lithuania Generalbezirk Bialystok Northeastern Poland and Generalbezirk Wei ruthenien Belarus The book also covers the guerrilla and anti partisan war in the Reichskommissariat Ukraine Ukraine region as well as in north central and southern Russia For Russia proper anti partisan operations against the guerrillas are broken down by army group area Not only are the operations described but the reader will also learn about guerrilla attacks and how the entire partisan movement grew from year to year and region to region Hitler s War Against the Partisans During Operation Barbarossa documents the whole of the beginning of the savage partisan war between June 1941 and the spring of 1942 Never before has every major and some minor anti guerrilla operation been described in such detail *Hitler's War Against the Partisans During The Stalingrad Offensive* Antonio J Muñoz, 2025-05-30 From the start of the war on the Eastern Front Hitler s Ostheer his Eastern Army and its associated forces would wage a vernichtungskrieg or war of annihilation in the East Never before had such a wide reaching campaign been fought The preparations for the war against the partisans began before the launches of Operation Barbarossa during which the Axis forces immediately put their plans into effect The effects upon the newly conquered territories were soon being felt The end of the initial phase of the German invasion of the Soviet Union was met by a Red Army winter offensive which began on 5 December 1941 As the author shows this had repercussions behind the German lines where the nascent Soviet partisan movement was attempting to grow and gain a foothold By the spring of 1942 those early Soviet partisan units were ready to expand The Germans aware of the military situation both on the frontlines and in the rear of their armies also prepared to counter the growing partisan threat The partisans undoubtedly made a significant contribution to Stalin s war effort by countering Axis plans to exploit occupied Soviet territories economically as well as providing valuable assistance to the Red Army by conducting systematic attacks against Hitler s rear communication network As the German military planned to continue the Russian campaign into the summer of 1942 new security forces were gathered together and sent to the Soviet Union and a new headquarters specifically organized to fight the guerrilla menace was established In this follow up study author Antonio Mu oz picks up the partisan and anti partisan struggle in the East where Hitler s War Against the Partisans During Operation Barbarossa left off The struggle behind the frontlines in Russia proved to be as grand and epic as the fight along the front lines Dr Mu oz describes this war of attrition along the entire breath of the USSR In 1942 the Ostheer acting on Adolf Hitler s orders launched their 1942 summer offensive which was aimed at capturing the Caucasus Mountains and the Russian oil fields that lay there Dr Mu oz not only covers the war behind

the lines in every region of the occupied USSR but also describes the German anti partisan effort behind the lines or Army Group South as its forces drove into the Caucasus Mountains the Volga River bend and Stalingrad No other work has included the guerrilla and anti partisan struggle specific to the Stalingrad campaign Mu oz manages to accomplish this but also to convey the story of the rest of the partisan and anti guerrilla war in the rest of the USSR from the spring of 1942 to the spring of 1943 *Hitler's War Against the Partisans During the Kursk Offensive* Antonio J Muñoz, 2025-11-25 By the summer of 1943 the Soviet partisan forces had grown from small disorganized groups into a formidable fighting force Hitler still holding some advantages hoped to crush a Red Army salient near Kursk and shorten the front lines with a localized offensive However the Soviets anticipated the attack and built extensive defense lines to thwart it employing large numbers of partisans to disrupt German preparations The critical period of 1943 saw intense fighting behind German lines particularly during the Battle for the Rails in July and August Stalin s partisans worked relentlessly to block the flow of German supplies and troops forcing the Germans to contend with a growing insurgency Dr Antonio J Mu oz s book examines these guerrilla operations using German maps to detail partisan movements and the German response which included increasing anti partisan operations The year 1943 marked a turning point in the war on the Eastern Front While Stalingrad in 1942 revealed Germany s inability to win in Russia the failed Battle of Kursk in 1943 demonstrated the inevitable loss of the war The partisan efforts were so successful that by August 1943 only 80% of the trains carrying supplies reached Army Group Centre s front lines **Leningrad** , *Hitler's Wave-Breaker Concept* Henrik O. Lunde, 2013-07-19 A strategic analysis of the Nazi high command s decisions in the north from an established scholar of the Scandinavian theater Publishers Weekly One of the prominent controversies of World War II remains the debate over Germany s strategy in the north of the Soviet Union as the tide of war turned and gigantic Russian armies began to close in on Berlin Here Henrik Lunde former US Special Forces officer and author of renowned works on the campaigns in Norway and Finland turns his sights to the withdrawal of Army Group North Applying cool headed analysis to the problem the author first acknowledges that Hitler often accused of holding on to ground for the sake of it had valid reasons in this instance to maintain control of the Baltic coast Without it his supply of iron ore from Sweden would have been cut off German naval U boat bases would have been compromised and an entire simpatico area of Europe including East Prussia would have been forsaken On the other hand Germany s maintaining control of the Baltic would have meant convenient supply for forces on the coast or evacuation if necessary and perhaps most important remaining German defensive pockets behind the Soviets main drive to Europe would tie down disproportionate offensive forces Stalwart German forces remaining on the coast and on their flank could break the Soviet tidal wave However unlike during today s military planning the German high command in a situation that changed by the month had to make quick decisions and gamble the fate of hundreds of thousands of troops and the entire nation at stake on quickly decided throws of the dice In this book both combat and strategy are described in the final stages of the fighting in the Northern

Theater with Lunde's even handed thought provoking analysis of the campaign a reward to every student of World War II Includes maps *Leningrad* Michael Jones, 2009-05-28 When the German High Command encircled Leningrad it was a deliberate policy to eradicate the city's civilian population by starving them to death As winter set in and food supplies dwindled starvation and panic set in A specialist in battle psychology and the vital role of morale in desperate circumstances Michael Jones tells the human story of Leningrad Drawing on newly available eyewitness accounts and diaries he shows Leningrad in its every dimension including taboo truths long suppressed by the Soviets such as looting criminal gangs and cannibalism But for many ordinary citizens Leningrad marked the triumph of the human spirit They drew deeply on their inner resources to inspire comfort and help one another At the height of the siege an extraordinary live performance of Shostakovich's Seventh Symphony profoundly strengthened the city's will to resist When German troops heard it in their trenches one remarked We began to understand we would never take Leningrad Yet Leningrad's self defence came at a huge price When the 900 day siege ended in 1944 almost a million people had died and those who survived would be permanently marked by what they had endured as this superbly insightful and moving history shows **German Ground Forces of World War II** William T. McCroden, Thomas E. Nutter, 2019-05-09 A groundbreaking and comprehensive order of battle for German ground troops in WWII from the invasion of Poland to the final defeat in Berlin An indispensable reference work for Second World War scholars and enthusiasts German Ground Forces of World War II captures the continuously changing character of Nazi ground forces throughout the conflict For the first time readers can follow the career of every German division corps army and army group as the German armed forces shifted units to and from theaters of war Organized by sections including Theater Commands Army Groups Armies and Corps Commands it presents a detailed analysis of each corresponding order of battle for every German field formation above division This innovative resource also describes the orders of battle of the myriad German and Axis satellite formations assigned to security commands throughout occupied Europe and the combat zones as well as those attached to fortress commands and to the commanders of German occupation forces across Europe An accompanying narrative describes the career of each field formation and includes the background and experience of many of their most famous commanding officers
