Return Holocaust Survivors And Dutch Anti Semitism:

Return Dienne Hondius, 2003-10-30 Only a quarter of Dutch Jews survived the Holocaust when the survivors returned home they found the welcome far from effusive This text charts the difficulties of reintegrating into a society that viewed the survivors with suspicion and unease *The Compromise of Return* Elizabeth Anthony, 2021-05-04 The *Compromise of Return* Viennese Jews after the Holocaust explores the motivations and expectations that inspired Viennese Jews to reestablish lives in their hometown after the devastation and trauma of the Holocaust Elizabeth Anthony investigates their personal political and professional endeavors revealing the contours of their experiences of returning to a post Nazi society with full awareness that most of their fellow Austrians had embraced the Nazi takeover and their country's unification with Germany clinging to a collective national identity myth as first victim of the Nazis Anthony weaves together archival documentation with oral histories interviews memoirs and personal correspondence to craft a multilayered multivoiced narrative of return focused on the immediate postwar years The book consists of six chapters Chapter 1 begins with setting the historical scene and political context to elucidate the backdrop for the role and position of Jews in Austrian and Viennese society Chapter 2 begins just before the Soviet conquest of Vienna in April 1945 and with the story of the last Jews murdered in Vienna Chapter 3 deals with the second group of returning Jews concentration camp survivors and outlines their varied processes and journeys as they also followed their impulse to go to their familial home Chapter 4 presents how their parties shaped their motivations and expectations of home while they lived abroad after fleeing from the Nazis Chapter 5 illuminates the return and rerooting of Austrian Jewish professionals including their struggles and successes Chapter 6 expounds common challenges encountered by all groups of returnees while relaunching their lives in Vienna with a focus on developing postwar identity concepts both Viennese Jewish identity and Austrian national identity *The Compromise of Return* is the first such social history to depict how survivors individually and collectively navigated postwar Vienna's political and social setting This book will be of special interest to scholars students and readers of Holocaust and European studies **The Holocaust, Israel and 'the Jew'** Evelien Gans, Remco Ensel, 2025-10-01 This book is the first comprehensive study of postwar antisemitism in the Netherlands It focuses on the way stereotypes are passed on from one decade to the next as reflected in public debates the mass media protests and commemorations and everyday interactions *The Holocaust Israel and the Jew* explores the ways in which old stories and phrases relating to the stereotypical Jew are recycled and modified for new uses linking the antisemitism of the early postwar years to its enduring manifestations in today's world The Dutch case is interesting because of the apparent contrast between the Netherlands' famous tradition of tolerance and the large numbers of Jews who were deported and murdered in the Second World War The book sheds light on the dark side of this so-called Dutch paradox in manifestations of aversion and guilt after 1945 In this context the abusive taunt 'They forgot to gas you' can be seen as the first radical expression of postwar antisemitism as well as an indication of how the Holocaust came to be turned against the

Jews The identification of the Jew with the gas chamber spread from the streets to football stadiums and from verbal abuse to pamphlet and protest The slogan Hamas Hamas all the Jews to the gas indicates that Israel became a second marker of postwar antisemitism The chapters cover themes including soccer related antisemitism Jewish responses philosemitism antisemitism in Dutch Moroccan and Dutch Turkish communities contentious acts of remembrance the neo Nazi tradition and the legacy of Theo van Gogh The book concludes with a lengthy epilogue on the Jew in the politics of the radical right the attacks in Paris in 2015 and the refugee crisis The stereotype of the Jew appears to be transferable to other minorities

As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice Zehavit Gross,E. Doyle Stevick,2015-03-16 This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world It comes at a critical time as the world observes the 70th anniversary of the liberation of Auschwitz We are now at a turning point as the generations that witnessed and survived the Shoah are slowly passing on Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present These efforts take place at a time when scholarship about the Holocaust itself has made great strides In this book these issues are framed by some of the leading voices in the field including Elie Wiesel and Yehuda Bauer and then explored by many distinguished scholars who represent a wide range of expertise Holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is critical This book provides exactly that

The Jews are Coming Back David Bankier,2005 In 14 papers delivered at or sent to a May 2001 conference in Jerusalem historians specializing in Jews in various European countries examine the views about the return or prospective return of the Jews to their countries of origin after World War II Among the countries are France the Netherlands Italy Poland and Hungary Places and names are

Negotiating Racial Politics in the Family Barbara Henkes,2020-05-06 This book is situated at the cutting edge of the political ethical dimension of history writing Henkes investigates various responsibilities and loyalties towards family and nation as well as other major ethical obligations towards society and humanity when historical subjects have to deal with a repressive political regime In the first section we follow pre war German immigrants in the Netherlands and their German affiliation during the era of National Socialism The second section explores the positions of Dutch emigrants who settled after the Second World War in Apartheid South Africa The narratives of these transnational agents and their relatives provide a lens through which changing constructions of national identities and the acceptance or rejection of a nationalist policy on racial grounds can be observed in everyday practice

Tango of Death: The Creation of a Holocaust Legend Willem de Haan,2022-10-24 A legend that captures the

imagination of audiences and shapes representations of the Holocaust is that in Nazi concentration camps Jewish musicians were forced to play a Tango of Death as men women and children made their way to the gas chambers This book traces the origins of this legend to a little known concentration camp in Ukraine where musicians were forced to perform a Jewish tango at executions before they themselves were murdered By reconstructing the creation of this legend the book shows how the actual history is hidden distorted or even lost altogether Beyond Anne Frank Diane L. Wolf, 2007-01-16 The image of the Jewish child hiding from the Nazis was shaped by Anne Frank whose house the most visited site in the Netherlands has become a shrine to the Holocaust Yet while Anne Frank's story continues to be discussed and analyzed her experience as a hidden child in wartime Holland is anomalous as this book brilliantly demonstrates Drawing on interviews with seventy Jewish men and women who as children were placed in non Jewish families during the Nazi occupation of Holland Diane L. Wolf paints a compelling portrait of Holocaust survivors whose experiences were often diametrically opposed to the experiences of those who suffered in concentration camps Although the war years were tolerable for most of these children it was the end of the war that marked the beginning of a traumatic time leading many of those interviewed here to remark My war began after the war This first in depth examination of hidden children vividly brings to life their experiences before during and after hiding and analyzes the shifting identities memories and family dynamics that marked their lives from childhood through advanced age Wolf also uncovers anti-Semitism in the policies and practices of the Dutch state and the general population which historically have been portrayed as relatively benevolent toward Jewish residents The poignant family histories in *Beyond Anne Frank* demonstrate that we can understand the Holocaust more deeply by focusing on postwar lives *The Fear and the Freedom* Keith Lowe, 2017-10-24 The international bestselling author of *Savage Continent* examines how the world has been transformed by World War II *The Fear and the Freedom* is Keith Lowe's follow up to *Savage Continent* While that book painted a picture of Europe in all its horror as WWII was ending *The Fear and the Freedom* looks at all that has happened since focusing on the changes that were brought about because of WWII simultaneously one of the most catastrophic and most innovative events in history It killed millions and eradicated empires creating the idea of human rights and giving birth to the UN It was because of the war that penicillin was first mass produced computers were developed and rockets first sent to the edge of space The war created new philosophies new ways of living new architecture this was the era of Le Corbusier Simone de Beauvoir and Chairman Mao But amidst the waves of revolution and idealism there were also fears of globalization a dread of the atom bomb and an unexpressed longing for a past forever gone All of these things and more came about as direct consequences of the war and continue to affect the world that we live in today *The Fear and the Freedom* is the first book to look at all of the changes brought about because of WWII Based on research from five continents Keith Lowe's *The Fear and the Freedom* tells the very human story of how the war not only transformed our world but also changed the very way we think about ourselves Magnificent *The Fear and the*

Freedom can justly claim to be one of the best most useful books on World War II to have emerged in the past decade It belongs in everyone's library Paul Kennedy The Wall Street Journal **Regarding the real** Des O'Rawe, 2016-01-01

Regarding the real develops an original approach to documentary film focusing on its aesthetic relations to visual arts such as animation assemblage photography painting and architecture Throughout the book considers the work of figures whose preferred film language is associative and fragmentary and for whom the documentary is an endlessly open form an unstable expressive phenomenon that cannot help but interrogate its own narratives and intentions Combining close analysis with cultural history the book reassesses the influence of the modern arts in subverting structures of realism typically associated with the documentary In the course of its discussion it charts a fascinating path that leads from Len Lye to Hiroshi Teshigahara and includes along the way figures such as Joseph Cornell Johan van der Keuken William Klein Jean Luc Godard Jonas Mekas and Raymond Depardon
