Return to Essentials Geoffrey Rudolph Elton, 2002-08-22 This volume contains the text of the three Cook Lectures which review various current doubts and queries concerning the writing of reasonably unbiased history *A Global History of History* Daniel Woolf, 2011-02-17 An illustrated survey of global historical scholarship from the ancient world to the present for courses in theory and historiography *Interdisciplinary Research* John Atkinson, Malcolm Crowe, 2006-11-02 An important book by researchers from across disciplines introducing varying ideas on research important in these days of interdisciplinary and multi centered investigation The book introduces academics to new areas of endeavour and encourages researchers and students to think broadly when devising their studies Linking chapters present the contributions in an historical and theoretical context identifying the themes between the approaches and encourages new thinking about old problems Includes contributions from leading researchers across the quantitative qualitative spectrum from marine biology to spirituality With funding under increasing pressure the different views will help departments form new alliances and encourage interdisciplinary working **Writing History 7-11** Hilary Cooper, 2014-06-05 Writing History 7 11 supports students and primary teachers helping them to explore ways in which activities involving the talk that underpins historical enquiry can be developed into reading and exciting extended reflective writing The step that teachers and pupils take from talk for learning to talk for writing is a vital one In this book the authors argue that all aspects of historical enquiry leading to writing involve discussion and dialogue which permeate every aspect of doing history From this perspective they set out a theoretical framework for understanding the role of talk and reading in developing pupils critical thinking and confident reflective writing then demonstrate through a series of case studies in which teachers university lecturers and pupils work together how the theory is put into practice in the classroom Themes include How to support children in writing in a variety of interesting genres How to make links between the National Curriculum 2013 for History and for English How to plan for breadth and depth studies in the new National Curriculum How activities in History 5 11 can be developed into exciting extended writing The second half of the book draws upon case studies from a number of real primary classrooms with children of different ages Each case study shows how teaching was planned to develop children s confidence and enjoyment in discussion and to scaffold reasoned written explanation and argument Topics presented are all relevant to the new curriculum framework and include talking and reading about Time change and significance over 6000 years writing a television script Celtic Britain and the Roman Army writing a travel brochure about Celtic Britain The destruction of Roman towns writing a Saxon poem An archaeological investigation of a body in a Danish peat bog writing a newspaper report Did any countries benefit from WW11 writing an argued viewpoint The expansion westwards of European settlers writing a flap book exploring different perspectives This indispensable book provides not only sources for pupils to use in their writing but also models and exemplars of different styles and voices to draw upon History and Film Eleftheria Thanouli, 2018-10-18 A

Choice Outstanding Academic Title History and Film A Tale of Two Disciplines addresses the representation of history in cinema a much argued debate on the need to understand cinematic history in its own terms and develop a certain vocabulary for discussing historical films their relation to public history and their impact on public historical consciousness Eleftheria Thanouli does this by changing the agenda altogether combining a macro level perspective with a micro level one in order to argue that cinematic history is the dominant form of historiography in the 20th century as it succeeded in remediating and repurposing the key formal rhetorical and ideological practices of 19th century professional historiography With case studies ranging from The Thin Red Line and Life is Beautiful to The Fog of War and The Last Bolshevik Thanouli bridges the gap between history and film studies and lays the foundations for a new visual historiography *A Multi-Paradigmatic Approach to Understanding History* Kavous Ardalan,2022-12-08 This book explores the field of history through a multi paradigmatic approach For this purpose it begins with a discussion of four most diverse worldviews or paradigms namely functionalist interpretive radical humanist and radical structuralist before moving on to consider four aspects of the field of history historiography grand narrative progress and time from the viewpoints of the four most diverse worldviews or paradigms Next the book looks at three historical events the French Revolution the American Civil War and the Iranian Revolution from the viewpoints of the four most diverse worldviews or paradigms It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi faceted nature of the subject matter **An Introduction to the Philosophy of History** Michael Stanford,1998-02-04 This book uncovers the wealth of philosophical problems that history presents and encourages further thought on how these issues grow out of historical questions **The Truth of History** C. Behan McCullagh,2002-11-01 Modern relativism and postmodern thought in culture and language challenge the truth of history This book considers how all historians confined by the concepts and forms of argument of their own cultures can still discover truths about the past The Truth of History presents a study of various historical explanations and interpretations and evaluates their success as accounts of the past C Behan McCullagh contests that the variety of historical interpretations and subjectivity does not exclude the possibility of their truth Through an examination of the constraints of history the author argues that although historical descriptions do not mirror the past they can correlate with it in a regular and definable way Far from debating in the abstract and philosophical only the author beds his argument in numerous illuminating concrete historical examples The Truth of History explores a new position between the two extremes of believing that history perfectly represents the past and that history can tell us nothing true of the past Revealing the History of Ancient Palestine Keith W. Whitelam,2018-07-06 This volume is part of the Changing Perspectives sub series which is constituted by anthologies of articles by world renowned biblical scholars and historians that have made an impact on the field and changed its course during the last decades This volume offers a collection of seminal essays by Keith Whitelam on the early history of ancient Palestine and the origins and

emergence of Israel Collected together in one volume for the first time and featuring one unpublished article this volume will be of interest to biblical and ancient Near Eastern scholars interested in the politics of historical representation but also on critical ways of constructing the history of ancient Palestine

New Approaches to International Law José María Beneyto, David Kennedy, 2012-09-25 This volume offers a unique reflection on the historic and contemporary influence of the New Approaches to International Law NAIL movement within the context of Europe and America In particular the contributions focus on the intellectual product of NAIL s founder David Kennedy in relation to three legal streams human rights legal history and the law of war On the one hand the volume is valuable reading for a broad audience interested in the current challenges facing global governance and how critical studies might contribute to innovative intellectual and practice oriented developments in international law On the other hand stemming from a 2010 seminar in Madrid that brought together scholars to discuss David Kennedy s scholarship over the last three decades the contributions here are a testament to the community and ideas of the NAIL tradition The volume includes scholars from a wide field of legal interests and backgrounds
