Returning to Freud, 1980 **Reading Architecture with Freud and Lacan** Lorens Holm, 2022-09-30 Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses **The Cambridge Companion to Lacan** Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and works Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud's works he stressed the idea that the unconscious functions like a language All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike **Lacanian Psychoanalysis** Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice *Sartre and Psychoanalysis* Betty Cannon, 1991 Betty Cannon is the first to

explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post-Freudians like Melanie Klein Otto Kernberg Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy

After Lacan Willy Apollon, Danielle Bergeron, Lucie Cantin, 2012-02-01 After Lacan combines abundant case material with graceful yet sophisticated theoretical exposition in order to explore the clinical practice of Lacanian psychoanalysis Focusing on the groundbreaking clinical treatment of psychosis that Gifric Groupe Interdisciplinaire Freudien de Recherches et d'Interventions Cliniques et Culturelles has pioneered in Quebec the authors discuss how Lacanians theorize psychosis and how Gifric has come to treat it analytically Chapters are devoted to the general concepts and key terms that constitute the touchstones of the early phase of analytic treatment elaborating their interrelations and their clinical relevance The second phase of analytic treatment is also discussed introducing a new set of terms to understand transference and the ethical act of analysis in the subject's assumption of the Other's lack The concluding chapters broaden discussion to include the key psychic structures that describe the organization of subjectivity and thereby dictate the terms of analysis not just psychosis but also perversion and obsessional and hysterical neurosis

Psychology After the Unconscious Ian Parker, 2014-08-13 Ian Parker has been a leading light in the fields of critical and discursive psychology for over 25 years The Psychology After Critique series brings together for the first time his most important papers Each volume in the series has been prepared by Ian Parker and presents a newly written introduction and focused overview of a key topic area Psychology After the Unconscious is the fifth volume in the series and addresses three central questions Why is Freud's concept of the unconscious important today Does language itself play a role in the creation of the unconscious How does Lacan radicalize Freud's notion of the unconscious in relation to cultural research The book provides a clear explanation of Freudian and Lacanian accounts of the unconscious It also highlights their role in offering a new way of describing understanding and working with the human subject in clinical settings and in cultural research Part One shows how the unconscious is elaborated in Freud's early case studies in Studies on Hysteria while Part Two focuses on Lacan's reworking of the unconscious and its relationship to language and culture in his influential public seminars The book also provides access to key debates currently occurring in Freudian and Lacanian

psychoanalysis exploring both the clinical dimension and the consequences for psychological and cultural research

psychological case studies from a master clinician and lyrical writer Each generation of therapists can boast of only a few

recounts five true stories from her practice stories of patients who range from the super rich to the destitute who grapple
with panic attacks psychosomatic illness marital despair and sexual recklessness Intimate original and triumphantly funny
Schopenhauer's Porcupines goes further than any other book in illuminating how talking helps **Sad Comedy of El'dar**

Riazanov David MacFadyen, 2003-10-14 David MacFadyen investigates what made Riazanov's films so wildly popular and
what if any relationship that popularity had to Soviet policy Using the works of Deleuze Lacan and Kristeva MacFadyen looks
at how Riazanov's films relate to society audience demand and Soviet politics In more than twenty love stories that have
precious little to do with statecraft Soviet or otherwise Riazanov captures the willful inclusiveness of socialist culture

False Self Linda Hopkins, 2020-09-15 Winner of the 2007 Gradiva Award and the 2006 Goethe Award for Psychoanalytic
Scholarship The definitive biography of one of the most engaging figures of British psychoanalysis Both gifted analyst and
generational bete noire M Masud R Khan 1924-1989 exposed through his candor and scandalous behavior the bigotry of his
proponents turned detractors The son of a wealthy landowner in rural India now Pakistan Khan grew up in a world of
privilege that was radically different from the Western lifestyle he would adopt after moving to London Notorious for his
flamboyant personality and at first widely acknowledged as a brilliant clinician Khan was closely connected to some of the
most creative and accomplished individuals of his time including Donald Woods Winnicott Anna Freud Robert Stoller Michael
Redgrave Julie Andrews Rudolph Nureyev and many more Khan's subsequent downfall which is powerfully narrated in this
biography offers interesting insights not only into Khan's psychic fragility but into the world of intrigues and deceptions
pervasive in the psychoanalytic community of the time In telling the story of this provocative man Linda Hopkins makes use
of unprecedented access to a complete copy of Khan's unpublished Work Books which are quoted extensively Additionally she
conducted innumerable interviews with Khan's peers relatives and analysts in order to provide an in depth and balanced
account of Masud Khan as a talented and deeply conflicted individual
