Revisionism A Key To Peace And Other Essays:

Revisionism, a Key to Peace and Other Essays Harry Elmer Barnes, 1980 Why American History Is Not What They Say Jeff Rigenbach, 2009 Americans have been warring with each other for more than a century over the contents of the American history textbooks used in the nation's high schools and colleges Page 4 of cover **Opposing the Crusader State** Robert Higgs, Carl P. Close, 2007-09-01 **Opposing the Crusader State** Alternatives to Global Interventionism edited by Robert Higgs and Carl Close examines the history of American noninterventionism and its relevance in today's world For more than a century U S foreign policy whether conducted by Democrats or Republicans liberals or conservatives has been based on the assumption that Americans interests are served best by intervening abroad to secure open markets for U S exports fight potential enemies far from American shores or engage in democratic nation building Before the twentieth century however a foreign policy of nonintervention was widely considered more desirable and Washington's and Jefferson's advice that the republic avoid foreign entanglements was largely heeded Arguing that interventionism is not an appropriate default setting for U S foreign policy the book's contributors clarify widespread misunderstandings about noninterventionism question the wisdom of nation building debate the validity of democratic peace theory and make the case for pursuing a peace strategy based on private property rights and free trade Readers will come away from this book with a richer understanding of the noninterventionist movements in U S history write Higgs and Close in the book's introduction Most important perhaps they will have a firmer understanding of why many classical liberals embrace the strengthening of commercial ties between all countries as a means of avoiding war **The War Against Japan, 1941-1945** John J. Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA's fight against Japan in the Second World War Including books articles and declassified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories historiographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru **Reclaiming the American Right** Justin Raimondo, 2019-08-20 In recent years a number of conservatives have wondered where the Right went wrong One persuasive answer is provided by **Reclaiming the American Right** The Lost Legacy of the Conservative Movement Justin Raimondo's captivating narrative is the story of how the non interventionist Old Right which included half forgotten giants and prophets such as Sen Robert A Taft Garet Garrett and Col Robert McCormick was supplanted in influence by a Right that made its peace with bigger government at home and perpetual war for perpetual peace abroad First published in 1993 **Reclaiming the American Right** is today as timely as ever

The latest volume in ISI Books Background series this edition includes a new introduction by Georgetown political scientist George W Carey Patrick J Buchanan s introduction to the second edition and new critical essays on the text by Scott Richert executive editor of Chronicles and David Gordon senior fellow at the Ludwig von Mises Institute *The Dispossessed Majority* Wilmot Robertson,1981 **Assassins of Memory** Pierre Vidal-Naquet,1992 A collection of articles most of them published previously Pp 143 191 contain the endnotes to the articles Contents **Wilson's War** Jim Powell,2007-12-18 The fateful blunder that radically altered the course of the twentieth century and led to some of the most murderous dictators in history President Woodrow Wilson famously rallied the United States to enter World War I by saying the nation had a duty to make the world safe for democracy But as historian Jim Powell demonstrates in this shocking reappraisal Wilson actually made a horrible blunder by committing the United States to fight Far from making the world safe for democracy America s entry into the war opened the door to murderous tyrants and Communist rulers No other president has had a hand however unintentional in so much destruction That s why Powell declares Wilson surely ranks as the worst president in American history Wilson s War reveals the horrifying consequences of our twenty eighth president s fateful decision to enter the fray in Europe It led to millions of additional casualties in a war that had ground to a stalemate And even more disturbing were the long term consequences consequences that played out well after Wilson s death Powell convincingly demonstrates that America s armed forces enabled the Allies to win a decisive victory they would not otherwise have won thus enabling them to impose the draconian surrender terms on Germany that paved the way for Adolf Hitler s rise to power Powell also shows how Wilson s naivet and poor strategy allowed the Bolsheviks to seize power in Russia Given a boost by Woodrow Wilson Lenin embarked on a reign of terror that continued under Joseph Stalin The result of Wilson s blunder was seventy years of Soviet Communism during which time the Communist government murdered some sixty million people Just as Powell s FDR s Folly exploded the myths about Franklin Roosevelt and the New Deal Wilson s War destroys the conventional image of Woodrow Wilson as a great progressive who showed how the United States can do good by intervening in the affairs of other nations Jim Powell delivers a stunning reminder that we should focus less on a president s high minded ideals and good intentions than on the consequences of his actions A selection of the Conservative Book Club and American Compass **Routledge Library Editions: World War II in Asia** Timothy Hall,John J. Sbrega,2021-03-11 The 4 volumes in this set originally published between 1980 and 1983 bring to light and focus on the conflict between Japan and Australia and Japan and the USA Timothy Hall s volumes richly illustrated with black white photographs used highly contentious documents as their sources and give fascinating insights into a period of Australian history which is sometimes less than glorious John J Sbrega s tour de force is not only one of the most extensive annotated bibliographies on the USA and Japan in World War 2 ever published but it also provides invaluable information on lesser known but no less important aspects of the conflict

Century of War, A John V. Denson,2006 The horrors of the twentieth century could hardly have been predicted in the

nineteenth century which saw the eighteenth century end with the American Revolution bringing about the creation of the first classical liberal government in history The twentieth century was the bloodiest in all history More than 170 million people were killed by government with 10 million having been killed in World War I and 50 million killed in World War II Of the 50 million killed in World War II nearly 70 percent were innocent civilians
