The Undermining of the Sandinista Revolution Gary Prevost, Harry E. Vanden, 2016-04-30 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project

Cinema and the Sandinistas Jonathan Buchsbaum, 2003-10-01 Following the Sandinista Revolution in 1979 young bohemian artists rushed to the newly formed Nicaraguan national film institute INCINE to contribute to the recovery of national identity through the creation of a national film project Over the next eleven years the filmmakers of INCINE produced over seventy films documentary fiction and hybrids that collectively reveal a unique vision of the Revolution drawn not from official FSLN directives but from the filmmakers own cinematic interpretations of the Revolution as they were living it This book examines the INCINE film project and assesses its achievements in recovering a Nicaraguan national identity through the creation of a national cinema Using a wealth of firsthand documentation the films themselves interviews with numerous INCINE personnel and INCINE archival records Jonathan Buchsbaum follows the evolution of INCINE s project and situates it within the larger historical project of

Luciak,2003-05-01 How women active in guerilla movements become active in politics after the war Complements Bayard de Volo s Mothers Heroes Martyrs Gender Identity Politics in Nicaragua 1979 1999 Gender equality and meaningful democratization are inextricably linked writes Ilja Luciak The democratization of Central America requires the full incorporation of women as voters candidates and office holders In After the Revolution Gender and Democracy in El Salvador Nicaragua and Guatemala Luciak shows how former guerrilla women in three Central American countries made the transition from insurgents to mainstream political players in the democratization process Examining the role of women in the various stages of revolutionary and national politics Luciak begins with women as participants and leaders in guerrilla movements Women contributed greatly to the revolutionary struggle in all three countries but thereafter many similarities ended In Guatemala ideological disputes reduced women s political effectiveness at both the intra party and national levels In Nicaragua although women s rights became a secondary issue for the revolutionary party women were nonetheless able to put the issue on the national agenda In El Salvador women took leading roles in the revolutionary party and were able to incorporate women s rights into a broad reform agenda Luciak cautions that while active measures to advance the political role of women have strengthened formal gender equality only the joint efforts of both sexes can lead to a successful transformation of society based on democratic governance and substantive gender equality *Food and Revolution* Christiane Berth,2021-02-02 Food policy and practices varied widely in Nicaragua during the last decades of the twentieth century In the 1970s and 80s food scarcity contributed to the demise of the Somoza dictatorship and the Sandinista revolution Although faced with widespread scarcity and political restrictions Nicaraguan consumers still carved out spaces for defining their food choices Despite economic crises rationing and war limiting peoples food selection consumers responded with improvisation in daily cooking practices and organizing food exchanges through three distinct periods First the Somoza dictatorship 1936 1979 promoted culture and food practices from the United States which was an option only for a minority of citizens Second the 1979 Sandinista revolution tried to steer Nicaraguans away from mass consumption by introducing an austere frugal consumption that favored local products Third the transition to democracy between 1988 and 1993 marked by extreme scarcity and economic crisis witnessed the re introduction of market mechanisms mass advertising and imported goods Despite the erosion of food policy during transition the Nicaraguan revolution contributed to recognizing food security as a basic right and the rise of peasant movements for food sovereignty
