Revolution Reaction In Cuba 1933 1960 A Political Sociology From Machado To Castro:

Revolution and Reaction in Cuba, 1933-1960 Samuel Farber, 1976 *The Origins of the Cuban Revolution Reconsidered* Samuel Farber, 2007-09-06 Analyzing the crucial period of the Cuban Revolution from 1959 to 1961 Samuel Farber challenges dominant scholarly and popular views of the revolution's sources, shape, and historical trajectory. Unlike many observers who treat Cuba's revolutionary leaders as having merely reacted to U.S. policies or domestic socioeconomic conditions, Farber shows that revolutionary leaders, while acting under serious constraints, were nevertheless autonomous agents pursuing their own independent ideological visions, although not necessarily according to a master plan. Exploring how historical conflicts between U.S. and Cuban interests colored the reactions of both nations' leaders after the overthrow of Fulgencio Batista, Farber argues that the structure of Cuba's economy and politics in the first half of the twentieth century made the island ripe for radical social and economic change, and the ascendant Soviet Union was on hand to provide early assistance. Taking advantage of recently declassified U.S. and Soviet documents, as well as biographical and narrative literature from Cuba, Farber focuses on three key years to explain how the Cuban rebellion rapidly evolved from a multiclass antidictatorial movement into a full-fledged social revolution.

A Nation for All Alejandro de la Fuente, 2011-01-20 After thirty years of anticolonial struggle against Spain and four years of military occupation by the United States, Cuba formally became an independent republic in 1902. The nationalist coalition that fought for Cuba's freedom, a movement in which blacks and mulattoes were well represented, had envisioned an egalitarian and inclusive country, a nation for all, as José Martí described it. But did the Cuban republic and later the Cuban revolution live up to these expectations? Tracing the formation and reformulation of nationalist ideologies, government policies, and different forms of social and political mobilization in republican and postrevolutionary Cuba, Alejandro de la Fuente explores the opportunities and limitations that Afro-Cubans experienced in such areas as job access, education, and political representation. Challenging assumptions of both underlying racism and racial democracy, he contends that racism and antiracism coexisted within Cuban nationalism, and in turn, Cuban society. This coexistence has persisted to this day despite significant efforts by the revolutionary government to improve the lot of the poor and build a nation that was truly for all.

A Nation for All Alejandro de la Fuente, 2001 Argues that racism and antiracism continue to coexist in Cuban nationalism and society despite its fight for freedom and describes the limitations Afro-Cubans face in job access, education, and political representation.

Atlantic Crossroads José Moya, 2021-06-24 Unlike most books on the Atlantic that associate its history with European colonialism and thus end in 1800, this volume demonstrates that the Atlantic connections not only outlasted colonialism, they also reached unprecedented levels in postcolonial times when the Atlantic truly became the world's major crossroads and dominant economy. Twice as many Europeans entered New York, Buenos Aires, and São Paulo in 3 years on the eve of WWI as had arrived in all the New World during 300 years of colonial rule. Transatlantic ties surged again with mass movements from the West Indies, Latin America,

and Africa to North America and Western Europe from the 1960s to the present As befits a transnational subject the 24 contributors in this volume come from 14 different countries Over half of the chapters are co authored an exceptional level of scholarly collaboration and all but two are explicitly comparative Comparisons include Congo and Yoruba slaves in Brazil Irish and Italian mercenaries and adventurers in the New World German Lutherans in Canada and Argentina Spanish laborers in Algeria and Cuba the diasporic nationalism of ethnic groups without nation states and the transatlantic politics of fascism and anti fascism in the interwar Overall the volume shows the Atlantic World s distinctiveness rested not on the level or persistence of colonial control but on the density and longevity of human migrations and the resulting high levels of social and cultural contact circulation connection and mixing This title will appeal to students and researchers in the fields of Atlantic and global history migration diaspora slavery ethnicity nationalism citizenship politics anthropology and area studies

Guantanamo Jana K. Lipman, 2008-12-02 Guantanamo has become a symbol of what has gone wrong in the War on Terror Yet Guantanamo is more than a U S naval base and prison in Cuba it is a town and our military occupation there has required more than soldiers and sailors it has required workers This revealing history of the women and men who worked on the U S naval base in Guantanamo Bay tells the story of U S Cuban relations from a new perspective and at the same time shows how neocolonialism empire and revolution transformed the lives of everyday people Drawing from rich oral histories and little explored Cuban archives Jana K Lipman analyzes how the Cold War and the Cuban revolution made the naval base a place devoid of law and accountability The result is a narrative filled with danger intrigue and exploitation throughout the twentieth century Opening a new window onto the history of U S imperialism in the Caribbean and labor history in the region her book tells how events in Guantanamo and the base created an ominous precedent likely to inform the functioning of U S military bases around the world

The

Right to Live in Health Daniel A. Rodríguez, 2020-07-21 Daniel A Rodríguez's history of a newly independent Cuba shaking off the U S occupation focuses on the intersection of public health and politics in Havana While medical policies were often used to further American colonial power in Cuba Rodríguez argues they evolved into important expressions of anticolonial nationalism as Cuba struggled to establish itself as a modern state A younger generation of Cuban medical reformers including physicians patients and officials imagined disease as a kind of remnant of colonial rule These new medical nationalists as Rodríguez calls them looked to medical science to guide Cuba toward what they envisioned as a healthy and independent future Rodríguez describes how medicine and new public health projects infused republican Cuba's statecraft powerfully shaping the lives of Havana's residents He underscores how various stakeholders including women and people of color demanded robust government investment in quality medical care for all Cubans a central national value that continues today On a broader level Rodríguez proposes that Latin America at least as much as the United States and Europe was an engine for the articulation of citizens rights including the right to health care in the twentieth century
