Revolution In World Politics:

The Revolution in World Politics Morton A. Kaplan, 1962 Revolution and World Politics Fred Halliday, 1999-08-23 The relation of revolutions to international relations is central to modern history. Revolutions have as much as war or nationalism shaped the development of world politics. Equally, revolutions have been in cause, ideology and consequence international events. By putting the international politics of revolution centre stage, Fred Halliday's book makes a major contribution to the understanding of both revolution and world politics.

Revolution and International Politics Peter Calvert, 1996
Presenting an analysis of the role of revolution in international politics, this edition takes account of developments since the first edition was published in 1984, such as the dramatic changes in Eastern Europe and the Soviet Union between 1989 and 1991, and the re-evaluation by a number of scholars of the French Revolution. This is followed by various revisionist studies of revolution itself. The book incorporates recent work in the field which calls for some significant changes of emphasis in order to understand the nature of international politics today. International relations as a discipline has moved away from state-centred theory; the new emphasis is on globalization, interdependence and the importance of non-state actors.

Revolution and International Politics Peter Calvert, 2016-10-06 This book aims to present an analysis of the role of revolution in international politics. Concerning itself with the time frame from the French Revolution up to the fall of the Iron Curtain, this book covers the study of revolution itself, the importance of globalisation, interdependence and non-state actors, and the change in the nature of international politics theory.

Political Islam, World Politics and Europe Bassam Tibi, 2014-07-11
The new and updated edition of *Political Islam, World Politics and Europe* focusses on the shift within political Islam in light of 9/11 and the events of the Arab Spring from a jihadist struggle to institutional Islamism. Refuting what has often been referred to by commentators as the moderation of Islamism, the second edition of this book introduces the concept of institutional Islamism, a process which Tibi argues was accelerated in the aftermath of the Arab Spring. Both jihadist and institutional Islamism pursue the same goal of an Islamist state but disagree fundamentally on the strategy for achieving it. Whilst jihadism is committed to the idea of a violent Islamic world revolution, institutional Islamism embraces political institutions as a means to an end. Turning to the events of the Arab Spring in Tunisia, Libya and Egypt, this book attempts to determine whether an abandonment of violence is enough to underpin a shift to genuine democracy. Analysing the fall of Morsi in particular, Tibi questions what lessons can be learnt from his presidency and argues that this event will not change the overall trend of development from jihadism to institutional Islamism. A timely addition to existing literature, this book will be of interest to students and scholars studying Middle Eastern and European Politics.
