Revolution Socialism And Nationalism In Viet Nam An Interrupted Revolution:

Revolution, Socialism and Nationalism in Viet Nam: An interrupted revolution Ken Post,1989 **Revolution, Socialism and Nationalism in Vietnam: Viet Nam, an interrupted revolution** Ken Post,1989 **Revolution, Socialism, and Nationalism in Viet Nam** Ken Post,1994-01-01 This final volume completes the history and analysis of the Vietnamese Revolution by bringing it up to final Communist victory in 1975 Although it deals with the relevant developments in the North it basically concentrates on the struggle in the South following the massive US intervention in 1965 Unlike other analyses it focuses primarily on the Vietnamese protagonists the Communists and the Republic of Viet Nam examining above all the questions of why the former were able to win and whether the latter could ever have been a viable regime

Revolution, Socialism and Nationalism in Viet Nam: An interrupted revolution Ken Post,1989 **Revolution and Dictatorship** Steven Levitsky,Lucan Way,2024-10-29 Why the world s most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

Rethinking Theory and History in the Cold War Richard Saull,2001 *Rethinking Theory and History in the Cold War* focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society

BOOK JACKET **Revolution's Other World** Ken Post, 2016-07-27 Ken Post examines the turn to the East by the international communist movement in fostering world revolution after the success in Russia in 1917 which led to communism's greatest gains after the Second World War. Based on a theorisation of the building of revolutionary movements, this study critically assesses communist strategy and tactics using three key cases: China, India, and Brazil, drawing out implications for possible future developments in less developed countries. Revolution and the European Experience 1789-1914 K.

Post, 1999-08-12 This study argues that the Europe which is now being united was originally the product of the French revolution 1789-95 and then formed by the emergent industrial capitalism. Given the prediction and fear that the new working class would launch another revolution which would spread, the author investigates why that did not in fact prove to be the case. Rather, the new working classes were incorporated as part of the dynamics of capitalist development.

Communists and National Socialists Ken Post, 1997-06-11 A study of the Russian Revolution of 1917 and the coming to power of the Nazis in Germany in 1933 in light of the marxist proposition that revolution would come in advanced capitalist societies. The implications of the actual cases for the theory are drawn out, and an original theorization of capitalist crisis combining economic and political factors is put forward. Regaining Marxism Ken Post, 2016-07-27 This book responds to recent events by proposing a radical reshaping of Marxist theory. Taking the core problem as that of the historical subject, it conceptualises human life in terms of four interrelated practices. It explores these in turn in the context of a capitalism divided into centre and periphery, primarily through nine theoretical reconstructions which attempt to meet such problems as the labour theory of value, the nature and role of the state, and consciousness.
