Revolution Through Peace:

The Reading and Preaching of the Scriptures in the Worship of the Christian Church, Vol. 7 Hughes Oliphant Old, 2010 The Reading and Preaching of the Scriptures in the Worship of the Christian Church is a multivolume study by Hughes Oliphant Old that canvasses the history of preaching from the words of Moses at Mount Sinai through modern times In Volume 1 The Biblical Period Old begins his survey by discussing the roots of the Christian ministry of the Word in the worship of Israel He then examines the preaching of Christ and the Apostles Finally Old looks at the development and practice of Christian preaching in the second and third centuries concluding with the ministry of Origen *From Revolution to War* Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas

Peace and Security in the Asia-Pacific Sorpong Peou, 2010-04-15. Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies, this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific. The Asian Pacific has emerged as one of the most important regions in the world, causing scholars to pay increased attention to the various challenges, old and new, to peace and security there. *Peace and Security in the Asia Pacific: Theory and Practice* is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences. Illuminating ongoing debates in the field, the book covers some 20 theoretical perspectives on peace and security in the Asian Pacific, including realist, liberal, socialist, peace, and human security, constructivist, feminist, and nontraditional security studies. The first section of the book discusses perspectives in realist security studies; the second part covers perspectives critical of realism. The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism. His conclusion is that each theoretical perspective has its strengths and weaknesses, leaving eclecticism as the best way to understand the region's dynamics.
