Monsters and Monstrosity in Jewish History Iris Idelson-Shein, Christian Wiese, 2019-02-21 This is the first study of monstrosity in Jewish history from the Middle Ages to modernity Drawing on Jewish history literary studies folklore art history and the history of science it examines both the historical depiction of Jews as monsters and the creative use of monstrous beings in Jewish culture Jews have occupied a liminal position within European society and culture being deeply immersed yet outsiders to it For this reason they were perceived in terms of otherness and were often represented as monstrous beings However at the same time European Jews invoked with tantalizing ubiquity images of magical terrifying and hybrid beings in their texts art and folktales These images were used by Jewish authors and artists to push back against their own identification as monstrous or diabolical and to tackle concerns about religious persecution assimilation and acculturation gender and sexuality science and technology and the rise of antisemitism Bringing together an impressive cast of contributors from around the world this fascinating volume is an invaluable resource for academics postgraduates and advanced undergraduates interested in Jewish studies as well as the history of monsters

The Routledge Companion to Medieval Iconography Colum Hourihane, 2016-12-19 Sometimes enjoying considerable favor sometimes less iconography has been an

essential element in medieval art historical studies since the beginning of the discipline. Some of the greatest art historians including M le Warburg, Panofsky, Morey and Schapiro have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell. Over the last thirty or so years, scholarship has seen the meaning and methodologies of the term considerably broadened. This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline. The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies; the third and largest section looks at some of the major themes in medieval art. Taken together, the three sections include thirty-eight chapters, each of which deals with an individual topic. An introduction, historiographical evaluation, and bibliography accompany the individual essays. The authors are recognized experts in the field, and each essay includes original analyses and/or case studies which will hopefully open the field for future research.

Saracens and Franks in 12th - 15th Century European and Near Eastern Literature Aman Y. Nadhiri, 2016-06-10. *Saracens and Franks in 12th-15th Century European and Near Eastern Literature* examines the tension between two competing discourses in the medieval Muslim Mediterranean and medieval Christian Europe: one rooted in the desire to understand the world and one's place in it, and another promoting an ethnocentric narrative. To this end, it examines the construction of an image of the Other for Muslims in the Eastern Mediterranean and for Christians in Western Europe in works of literature, particularly in the works produced in the centuries preceding the Crusades, and it explores the ways in which both Muslim and Christian writers depicted the Enemy in historical accounts of the Crusades. The author focuses on medieval works of ethnography and geography, travel literature, Muslim and Christian accounts of the Crusades, and the romances of Western Europe to trace the evolution of the image of the Eastern Mediterranean Muslim in medieval Western Europe and the Western European Christian in the medieval Muslim world: first to understand the construct in the respective scholarly communities and then to analyze the ways in which this conception informs subsequent works of non-fiction and fiction in the Western European context in which this Muslim or Christian Other plays a prominent role. In its analysis of the medieval Mediterranean Muslim and European Christian approaches to difference, this book interrogates the premises underlying the concept of the Other, challenging formulations of binary opposition such as the West versus Islam/Muslims.

The Jewish-Christian Encounter in Medieval Preaching Jonathan Adams, Jussi Hanska, 2014-10-03. This book explores the complexity of preaching as a phenomenon in the medieval Jewish-Christian encounter. This was not only an encounter as physical meeting or confrontation, such as the forced attendance of Jews at Christian sermons that took place across Europe, but also an imaginary or theological encounter in which Jews remained a figure from a distant, constructed time and place who served only to underline and verify Christian teachings. Contributors also explore the Jewish response to Christian anti-Jewish preaching in their own preaching and religious instruction.

Living Together, Living Apart Jonathan Elukin, 2024-11-01 This historical study of Jewish life in Medieval Europe provides a much needed corrective to the popular notion of constant persecution Ivan G Marcus Yale University In Living Together Living Apart Jonathan Elukin traces the experience of Jews in Europe from late antiquity through the Renaissance and Reformation revealing how the pluralism of medieval society allowed Jews to feel part of their local communities despite recurrent expressions of hatred against them Elukin shows that Jews and Christians coexisted more or less peacefully for much of the Middle Ages and that antisemitic violence was largely isolated He reveals an extraordinary picture of Jews living comfortably among their Christian neighbors working with them and occasionally cultivating lasting friendships even as Christian culture often demonized Jews As Elukin makes clear the expulsions of Jews from England France Spain and elsewhere were not the inevitable culmination of persecution but arose from the religious and political expediencies of particular rulers He demonstrates that the history of successful Jewish Christian interaction in the Middle Ages in fact laid the social foundations that gave rise to the Jewish communities of modern Europe

Wounds and Wound Repair in Medieval Culture, 2015-10-05 The spectacle of the wounded body figured prominently in the Middle Ages from images of Christ's wounds on the cross to the ripped and torn bodies of tortured saints who miraculously heal through divine intervention to graphic accounts of battlefield and tournament wounds evidence of which survives in the archaeological record and literary episodes of fatal or not so fatal wounds This volume offers a comprehensive look at the complexity of wounding and wound repair in medieval literature and culture bringing together essays from a wide range of sources and disciplines including arms and armaments military history medical history literature art history hagiography and archaeology across medieval and early modern Europe Contributors are Stephen Atkinson Debby Banham Albrecht Classen Joshua Easterling Charlene M Eska Carmel Ferragud M R Geldof Elina Gertsman Barbara A Goodman M ire Johnson Rachel E Kellett Ilana Krug Virginia Langum Michael Livingston Iain A MacInnes Timothy May Vibeke Olson Salvador Ryan William Sayers Patricia Skinner Alicia Spencer Hall Wendy J Turner Christine Voth and Robert C Woosnam Savage
