Save The Earth At Work

Raymond Buckland

Save The Earth At Work:

50 Simple Things Kids Can Do to Save the Earth Earth Works Group (U.S.),1990 Explains how specific things in a child s environment are connected to the rest of the world how using them affects the planet and how the individual can develop habits and projects that are environmentally sound Why Women Will Save the Planet Bloomsbury Publishing,2018-03-01 Big cities don t have to mean a dystopian future They can be turned around to be powerhouses of well being and environmental sustainability if we empower women This book is a unique collaboration between C40 and Friends of the Earth showcasing pioneering city mayors key voices in the environmental and feminist movements and academics The essays collectively demonstrate both the need for women s empowerment for climate action and the powerful change it can bring A rallying call for the planet for women for everyone **To Save the Earth, Work Less!: The Crucial Environmental Issue No One Is Talking About** Charles Siegel,2023-10-17 With well chosen data Siegel demonstrates how countries like The Netherlands have created a prosperous economy with low unemployment due to letting employees work fewer hours To Save the Earth Work Less is an urgent thought provoking resource This is a quick potent read that will spark conversation and provide food for thought on essential questions of the American dream what it actually means to feel satisfied in life and nothing less than the fate of the world Booklife Creating Jobs Americans believe we need rapid economic growth to create jobs and avoid unemployment but that is because we do not have the choice of working shorter hours The Dutch have a better model By law they can choose to work part time which means they avoid unemployment by creating the amount of work people actually want rather than by creating full time jobs We have reached the point where economic growth no longer brings significant benefits International comparisons show that higher income no longer improves a nation s happiness health or educational achievement significantly after it reaches less than two thirds of the current American level And postwar America s push to promote automobile use to stimulate the economy actually made our cities less livable The average American employee works 25% more than the average Dutch employee but the available measures of well being show that all the extra work doesn t do us any good In the course of this century most nations of the world could emerge from poverty and have a comfortable middle class standard of living if we can avoid ecological crisis But that is a big if To create a sustainable economy with a high quality of life it is essential for the world to follow the Dutch model of shorter work hours and slower growth rather than the postwar American model of long work hours and rapid growth But no mainstream politician is talking about the crucial issue of work time Earthways Carol Petrash,1992 Seasonal activities recipes and hands on nature crafts for ages 3 and older designed to produce a loving relationship with nature in the classroom or home Includes tips on recycling composting making natural toys and play spaces and using earth friendly craft materials and cleaning products **Compassion in Action** Ram Dass,1995-10-03 Featuring an eye catching new cover this classic guide is for those ready to commit time and energy to relieving suffering in the world No two people are better qualified to help us

along this path than Ram Dass who has spent more than 25 years teaching and writing on the subject of living consciously and Mirabi Bush who succeeded him as chairperson of the Seva Foundation

Saving Earth's Animals Brienna Rossiter, 2021-08-01 This book explains the causes and effects of endangered animals as well as what individuals and groups can do to help protect them The book includes a table of contents one infographic informative sidebars a You Can Help special feature quiz questions a glossary additional resources and an index
