Forthcoming Books Rose Arny, 1997-04 **American Book Publishing Record** ,1991 **Saving Our Children From Poverty** Barbara R. Bergmann, 1999-04-01 More than one in five American children live below the poverty line a proportion that exceeds that of any other advanced nation Although large numbers of Western European children live with single or unemployed parents or belong to disadvantaged minorities they are better shielded from severe deprivation by carefully designed public assistance programs Saving Our Children from Poverty describes one of the most successful European systems of assistance for families that of France and through comparison with American programs offers a valuable guide to improving our own safety net for children and reforming our dysfunctional welfare system Saving Our

Children from Poverty details the array of benefits available to both high and low income families in France Government run nursery schools provide free high quality care for almost all children between the ages of three and six Children also receive guaranteed medical care under a national health insurance plan The French system offers married couples most of the same benefits as single parents and creates strong incentives to seek and hold jobs rather than remain on welfare A French single mother who chooses to work still receives substantial income supplements housing assistance subsidized health care and access to public child care facilities In stark contrast her American counterpart loses most of her cash benefits if she takes a job and receives no government assistance with child care Because American policies focus disproportionately on aiding the poorest non working families parents forced to rely on low wage jobs are frequently left without the resources to provide their children with an adequate standard of living As the public debate on welfare reform continues to rage ever more American children fall into poverty Why does the nation remain so unresponsive to their plight Saving Our Children from Poverty probes the American aversion to national assistance programs citing the negative attitudes that have seeped into the current political discourse A lack of faith in the federal government s administrative abilities has bolstered a trend toward decentralization of programs as well as a growing resistance to taxation Racial antipathies and a belief that financial support encourages irresponsibility further undermine the development of programs for those in need Saving Our Children from Poverty illustrates what a nation no wealthier than ours can realistically accomplish and afford and concludes with a viable blueprint for successfully applying aspects of France s system to the United States *Wasting America's Future* Marian Wright Edelman,1994-10-31 The Health and Human Services poverty line for a three person family in America is 11 800 in annual income One in every five American children is growing up in poverty What does child poverty mean for the economic and societal future of our country The Children s Defense Fund widely considered the most powerful force for children in America has assembled expert and ground breaking information on how poverty affects health childhood deaths low birth weight and injury on the insidious connections between low family income and learning disabilities on links between poverty abuse and neglect and self esteem and much more Wasting America s Future is the crucial citizen s handbook as we continue the national debate on welfare reform **Child Poverty** Save the Children, UK.,2016
