Devil Dorothy Hinshaw Patent, 2019 In this addition to the critically acclaimed Scientist in the Field series Dorothy Patent follows the scientists trying to put a stop to a gruesome disease before it's too late Tasmanian devils are dying at an alarming rate from a type of tumor that appears to be contagious What scientists are learning while researching the Tasmanian devil has potential to affect all animals and even humans as they learn more about how to prevent and hopefully eradicate certain genetic diseases In 1995 a deadly disease began sweeping across the Australian island state of Tasmania killing every infected Tasmanian devil The disease moved so fast that some scientists feared the species would be wiped out in the wild within a few decades Where did this disease named Devil Facial Tumor Disease come from What caused it a virus bacteria or something else How did it pass from one devil to another What could be done to fight it When author Dorothy Hinshaw Patent learned of the race to save the devil from her friend Australian geneticist Jenny Graves she felt compelled to travel to Australia to learn firsthand from scientists what they were finding out about these iconic Tasmanian animals and what they were doing to help it from disappearing in the wild Follow Dorothy as she takes readers on a fascinating journey into the Australian mainland and Tasmania visiting parks and wildlife refuges and joining geneticist ecologists and other researchers as they work tirelessly to save Tasmania's unique icon Saving Power Peter Schmiechen, 2005 Jesus death and

resurrection are undeniably central to the Christian faith But how precisely is their significance to be understood Concerned to reinvigorate the church's teaching on the cross the resurrection and salvation the atonement Peter Schmiechen here invites readers to rediscover the wealth of the Christian tradition In Saving Power he makes ample use of primary sources to unpack ten distinct theories of atonement welcoming aspects of each rather than championing only one Along the way he demonstrates that while most Christians assume the basic theme of atonement to be sin and forgiveness other powerful

themes liberation from oppressive powers reconciliation in the face of division and the hope of resurrection in the face of death for instance also deserve to be studied and preached Affirming orthodox teaching while offering a positive take on marginal views Saving Power is a crucial resource for anyone who seeks a fuller understanding of Christ's work *Save Our Souls: Rescues Made by U.S. Submarines During World War II* Douglas E. Campbell, 2016-04-02 At last count nearly 2 400 people can claim that their lives were saved by a U S submarine during World War II Of that number 523 Allied aviators could claim that distinction after crashing their aircraft into the sea and being saved by a submarine operating in the Lifeguard League The remaining number were a collection of other military and civilian personnel each with a story to tell and now able to tell their grand children Some of those rescued went on to retire as senior military officers including U S Navy Admirals some back to missionary work some to manage large companies in later years some to philanthropic endeavors to pay everyone back for saving their lives Appendix A is an intensely researched index of nearly 2 200 names of those saved **Seven Saved Sinners, Or How God Saves Men** William Ward Ayer, 2007-11-01 A Study of God's varieties of religious experience in the Book of Acts Be Saved!
