The Consecration of the Writer, 1750-1830 Paul Bănichou, 1999-01-01
The Consecration of the Writer is the definitive study of the first stages of a phenomenon that has profoundly affected world literature the process by which modern writers ceased to speak as representatives of some religious or political power and instead seized the mantle of spiritual authority in their own right speaking directly to and in the name of humanity Paul Bănichou identifies three great moments in this process the advent of the Enlightenment faith in philosophy and the rise of its literary concomitant the man of letters the literary creations of the counterrevolution and their surprising involvement in the elevation of the status of poetry and finally the fusion of these tendencies in the early phases of romanticism in France Bănichou deepens our understanding of romanticism by showing that it was a revision of the Enlightenment faith rather than a reaction against it The extraordinary depth of Bănichou's research the originality of his conclusions and the importance of his methodological reflections make this study an essential reference in the contemporary return to literary history

Richard, Myrtle, and I Stephen Hudson, 2016-11-11 Stephen Hudson is the pen name of Sydney Schiff 1868-1944 an English novelist who received acclaim in the 1920s and 1930s from such writers as Thomas Mann and Somerset Maugham Since that time however literary tastes have changed and interest in Hudson's work has diminished That Hudson's novels do

not deserve such obscurity is the belief of Theophilus E M Boll who here introduces one of the best of them Richard Myrtle and I to present day readers Boll s biographical and critical sections contain respectively the first authentic account of Hudson s life and the first comprehensive study of the development and the meaning of his art as novelist and short story writer The two part introduction adds a wholly new section to the history of the English novel in the twentieth century and to the history of literary relationships between the Continent and England In telling the story of a marriage of minds and the literary consequences it produced Boll places the form and content of Hudson s art against the background of his particular experiences The novel Richard Myrtle and I which forms the second half of this volume is clearly representative of Stephen Hudson s best work It is largely autobiographical in its main theme the evolution of Stephen Hudson as novelist Newly edited by Violet Schiff the Myrtle in the story it is a blend of realism and allegory that tells how a strong creative impulse and encouragement from a sympathetic wife make it possible for a sensitive and perceptive man to become a creative artist Appraising his own work Stephen Hudson once remarked I have never had any desire to write for the sake of writing and I am devoid of ambition I have accumulated a quantity of vital experience which remains in a state of flux Continuously passing in and out of my consciousness it demands to be sorted out and synthesized When the chaos becomes unbearable I start writing and go on until the congestion is relieved Referring to this passage Boll comments We ought not to misunderstand that modesty of his It was based on a pride that aimed at perfection because nothing lower was worth aiming at After the labor of creating was over Hudson measured what he had done against what he judged to be supremely great any lower standard meant a concession his pride would not make It is in Richard Myrtle and I that Stephen Hudson came closest perhaps to his unattainable goal Lily and the Major Linda Lael Miller,2011-05-24 The first novel in the romantic Orphan Train trilogy is a beloved historical classic about a woman who must choose between her family and her one true love by 1 New York Times bestselling author Linda Lael Miller In his arms she discovered how tender and how bold true passion could be Lily Chalmers wanted only two things from life a farm of her own and to find the sisters she hadn t seen since they were all little girls heading West on the orphan train She certainly had no desire for a husband Yet proud innocent Lily had no idea what desire meant until she met Major Caleb Halliday a man who could ignite her very being with a single touch a glance a whisper Sheltered in his arms Lily rode the crest of a wild helpless passion And though she struggled against her own willful heart she knew she could never choose between the dazzling man who had claimed her love so completely and her bold long cherished dream The Queen of Naples and Lord Nelson John Cordy Jeaffreson,1889 *Confessions of the Nun of St Omer* Lucy Cogan,2016-02-12 Charlotte Dacre s debut novel Confessions of the Nun of St Omer 1805 was a bestseller in its day launching the career of a woman who would go on to become one of the nineteenth century s most notorious female novelists The work tells the story of the wilful Cazire who recounts her passionate and destructive youthful adventures from the convent where she now lives in seclusion Although Dacre s fame then and now rests largely on her sensationalist plots

and portrayal of sexually self possessed female villains Confessions of the Nun of St Omer shows a different side to her writing one that is engaged in the political debate surrounding the French Revolution and eager to uphold the conservative moral line Indeed in many ways the novel strives to exemplify the moral and social orthodoxies of its time dealing with themes of education passion seduction and the dangers of the radical new philosophy Yet even at this early stage of her career the author s frank exploration of the power of female desire reveals a willingness to experiment with themes left untouched by more conventional Romantic era novelists themes that would dominate her writing for years to come This edition of Charlotte Dacre s book is based on the Chawton House Library copy of the text from 1805 and contains textual notes The book will be of interest to those researching the Gothic women s writing and the development of the nineteenth century novel

Full Circle Ferdinand Mount,2010-05-27 So much about the society that is now emerging in the twenty first century bears an astonishing resemblance to the most prominent features of what we call the classical world its institutions its priorities its entertainment its physics its sexual morality its food its politics even its religion The ways in which we live our rich and varied lives correspond almost eerily so to the ways in which the Greeks and Romans lived theirs Whether we are eating and drinking bathing or exercising or making love pondering admiring or enquiring our habits of thought and action our diversions and concentrations recreate theirs It is as though the 1500 years after the fall of Rome had been time out from traditional ways of being human This eye opening book makes us look afresh at who we are and how we got here Full Circle is not only wonderfully witty and brilliantly astute but also profound and often disquieting Ferdinand Mount effortlessly peels back 2000 years of history to show how much we are like the ancients how in ways both trivial and crucial we are them and they are us

Reading Bodies Callie Callon,2019-01-10 Callie Callon investigates how some early Christian authors utilized physiognomic thought as rhetorical strategy particularly with respect to persuasion Callon shows how this encompassed denigrating theological opponents and forging group boundaries invective against heretics or defence of Christians self representation to demonstrate the moral superiority of early Christians to Greco Roman outsiders and the cultivation of collective self identity The work begins with an overview of how physiognomy was used in broader antiquity as a component of persuasion Callon then examines how physiognomic thought was employed by early Christians and how physiognomic tropes were employed to prove their orthodoxy and moral superiority Building on the conclusions of the earlier chapters Callon then focuses on the representation of the physiognomies of early Christian martyrs before addressing the problem of the acceptance or even promotion of the idea of a physically lacklustre Jesus by the same authors who otherwise utilize traditional physiognomic thought
