Family Fictions Christopher Flint,2002-02 By revealing the investment of eighteenth century British prose fiction in contemporary debates about domestic ideology this book addresses the multiple ways in which traditional notions of the family were estranged reconstituted as novel concepts and then finally presented as national social norms It focuses on works by Aphra Behn Daniel Defoe Samuel Richardson Eliza Haywood Horace Walpole Laurence Sterne and Mary Wollstonecraft addressing a number of narratives that historians of the novel have overlooked while linking such better known works as Robinson Crusoe and Pamela to their often neglected sequels Challenging competing critical claims that the household either experienced a revolution in form or that it remained essentially unchanged the author argues that eighteenth century writers employed a set of complementary strategies to refashion the symbolic and affective power of bourgeois domesticity Whether these writers regarded the household as a supplement to such other social institutions as the Church or the monarchy or as a structure resisting these institutions they affirmed the family s central role in managing civil behavior At a time however when the middle class was beginning to scrutinize itself as a distinct social entity its most popular form of literature reveals that many felt alienated from the most intimate and yet explosive of social experiences family life Prose fiction sought to channel these disturbingly fluid domestic feelings yet was in itself haunted by the specter of unregulated affect Recovering the period s own disparate perceptions of household relations the book explains how eighteenth century British prose fiction which incorporates elements from conduct books political treatises and demographic material used the family as an instrumental concept in a struggle to resolve larger cultural tensions at the same time it replicated many of the rifts within contemporary family ideology

Ciuba, 2011-02-04 In this groundbreaking study Gary M Ciuba examines how four of the South's most probing writers of twentieth century fiction Katherine Anne Porter Flannery O'Connor Cormac McCarthy and Walker Percy expose the roots of violence in southern culture Ciuba draws on the paradigm of mimetic violence developed by cultural and literary critic Ren Girard who maintains that individual human nature is shaped by the desire to imitate a model Mimetic desire may lead in turn to rivalry cruelty and ultimately community sanctioned and sometimes ritually sanctified victimization of those deemed outcasts Ciuba offers an impressively broad intellectual discussion that gives universal cultural meaning to the southern experience of desire violence and divinity with which these four authors wrestled and out of which they wrote In a comprehensive analysis of Porter's semiautobiographical Miranda stories Ciuba focuses on the prescribed role of women that Miranda imitates and ultimately escapes O'Connor's *The Violent Bear It Away* reveals three characters whose scandalous animosity caused by religious rivalry leads to the unbearable stumbling block of violence McCarthy's protagonist in *Child of God* Lester Ballard appears as the culmination of a long tradition of the sacred violence of southern religion twisted into his own bloody faith And Percy's *The Thanatos Syndrome* brings Ciuba's discussion back to the victim in Tom Moore's renunciation of a society in which scapegoating threatens to become the foundation of a new social regime From nostalgia

for the old order to visions of a utopian tomorrow these authors have imagined the interrelationship of desire antagonism and religion throughout southern history Ciuba s insights offer new ways of reading Porter O Connor McCarthy and Percy as well as their contemporaries who inhabited the same culture of violence violence desired dreaded denied and deified
