Dale,2015-03-24 Let's see this is the part where I convince you that you need this book This book will massage your feet This book will bring you a fuzzy blanket at the end of a long day of parenting your tiny little insanazoids I promise to make you snort laugh at least once After reading this book you'll rock jazz hands be able to sing on key and never ever have to fold laundry again Okay they told me I'm actually supposed to tell you a little about the book Um right Look Here's the thing Too many of us women are frazzled and lonely isolated in our minivans while schlepping bags strollers and munchkins to and fro across town It doesn't have to be this way In this guide to momlationships I use a dating analogy to take us around the bases to our home run friendships the ones that last a lifetime not just a soccer season This is our journey to each other to finding our people and being other people's people learning how to bless each other and not destroy each other It's sometimes scary And always awkward Let's have some fun **Loving What Is, Revised Edition** Byron Katie,Stephen Mitchell,2021-12-07

Discover the truth hiding behind troubling thoughts with Byron Katie's self help classic In 2003 Byron Katie first introduced the world to The Work with the publication of Loving What Is Nearly twenty years later Loving What Is continues to inspire people all over the world to do The Work to listen to the answers they find inside themselves and to open their minds to profound spacious and life transforming insights The Work is simply four questions that when applied to a specific problem enable you to see what is troubling you in an entirely different light Loving What Is shows you step by step through clear and vivid examples exactly how to use this revolutionary process for yourself In this revised edition readers will enjoy seven new dialogues or real examples of Katie doing The Work with people to discover the root cause of their suffering You will observe people work their way through a broad range of human problems learning freedom through the very thoughts that had caused their suffering thoughts such as my husband betrayed me or my mother doesn't love me enough If you continue to do The Work you may discover that the questioning flows into every aspect of your life effortlessly undoing the stressful thoughts that keep you from experiencing peace Loving What Is offers everything you need to learn and live this remarkable process and to find happiness as what Katie calls a lover of reality Living Scared Linda Allone,2007-11-28 This is the first thing we've done right with this kid argued Dr Epstein after I challenged his decision to alter my son's course of treatment Just listening to this world renowned pediatric neurosurgeon admit to all the negligent care that hurt James and trapped us in the hospital for months terrified me As Dr Epstein rambled on about finally being on the right track with James's care I wondered if I'd ever get my son out of this hospital alive This unimaginable nightmare all began in August 1982 when my

youngest son James was admitted to New York Cornell Hospital in Manhattan New York He was diagnosed and treated with radiation for a brainstem glioma tumor The doctors told us that James would probably die in less than a year In 1985 James was admitted to NYU Medical Center in Manhattan New York for what the doctors said was a recurrence of his brain disease James was expected to undergo one surgery to remove the tumor and return home in seven to ten days As a result of repeated mistakes by doctors nurses and physical therapists James was forced to undergo eight surgeries including one surgery that was performed without our knowledge or consent Nine months later my son was discharged from NYU Medical Center permanently injured and totally disabled Sixteen years later we discovered that James never had a brainstem tumor

Living Scared begins as a heart wrenching memoir but quickly develops into a hard hitting exposé that probes indifference complacent attitudes reckless behavior incompetence eroding ethics descending standards of practice and widespread corruption in medicine Medical Negligence Is A National Crisis Screaming newspaper headlines doctor operates on the wrong leg or surgical instrument left inside patient have become a commonplace occurrence as medical negligence spreads pervasively throughout our nation What once was so shocking to people now hardly raises an eyebrow because allowed behavior has become accepted behavior Sadly we have no one to blame for this atrocity but ourselves because our society has come to accept the avoidable mistakes that occur in all hospitals as human error and that's wrong An estimated 100 000 people die from hospital infections every year Another 100 000 people die from medical negligence Some 15 million people a year are injured as a result of medication mistakes Hospitals rarely blame doctors or nurses for the medical mistakes that occur in hospitals More often than not hospital administrators invariably blame the system each time a patient is injured or killed as a result of a medical mistake Disciplinary action against the doctor or nurse involved is rarely executed An example of this Chief Executive Sam Odle of Methodist Hospital in Indianapolis said Whenever something like this happens regarding a medication mix up that killed three infants on September 23 2006 it is not an individual responsibility it's an institutional responsibility The truth is human negligence is often responsible for a majority of the mistakes that occur in hospitals but hospital administrators will never admit to this fact Instead they shrewdly manipulate the public and minimize public outrage by blaming the system each time a patient dies as a result of medical negligence This strategy works very well because the system is intangible and people don't seem to get as fired up when the system fails as opposed to a living breathing human who failed to do their job and was responsible for the death of a patient This nationwide crisis approaching epidemic proportions has prompted the U S government to issue a warning to all hospitals to clean up their act after a national survey showed that 47 percent of Americans were directly affected or knew of someone affected
