Richard Higgins,2017-04-04 Trees were central to Henry David Thoreau s creativity as a writer his work as a naturalist his thought and his inner life His portraits of them were so perfect it was as if he could see the sap flowing beneath their bark When Thoreau wrote that the poet loves the pine tree as his own shadow in the air he was speaking about himself In short he spoke their language In this original book Richard Higgins explores Thoreau s deep connections to trees his keen perception of them the joy they gave him the poetry he saw in them his philosophical view of them and how they fed his soul His lively essays show that trees were a thread connecting all parts of Thoreau s being heart mind and spirit Included are one hundred excerpts from Thoreau s writings about trees paired with over sixty of the author s photographs Thoreau s words are as vivid now as they were in 1890 when an English naturalist wrote that he was unusually able to to preserve the flashing forest colors in unfading light Thoreau and the Language of Trees shows that Thoreau with uncanny foresight believed trees were essential to the preservation of the world **United States Plant Patents** United States.
