Elliott,2021-08-02 Chance fills every day of our lives and affects every decision we make Yet for something woven so closely into the fabric of our being we are not very good at thinking about uncertainty and risk In this lively and engaging book Andrew C A Elliott asks why this is so He picks at the threads and in showing how our world is built on probability rather than certainty he identifies five obstacles to thinking about uncertainty that confuse us time after time Elliott takes us into the casino but this is not an invitation to gamble He looks at financial markets but this is not a guide to investment There s discussion of health but this is not a medical book He touches on genetics and evolution and music making and writing because chance is at work there too Entering many different fields What are the Chances of That is always following the trail of chance and randomness One purpose of the book is to go cross country to show that there are connected ways of thinking that disrespect boundaries and cut across the domains of finance and gambling and genetics and public health and creativity Through it one visits the vantage points that give a broad view of the landscape and sees how these different areas of life and knowledge are connected through chance What are the Chances of That discusses chance and the importance of understanding how it affects our lives It goes beyond a mathematical approach to the subject showing how our thinking about chance and uncertainty has been shaped by history and culture and only relatively recently by the mathematical theory of probability In considering how we think about uncertainty Elliott proposes five dualities that encapsulate many of the ambiguities that arise Scarne's New Complete Guide to Gambling New Complete Guide to Gambling John Scarne,1974 *AB Bookman's Weekly* ,1992 *Library of Congress Catalogs* Library of Congress,1970 *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles* University of California (System).
